EXECUTIVE ORDER 9351

AUTHORIZING THE SECRETARY OF THE NAVY TO TAKE POSSESSION OF AND OPERATE THE PLANT OF THE HOWARTH PIVOTED BEARINGS COMPANY AT PHILADELPHIA, PENNSYLVANIA

WHEREAS Howarth Pivoted Bearings Company has entered into contracts for the manufacture of war materials essential to the construction programs of the United States Navy Department and the United States Maritime Commission; and

WHEREAS it is deemed essential that the plant of Howarth Pivoted Bearings Company, located at Philadelphia, Pennsylvania, be taken over for use and operation by the United States of America in order that it may be effectively operated in the manufacture of the kind, quantity, and quality of such war materials:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, pursuant to the powers vested in me by the Constitution and laws of the United States, as President of the United States and Commander-in-Chief of the Army and Navy of the United States, hereby authorize and direct the Secretary of the Navy immediately to take possession of and operate the plant of Howarth Pivoted Bearings Company, located at Philadelphia, Pennsylvania, in order to produce effectively essential war materials required by the United States of America and to do all things necessary or incidental to that end.

The Secretary of the Navy may exercise the authority herein conferred through and with the aid of such person or persons or instrumentalities as he may designate, and may select and hire such employees, including a competent civilian advisor on industrial relations, as are necessary to carry out the provisions of this order, and in furtherance of the purposes of this order, the Secretary of the Navy may exercise any existing contractual or other rights of the said company, and take such other steps as may be necessary or desirable.

Possession and operation of the said plant under this order will be terminated by the President as soon as he determines that such plant will be operated privately in a manner consistent with the war effort.

TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q. Potato Regs., Amdt. 4]

PART 321—RESTRICTED ENTRY ORDERS

SUBPART—FOREIGN POTATOES

Introductory Note. This revision of Regulation 7 is intended to bring the importation of potatoes from Mexico into accord with the most recent information on the pest conditions in that country. Field examinations provided for by Regulation 2 indicate that the potato weevil, *Epicaerus cognatus* Sharp, now occurs in the State of Chihuahua but is not present in the State of Guanajuato. An effective method of treatment for shipments of potatoes infested by this injurious insect is not yet available, and since inspection at ports of entry cannot be complete enough to assure freedom from the pest, it is necessary to discontinue potato importations from the State of Chihuahua. On the other hand evidence as to the apparent absence of this weevil in the State of Guanajuato makes it possible to accept potatoes from that State under the regulatory requirements already in effect and through specified ports on the Mexican border.

Pursuant to the authority conferred by the Plant Quarantine Act of August 20, 1912, as amended (37 Stat. 316; 7 U.S.C. 159), § 321.8 of the subpart entitled, "For-

§ 1.1 Customs collection districts and ports. (a) A customs collection district is the geographical area under the customs jurisdiction of a collector of customs.

(b) The terms "port" and "port of entry," as used in this volume, refer to any place designated by Executive order

of the President¹ or by act of Congress at which a customs officer is assigned with authority to accept entries of merchandise, to collect duties, and to enforce the various provisions of the customs and navigation laws.

(c) There are 46 customs collection districts of the United States.² The following is an alphabetical list of customs collection districts with their numbers and with a list of the ports in each district.³ The first-named port in each district (in capital letters) is the headquarters port, and the asterisk preceding the name of a port indicates that marine documents may be issued at such port.⁴ The districts and ports were created by the President's message of March 3, 1913, by which he communicated to Congress his reorganization of the Customs Service pursuant to the act of August 24, 1912 (37 Stat. 434; 19 U.S.C. 1), except that certain changes in such organization have been made by subsequent Executive orders. In the following list the Executive orders issued since March 3, 1913, that affect existing districts or ports are cited in parentheses following the name of the district or port affected.

¹ The President is authorized from time to time, as the exigencies of the service may require, to rearrange, by consolidation or otherwise, the several customs-collection districts and to discontinue ports of entry by abolishing the same or establishing others in their stead: *Provided*, That the whole number of customs-collection districts, ports of entry, or either of them, shall at no time be made to exceed those established and authorized as on August 1, 1914, except as the same may thereafter be provided by law * * * (19 U.S.C. 2)

² This does not include the customs collection district of the Virgin Islands which, although under the jurisdiction of the Secretary of the Treasury, has its own customs laws. (See 48 U.S.C. 14061)

³ In addition to the customs collection districts listed which are within the customs territory of the United States, there is the customs collection district of the Virgin Islands (No. 51), the headquarters port of which is Charlotte Amalie, St. Thomas, and the subports of which are Cruz Bay, Coral Bay, Christiansted, and Frederiksted. See appendix for a list of the customs collection districts by numbers and an alphabetical list of the ports of entry.

⁴ Marine documents may be issued at Charlotte Amalie, St. Thomas, headquarters port of the customs collection district of the Virgin Islands (No. 51); at Washington, N. C., a customs station in the customs-collection district of North Carolina (No. 15); and at Biloxi, Miss., a customs station in the customs collection district of Mobile (No. 19).

(a) Places, other than ports of entry, at which customs officers or employees are stationed under the authority contained in article IX of the President's message referred to in § 1.1⁸ to enter and clear vessels, accept entries of merchandise, collect duties, and enforce the various provisions of the customs and navigation laws shall be known as customs stations.

⁸ "Merchandise shall not be entered or delivered from customs custody elsewhere than at one of the ports of entry hereinbefore designated except at the expense of the parties in interest, upon express authority from the Secretary of the Treasury and under conditions to be prescribed by him. When it shall be made to appear to the Secretary of the Treasury that the interests of commerce or the protection of the revenue so require, he may cause to be stationed at places in the various collection districts, though not named as ports of entry, officers or employees of the customs with authority to enter and clear vessels, to accept entries of merchandise, to collect duties, and to enforce the various provisions of the customs and navigation laws." § 3.1 General definitions. For the purposes of this part and Part 4 of this chapter:

(a) The word "vessel" includes every description of watercraft or other contrivance used or capable of being used as a means of transportation on water, but does not include aircraft. (1 U.S.C. 3; 19 U.S.C. 1401; 49 U.S.C. 177)

(b) The term "vessel of the United States" means any vessel documented under the laws of the United States. (46 U.S.C. 911)

(c) The term "documented" means registered, enrolled, and licensed, or licensed under the laws of the United States, whether permanently or temporarily. (46 U.S.C. 911)

(d) The term "marine document" includes registry, enrollment and license, and license. (46 U.S.C. 911)

(e) The term "port of documentation" means the home port of a vessel. It does not include a port in which a temporary document is issued. (46 U.S.C. 17, 911, 1011)

(f) The term "mortgagee," in the case of a mortgage involving a trust deed and a bond issue thereunder, means the trustee designated in such deed.

(g) The term "noncontiguous territory of the United States" includes Alaska and all the island territories and possessions of the United States, but does not include the Canal Zone nor the Philippine Islands. (46 U.S.C. 911; R.S. 161, secs. 2, 3, 23 Stat. 118, 119; 5 U.S.C. 22, 46 U.S.C. 2, 3. E.O. 9083; 7 F.R. 1609)

§ 3.2 Vessels entitled to documents.

(a) Any vessel of 20 net tons and upward may be registered or enrolled and licensed. Any vessel of 5 net tons and less than 20 net tons may be licensed (except on the Great Lakes) or registered.

(b) Any vessel which is to be documented for navigating the waters of the northern, northeastern, or northwestern frontiers otherwise than by sea shall be granted a frontier enrollment and license, customs Form 1273. (See § 3.40)

(c) The following classes of vessels are entitled to receive documents under existing laws:

Class 1. Any vessel built in the United States and wholly owned by a citizen.* Any such vessel which by sale has become the property of one who is not a citizen or which has been placed under foreign registry will be entitled to a new marine document upon afterward becoming the property of a citizen, but cannot engage in the coastwise trade. The following notation shall be made on the document issued to such a vessel:

As amended by section 27 of the Merchant Marine Act of June 5, 1920, as amended. This vessel shall not engage in the coastwise trade.

*For the meaning of the word "citizen" in this section, see § 3.19.

Class 2. Any vessel purchased from the Maritime Commission by a citizen. (See § 3.42.)

Class 3. Any vessel built in the United States in whole or in part for the account of one who is not a citizen and then recorded, which thereafter becomes wholly owned by a citizen and has never before been documented. (See § 3.47.)

Class 4. Any vessel captured by a citizen in a war to which the United States is a party, which has been lawfully condemned as a prize and is wholly owned by a citizen.

Class 5. Any vessel which has been judicially forfeited for a breach of the laws of the United States when wholly owned by a citizen. This includes a foreign-built vessel, but does not include any vessel not otherwise entitled to documents which has been sold under a decree of admiralty for debt or seamen's wages.

Class 6. Any vessel built in the United States and sold by the Government to a citizen. A foreign-built vessel bought or chartered by the Government is entitled to documentation if sold to a citizen and the requirements for class 9 are met.

Class 7. Any vessel authorized by special act of Congress to be documented.

Class 8. Any vessel wrecked on a coast of the United States or its possessions or in adjacent waters when purchased by a citizen and repaired in a shipyard in the United States or its possessions, provided it be proved to the satisfaction of the Commissioner of Customs, through a board of three appraisers appointed by him if necessary, that the repairs put upon such vessel are equal to three times the appraised salved value of the vessel. The expense of such appraisal shall be borne by the owner of the vessel. If any of the material facts sworn to or represented by the owner, or at his instance, to obtain a document for such vessel is not true, the vessel is liable to forfeiture.

Class 9. Any seagoing vessel, whether steam or sail, wherever built, wholly owned by a citizen. A foreign-built vessel of this class shall engage only in trade with foreign countries, with the Philippine Islands, or the islands of Guam, Tutuila, Wake, Midway, or Kingman Reef. It shall not engage in the coastwise trade, except as specified in sections 18 and 22, Merchant Marine Act, 1920, as amended, nor in the American fisheries. (See § 3.42)

Class 10. Any vessel of 20 net tons or over (except a vessel constructed under the provisions of the Merchant Marine Act, 1936, as amended) not documented under the laws of the United States, which is acquired by or made available to the United States Maritime Commission or the War Shipping Administration.*

(d) No vessel shall engage in the coastwise trade if it is owned by a corporation, unless 75 percent of the interest in that corporation is owned by citizens. If any registered vessel is owned by a corporation, the appropriate one of the following notations shall be made on the register:

*For regulations on the documentation of vessels of class 10, see §§ 3.60 to 3.74.

(1) "Less than 75 percent of the interest in the corporation owning this vessel is owned by citizens of the United States. It shall not engage in the coastwise trade"; or

(2) "75 percent of the interest in the corporation owning this vessel is owned by citizens of the United States. It may engage in the coastwise trade so long as so owned and no longer." (R.S. 161, secs. 2, 3, 23 Stat. 118, 119; R.S. 4132, as amended, 4136, 4180, sec. 2, 39 Stat. 729, sec. 2, 40 Stat. 900, sec. 38, 41 Stat. 1008, sec. 22, 41 Stat. 997, sec. 1, 49 Stat. 442; 5 U.S.C. 22, 46 U.S.C. 2, 3, 11, 13, 14, 54, 802, 883. E.O. 9083; 7 F.R. 1609)

§ 3.3 *Provisional registers.* (a) Consular officers of the United States and such other persons as may be designated by the President for the purpose⁴ are authorized to issue a provisional certificate of registry to any vessel abroad which has been purchased by a citizen, as defined in § 3.19, and which at the time of such purchase is not documented as a vessel of the United States.

(b) Such provisional certificate shall entitle the vessel to the privileges of a vessel of the United States in trade with foreign countries or with the Philippine Islands and the islands of Guam and Tutuila until the expiration of 6 months from the date thereof, or until 10 days after the vessel's arrival in a port of the United States, whichever first happens, and no longer. On arrival at a port of the United States, the vessel shall become subject to the laws relating to officers, inspection, and measurement.

(c) When a bill of sale covering such transfer is presented to an American consular officer:

(1) Satisfactory evidence shall be produced to establish that the transfer of registry has the approval of the foreign government concerned.

(2) The bill of sale shall be filed with him.

(3) The vendee shall execute an affidavit as to the bona fides of the transfer of title and the citizenship of the vendee which the consul shall file with the bill of sale.

(4) If the vendor or his duly authorized representative be present, he shall also sign the affidavit.

(5) The consular officer shall then communicate with the Commissioner of Customs through the State Department, advising him that the bill of sale and affidavit have been filed with him and giving the names of the vendor and of the vendee, respectively, and the name, rig, and gross and net tonnage of the vessel. The consular officer also shall state whether, in his opinion, the transfer is made in good faith.

(6) On receipt of such a communication, if the transfer appears to be in good faith and the documentation of the vessel is not contrary to the policy of this Government, the Commissioner of

Customs will award signal letters to the vessel and, through the usual channels, will promptly authorize the State Department to instruct the consular officer to issue a provisional certificate, customs Form 1266-A, to the vessel. The State Department will then cable, at the expense of the parties concerned, instructions and data for the issue of the provisional register.

(d) When bills of sale covering such transfers are presented to persons designated by the President for the purpose of issuing provisional certificates of registry, the procedure outlined in paragraph (c) of this section shall be followed. Communications in such cases shall be made through the appropriate departments.

(e) If bills of sale covering such transfers are presented to a collector of customs, the procedure outlined in paragraph (c) (1), (2), (3), (4), and (5) of this section shall be followed, except that the collector shall communicate directly with the Commissioner of Customs. Thereafter, if the transfer appears to be in good faith and it is not contrary to the policy of this Government, the Commissioner of Customs will award signal letters to the vessel and, through the usual channels, will promptly request the State Department to authorize the appropriate consular officer to issue a provisional certificate to the vessel. The State Department will then cable, at the expense of the parties concerned, instructions and data for the issue of the provisional register. No provisional certificate of registry shall be issued in any case unless authorized by the Commissioner of Customs.

(f) A duplicate provisional certificate, customs Form 1266-A, shall be forwarded as soon as practicable in every case by the issuing officer through the usual channels to the Commissioner of Customs.

(g) No provisional certificate shall be issued to any vessel abroad which at the time of its transfer to a citizen of the United States was documented as a vessel of the United States. Such a vessel is entitled to all the privileges and benefits of a vessel of the United States for the period allowed by R.S. 4166 (46 U.S.C. 35). (R.S. 161, secs. 2, 3, 23, Stat. 118, 119, sec. 1, 38 Stat. 1193, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 12. E.O. 9083; 7 F.R. 1609)

§ 3.4 *Yachts entitled to documents.*

(a) Any vessel of 16 gross tons or over, used exclusively as a pleasure vessel and otherwise entitled to be documented, may be licensed as a yacht. If so licensed, it may proceed from port to port within the United States without entering or clearing, and to foreign ports without clearing. Such a yacht shall enter on arrival from a foreign port.

(b) Any vessel of less than 16 gross tons but not less than 5 net tons, used exclusively as a pleasure vessel and otherwise entitled to be documented, may be registered if the owner so desires, but shall not be licensed as a yacht except under special instructions from the Commissioner of Customs. A yacht so regis-

tered shall be treated in all respects as other registered vessels. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4214, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 103. E.O. 9083; 7 F.R. 1609)

§ 3.5 *Vessels exempt from documentation.* (a) The following classes of vessels are exempt from documentation:

(1) Boats or lighters not masted, or masted but not decked, used in the harbor of any town or city, and not carrying passengers.

(2) Canal boats, barges, or other boats used wholly on canals or on the internal waters of a state, without sail or internal motive power of their own, not engaged in trade with contiguous foreign territory, and not carrying passengers.

(3) Barges or boats without sail or internal motive power of their own plying on inland rivers or lakes of the United States, not engaged in trade with contiguous foreign territory, and not carrying passengers.

(4) Vessels plying upon waters which are wholly within the limits of a state and which have no outlet into a river or lake on which commerce with foreign nations or among the states can be carried on.

(5) Vessels of less than 5 net tons.

(b) All other vessels engaged in trade between ports in the United States or engaged in the fisheries, if not registered, shall be enrolled and licensed, or licensed, or will be liable to a penalty of \$30 on every arrival, unless the vessel has not been within a customs district since the expiration of the license. R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4385, 18 Stat. 31, 21 Stat. 44, sec. 7, 24 Stat. 81, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 319, 332, 335, 336. E.O. 9083; 7 F.R. 1609)

§ 3.6 *Marine documents; kinds of.*

(a) Marine documents are of two descriptions, (1) permanent, granted to vessels at their home ports,⁵ and (2) temporary, granted to vessels at ports other than their home ports.

(b) Registers and enrollments shall be valid until a contingency arises requiring their surrender. (See §§ 3.26, 3.27) Licenses shall be valid for 1 year only, but may be renewed or changed at any time during the year for which they are granted.⁶ Care shall be taken that only one license, and for one employment, be granted to a vessel for the same period, except that a license may be granted for the "coasting trade and mackerel fisheries."

(c) No enrollment and license or license shall be considered in force longer than the vessel to which it is granted is owned as stated in the document, nor shall it be valid if the description of the vessel is changed, nor if the vessel en-

⁵Under the "Seattle plan," which is in force in a number of customs districts, a vessel having its home port within the customs collection district may secure a permanent document at any other port in the same district at which marine documents are issued.

§ 3.8 Marine documents; new. When a new marine document is issued¹ in lieu of one surrendered, such new document shall in every case cite the previous document by number, date, and port of issue, carry any notation of the authority for redocumentation or of the existence of unsatisfied preferred mortgage appearing on the surrendered document, and give the cause of surrender of the old document. A certificate of the builder shall not be required, nor shall a certificate of admeasurement be required unless some change of tonnage has taken place since the time of the previous documentation. (See §§ 3.26, 3.27 and 3.30) (R.S. 161, secs. 2, 3, 23 Stat. 118, 119; 5 U.S.C. 22, 46 U.S.C. 2, 3. E.O. 9083; 7 F.R. 1609)

§ 3.9 Marine documents to include dimensions and tonnage. The marine document of every vessel shall express her length, breadth, and depth; the number of decks and masts; the tonnage under the tonnage deck; the tonnage of the poop or other enclosed space above the deck; the gross tonnage; each deduction made from the gross tonnage; and the net or register tonnage. In appropriate cases it shall also show the height under the third or spar deck and the tonnage on the between decks above the tonnage deck. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4150, 4153, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 74, 77. E.O. 9083; 7 F.R. 1609)

§ 3.11 Enrollment and license; coasting trade and fisheries. (a) When employed in the coasting trade and fisheries, a vessel of 20 net tons or over shall be enrolled and licensed and a vessel of 5 net tons or over but less than 20 net tons shall be licensed, unless such vessel is registered. (See § 3.10)

¹The penalty for neglecting to surrender a document when required by law is the forfeiture of all privileges and benefits of a vessel of the United States. (R. S. 4169; 46 U.S.C. 38)

(b) A vessel engaged exclusively in the cod fishery shall be licensed for that fishery. A vessel engaged in whaling shall be licensed for the whale fishery. A vessel engaged in taking fish of any other description shall be licensed for the mackerel fishery. A vessel which engages in both the coasting trade and fishing (other than whaling) may be licensed for the "coasting trade and mackerel fishery." A vessel engaged in taking out fishing parties is not a fishing vessel and shall be licensed for the coasting trade unless it intends to proceed to a foreign port, in which case a certificate of registry is required. (See § 3.10) See § 3.40 for vessels on the Great Lakes.

(c) The trade expressed in the body of a document is controlling and may not be limited nor expanded by the statement of service in the space provided therefor.

(d) An enrolled and licensed vessel may engage in trade with the Canal Zone or Guantanamo Bay Naval Station. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4311, 4321, sec. 7, 24 Stat. 81, sec. 314, 49 Stat. 529; 5 U.S.C. 22, 46 U.S.C. 2, 3, 251, 263, 319. E.O. 9083; 7 F.R. 1609)

This certificate shall be sufficient to authorize the removal of a new vessel, if in ballast only, from the district where she was built to another district in the same or an adjoining state where the owner or owners actually reside.

(b) When for any cause it is found impracticable to obtain the certificate of the builder, other competent evidence establishing the particulars and facts required to be certified by him may be accepted with the approval of the Commissioner of Customs.

(c) The place of build is where the hull was built. The time of build is the year of completion. Both shall appear in all marine documents. (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4147; 5 U.S.C. 22, 46 U.S.C. 2, 24. E.O. 9083; 7 F.R. 1609)

In the case of corporate ownership, the application shall be signed in the corporate name by the president, secretary, or a specially authorized officer of the corporation or by an authorized agent. In case of a partnership, the partnership name shall be signed by one of the partners, or by a duly authorized agent. In the case of individual ownership by two or more persons, one of the owners may sign in his own name as managing owner, provided there is filed with the collector a written authorization for him to act in that capacity signed by all the owners. In every case the capacity in which the person signs, whether as owner, managing owner, agent, etc., shall be clearly stated below his signature. In addition to the information therein required, the application shall state the name of any former owner.

(b) If the vessel was not built during the year in which the application is filed or during the preceding year, the affidavit on the reverse of customs Form 1320 shall be executed.

(c) Each application for an official number shall be accompanied by a designation of home port on Customs Form 1319.

(d) When an application for an official number is filed with the collector at the port designated as the home port of the vessel, the original only of customs Form 1320 shall be forwarded to the Bureau. When an application for an official number is filed with the collector at any port other than the home port of the vessel, the original and one copy of the application shall be forwarded to the Bureau. Upon the award of an official number to the vessel, the Bureau will forward to the collector transmitting the application a notice of such award on customs Form 1321 in duplicate. The original shall be delivered to the applicant and the duplicate retained in the collector's files. When the application for official number is filed with the collector at any port other than the home port of the vessel, and an official number is awarded to the vessel, a copy of the notice of award will also be forwarded by the Bureau to the collector at the home port together with a copy of the application.

(e) Any seagoing vessel of 100 tons or over, in addition to an official number, may have signal letters awarded. Application therefor shall be made by the owner or his agent through a collector of customs on the application for official number, customs Form 1320, or, if the application is made subsequent to the filing of an application for an official number, by a letter transmitted through the collector of customs. Signal letters will not be forwarded to a seagoing vessel of less than 100 tons except upon special au-

thorization by the Commissioner of Customs. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4177, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 45. E.O. 9083; 7 F.R. 1609)

§ 3.14 *Evidence as to marking of official number, net tonnage, name, and hailing port.* (a) Marine documents shall not be issued until proper evidence is produced that the official number and net tonnage have been properly marked upon the vessel's main beam, that her name has been properly marked upon both sides of her bow, and that her name and hailing port have been properly marked upon her stern, or in the case of a yacht that her name and hailing port have been properly marked on the hull. (See § 2.60a, Measurement of Vessels.)

(b) The evidence of proper marking required by the preceding paragraph shall be a certificate by a customs officer on customs Form 1322. If the vessel is at a place not readily accessible to a customs officer, the owner or his agent shall make affidavit as to the proper marking; but as soon as she arrives at a place accessible to a customs officer, a certificate on customs Form 1322 shall be required. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, sec. 4, 28 Stat. 743, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 79. E.O. 9083; 7 F.R. 1609)

§ 3.15 *Marking of draft of registered vessels.* The draft of every registered vessel shall be marked upon the stem and sternpost, in English feet or decimeters, in either Arabic or Roman numerals. The bottom of each numeral shall indicate the draft to that line. If all the figures indicating the draft of a registered vessel cannot be placed on the sternpost, they shall be continued upward on the adjacent part. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, sec. 2, 26 Stat. 766, 29 Stat. 492; 5 U.S.C. 22, 46 U.S.C. 2, 3, 48. E.O. 9083; 7 F.R. 1609)

§ 3.16 *Name and hailing port on documented vessel.* (a) The name of every documented vessel (yachts excepted) shall be marked in full upon each bow and upon the stern, and the hailing port shall also be marked in full upon the stern. These names shall be painted, carved, or gilded in Roman letters in a light color on a dark ground, or in a dark color on a light ground, and shall be distinctly visible. The letters shall not be less than 4 inches high. Every steam vessel of the United States shall, in addition, have her name conspicuously placed in distinct, plain letters not less than 6 inches high on each outer side of the pilot house, if it has one, and if the vessel has side wheels, also on the outer side of each wheel house.

(b) On vessels called "double-enders," the required names shall be placed on the parts corresponding to the bow and stern, and on vessels with sterns not affording sufficient space for the names, they shall be placed on the adjacent parts.

(c) The name of a scow, barge, or other vessel "scow-built" or with square bow may be marked on the bow instead of the side when such marking would

be speedily obliterated by chafing against other vessels, piles, or rocks.

(d) The hailing port to be marked on the stern may be either the port where the vessel is permanently documented, or the place in the same district where the vessel was built or where one or more of the owners reside.

(e) Every documented yacht shall have its name and hailing port placed on some conspicuous part of its hull. (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4178, as amended, R.S. 4214, as amended, R.S. 4495, sec. 21, 23 Stat. 58; 5 U.S.C. 22, 46 U.S.C. 2, 46, 47, 103, 493. E.O. 9083; 7 F.R. 1609)

§ 3.17 *Home port; definition; change of.* (a) A vessel's home port* is that port of documentation which has been fixed and determined by the owner with the approval of the Commissioner of Customs. It is the port at which a vessel's permanent documents issue, but it shall appear in all documents whether they are permanent or temporary.

(b) The owner of a vessel shall submit to the collector his designation of a home port for the vessel on customs Form 1319 in duplicate, signed as provided for in § 3.13 (a). If the home port so designated is different from the last previous home port of the vessel, he shall also request the collector at the previous home port to forward to the collector at the designated home port an abstract of title on customs Form 1331. The collector, after examining the bill of sale of the vessel and the abstract of title on customs Form 1331, shall transmit the application in duplicate to the Commissioner of Customs. When approved, one copy will be returned to the collector. If the application is submitted to the Commissioner of Customs by the collector at a port other than the home port, the collector at the home port will also be notified of the approval by the Commissioner of Customs. When it is impracticable to establish the complete chain of title by bills of sale, the collector shall inform the Commissioner of Customs of the facts and circumstances, and shall state whether or not he is of the opinion that the applicant has legal title to the vessel.

(c) If an owner desires that the home port be elsewhere than the port of documentation at or nearest the place where the vessel business of the owner is conducted, he shall forward to the Commis-

Such home port shall be shown in the register, enrollment, and license, or license of such vessel, which documents, respectively, are referred to as the vessel's document. The home port shown in the document of any vessel of the United States in force on February 16, 1925, shall be deemed to have been fixed and determined in accordance with the provisions hereof. * * * (46 U.S.C. 18. § 3.18 *Forms of oath of owner and master for documentation.* (a) Prior to the documentation or redocumentation of any vessel, except in case of redocumentation of a vessel at a port other than the home port upon change in trade or loss of marine document, there shall be filed an oath of ownership on customs Form 1258 if the vessel is owned by an individual, partnership, unincorporated company, association, or the United States; or on customs Form 1259 if the vessel is owned by a corporation.

(b) If any such vessel falls within class 4, 5, 6, and 7 of § 3.2, there shall be inserted immediately after footnote 1 of customs Form 1258 or immediately after footnote 4 of customs Form 1259 the appropriate one of the following clauses:

(c) The master's oath required for the registry of a vessel if the master is within the district where the registry is to be made, or for the license or enrollment and license of a vessel in any case, shall be executed in the space provided therefor on customs Form 1258 or 1259. Such oath shall not be used for a renewal of license by endorsement.

(d) The master's oath for the renewal of a license shall be executed on customs Form 1280. § 3.19 *Citizenship; documentation.* (a) Whenever used in this part, the word "citizen" includes the plural as well as the singular. Unless the context requires a different meaning, it means:

(1) In the case of an individual, a native-born or completely naturalized citizen of the United States;

(2) In the case of a partnership, unincorporated company, or association, one whose members are all citizens of the United States;

(3) In the case of a corporation, one which is incorporated under the laws of the United States or of one of the states, and of which the president and all the managing directors are citizens of the United States. If no directors are authorized to act as managing directors, all the directors of the corporation shall be considered to be managing directors for the purpose of this paragraph.

(b) A vessel, although owned and documented by a corporation which is a citizen as defined in paragraph (a) (3) of this section, shall not engage in the coastwise trade unless 75 percent of the interest in the corporation is owned by citizens as specified in section 2 of the Shipping Act, 1916, as amended.¹⁰

(c) A vessel, although owned by a corporation which is not a citizen as defined in section 2 of Shipping Act, 1916, as amended, may be documented as a vessel of the United States if the sale or transfer to the corporation was not in violation of section 9 or 37 of the Shipping Act, 1916, as amended (46 U.S.C.

¹⁰ "(a) Within the meaning of this chapter no corporation, partnership, or association shall be deemed a citizen of the United States unless the controlling interest therein is owned by citizens of the United States, and, in the case of a corporation, unless its president and managing directors are citizens of the United States and the corporation itself is organized under the laws of the United States or of a State, Territory, District, or possession thereof, but in the case of a corporation, association, or partnership operating any vessel in the coastwise trade the amount of interest required to be owned by citizens of the United States shall be 75 per centum.

"(b) The controlling interest in a corporation shall not be deemed to be owned by citizens of the United States (a) if the title to a majority of the stock thereof is not vested in such citizens free from any trust or fiduciary obligation in favor of any person not a citizen of the United States; or (b) if the majority of the voting power in such corporation is not vested in citizens of the United States; or (c) if through any contract or understanding it is so arranged that the majority of the voting power may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; or, (d) if by any other means whatsoever control of the corporation is conferred upon or permitted to be exercised by any person who is not a citizen of the United States.

"(c) Seventy-five per centum of the interest in a corporation shall not be deemed to be owned by citizens of the United States (a) if the title to 75 per centum of its stock is not vested in such citizens free from any trust or fiduciary obligation in favor of any person not a citizen of the United States; or (b) if 75 per centum of the voting power in such corporation is not vested in citizens of the United States; or (c) if, through any contract or understanding, it is so arranged that more than 25 per centum of the voting power in such corporation may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; or (d) if by any other means whatsoever control of any interest in the corporation in excess of 25 per centum is conferred upon or permitted to be exercised by any person who is not a citizen of the United States." (46 U.S.C. 802)

808, 835), and if the corporation is a citizen as defined in paragraph (a) (3) of this section.

(d) A vessel, although owned by a partnership or association which is a citizen as defined in section 2 of the Shipping Act, 1916, as amended, shall not be documented as a vessel of the United States unless the owner is also a citizen as defined in paragraph (a) (2) of this section. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4131, as amended, 4132, as amended, secs. 2, as amended, 9, as amended, 39 Stat. 729, 730, sec. 4, 40 Stat. 901, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 11, 221, 802, 808, 835. E.O. 9083; 7 F.R. 1609)

§ 3.20 *Evidence of citizenship of owners and officers.* (a) In addition to the oaths of citizenship specified, the collector of customs may require the production of such further evidence as may be necessary to satisfy him that the person is a citizen of the United States. The proper notation of the evidence produced shall be made on the papers retained in the collector's office, such as the number, date, and office of issue of an officer's license, seaman's passport, or citizen's passport, or the same data as to a birth or naturalization certificate, a continuous discharge book, or a certificate of identification, etc. The collector shall reject any evidence believed by him to be unauthentic.

(b) As evidence of his citizenship, a naturalized citizen shall be required in every case to present a certificate of his naturalization. The usually acceptable evidence of citizenship for other persons is described below in the order of desirability.

(1) A birth certificate or certified copy.¹¹

(2) A baptismal certificate or parish record made within 1 year after birth.

(3) A certificate of a practicing physician that he attended the birth and that he has a record in his possession showing the date on which it occurred.

(4) A State Department passport.

(5) An active commission in the United States Navy, Marine Corps, Coast Guard, or reserve component thereof.

(6) An active commission in the United States Army or a reserve component thereof issued prior to May 26, 1942.

(7) A license as master, mate, engineer or pilot issued by the Coast Guard, or a license as master, mate, engineer, or pilot issued by the former Bureau of Marine Inspection and Navigation when such license shows on the back thereof that satisfactory evidence of citizenship of the holder was produced at the time of the issuance of such license.

¹¹ A list of state custodians of records of vital statistics appears in 46 CFR 36.1-1. This is not a complete list of offices from which birth certificates may be secured, but is confined to such offices established by state governments. In many states birth records are maintained also by county clerks, clerks of county courts, or city clerks, or town clerks. If a state record is not available, inquiry should be made of the county, city, or town clerk.

(8) A certificate of registry as staff officer.

(9) A continuous discharge book or certificate of identification issued by the Coast Guard which shows that the holder is an American citizen, or a continuous discharge book or certificate of identification issued by the former Bureau of Marine Inspection and Navigation which shows the holder is an American citizen, provided the records of that Bureau (now maintained by the Coast Guard) indicate that the holder of such continuous discharge book or certificate of identification has produced satisfactory evidence of his citizenship.

(10) A delayed certificate of birth. If an applicant claiming to be a citizen of the United States submits a delayed certificate of birth which has been issued in accordance with the procedure outlined in the Manual of Uniform Procedure for the Delayed Registration of Births¹² and recites on its face the evidence upon which it has been granted, it may be accepted as prima facie evidence of citizenship in the absence of any collateral facts indicating fraud in its procurement. In order to receive consideration as a delayed certificate of birth, the certificate shall have been issued strictly in accordance with the provisions of the manual above referred to. Any delayed birth certificate not so issued shall be given consideration but shall not necessarily be considered prima facie evidence of citizenship.

(11) If none of the foregoing requirements can be met by the applicant, he shall make a statement to that effect, and, in an attempt to establish citizenship, he may submit for consideration data of the following character:

(i) Report of the Census Bureau showing the earliest record of age or birth available.¹³ Request for such information shall be addressed to the Director of the Census, Washington, D. C. In making such request, definite information must be furnished the Census Bureau as to the place of residence when the first census was taken after birth of the applicant, giving the name of the street and number of the house, or the names of the cross streets between which the house was located if residing in a city; or the name of the town, township, precinct, magisterial district, militia district, beat or election district, if residing in the country; also the names of parents, or the names of other persons with whom residing on the date specified.

(ii) Affidavits of parents, or relatives; affidavits by two or more responsible citizens of the United States stating facts of which they have knowledge tending to establish the applicant's citizenship; school records; immigration records; or insurance policies. (R.S. 161, sec. 2, 23 Stat. 118; R.S. 4142, 4144, 4313; 5 U.S.C. 22, 46 U.S.C. 2, 19, 22, 253. E.O. 9083; 7 F.R. 1609)

¹² This manual was issued by the Department of Commerce on July 16, 1941, and was filed with the original document amending 46 CFR 36.1-1 (7 F.R. 2641).

¹³ Census records are available for the following years: 1860, 1870, 1880, 1900, 1910, 1920, 1930, and 1940. Records for 1890 are not available.

§ 3.21 *Execution of oaths for documentation.* (a) If the vessel be owned by one individual, the oath shall be taken by him or by his duly authorized agent.

(b) If the vessel be owned by several individuals or a firm or unincorporated company, the oath shall be taken by the managing owner or a member of the firm who shall specify the names and places of abode of, and except in the case of a partnership the proportions of the vessel owned by, each of the others, and shall certify to their citizenship.

(c) If the vessel be owned by a corporation, the oath shall be taken by its president, its secretary, or by any other officer or agent thereof duly authorized by a writing under the corporate seal to act in its behalf. Such officer or agent shall also furnish a certificate as to the organization of the corporation and the names of its president and managing directors.

(d) In all cases where there is more than one owner, the proportions owned by each shall be stated in the oath.

(e) The oath of the owner or of the master required for documentation may be taken before a collector of customs or before any officer authorized by the laws of a state to administer oaths generally. If the oath is not taken before the collector, it may be mailed to him. (R.S. 1, 161, secs. 2, 3, 23 Stat. 118, 119, 44 Stat. 830, R.S. 4138, 4139, as amended, R.S. 4142, 4143, 4144, 4163, 4314, as amended, R.S. 4320, as amended; 1 U.S.C. 1, 5 U.S.C. 22, 92a; 46 U.S.C. 2, 3, 16, 19-22, 33, 254, 262. E.O. 9083; 7 F.R. 1609)

§ 3.22 *Issue and record of marine documents.* (a) An exact copy of each marine document issued by a collector of customs shall be placed in a permanent record kept for that purpose and a proper index made thereof on customs Form 1241 (on customs Form 2112 at the port of New York).

(b) At the time application is made for a new document, any former document of the vessel shall be surrendered to the collector to whom the application is made, unless the former document has been lost, mutilated, destroyed, or unintentionally mislaid. (See § 3.31)

(c) On proof that any vessel has been sold or transferred by process of law and that her marine document is retained by the former owner, the collector of the district to which the vessel belongs, with the approval of the Commissioner of Customs, may grant a new document, but the new owner shall not be required to produce and surrender the former document. The issue of the new document does not remove the liability of the holder for failure to surrender the former one. (R.S. 161, secs. 2, 3, 23 Stat. 118, 119, R.S. 4155, as amended, 4164, as amended, R.S. 4176, 4314, as amended, 4319, as amended, 4329, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 3, 25, 34, 44, 254, 259, 271. E.O. 9083; 7 F.R. 1609)

§ 3.23 *Permanent documentation of vessels absent from home port.* (a) A permanent document may be issued to any vessel absent from her home port

upon application to the collector for the home port through the office of the collector at the port where the vessel shall be. In such case, all requirements which would be applicable if the vessel were at her home port shall be met at the port where she is before the application is forwarded, except that the owner's and master's oaths may be executed at the home port.

(b) The collector through whom application was made shall forward a certificate on customs Form 1301 to the collector at the vessel's home port, who shall issue a permanent document and deliver the document either directly or through the collector through whom the application was received. (R.S. 261, sec. 2, 23 Stat. 118, R.S. 4328, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 270. E.O. 9083; 7 F.R. 1609)

§ 3.24 *Change of master.*¹⁴ (a) When the master of any documented vessel, except a licensed ferryboat, is changed, the owner or the new master shall report the change to the collector at the port where the change takes place, or where the vessel first arrives thereafter, and produce to him the documents and file with him an oath properly executed on customs Form 1311. The collector shall then endorse upon the document the name of the new master.

(b) The oath on Form 1311 may be taken before any officer authorized by the laws of the state to administer oaths, and may be mailed to the collector, together with the marine document.

(c) Every application for the endorsement of the names of one or two alternate masters on the license of a vessel in addition to the name of the master already endorsed on the license shall be filed with the collector of customs and shall contain a statement of the condition of employment of the vessel. The collector shall forward the application with his recommendation to the Commissioner of Customs, who will thereupon authorize the endorsement of the names of one or two alternate masters upon the license whenever he deems the condition of employment of the vessel warrants such action. Under no circumstances will the endorsement of the names of more than two alternate masters upon the license be authorized. The same oaths shall be required of such alternate masters as are required in the case of other masters.

(d) In the case of a vessel on whose license there are endorsed the names of more than one master, the master actually in charge of the vessel shall assume all the duties and responsibilities imposed by any statute upon masters of vessels and is subject to the liabilities provided by any law against masters of vessels during any period in which he is in charge of the vessel.

¹⁴ "Any person or body corporate having more than one-half ownership of any vessel shall have the same power to remove a master, who is also part owner of such vessel, as such majority owners have to remove a master not an owner. This section shall not apply where there is a valid written agreement subsisting, by virtue of which such master would be entitled to possession." (46 U.S.C. 227)

(e) If two or more vessels are owned by the same person, association, corporation, etc., and are navigated within the limits of the harbor of any town or city, the name of the owner, if an individual, or of some responsible person acting for the owner, may be endorsed as master on the licenses of all such vessels, although the person whose name is so endorsed may not be actually employed on any of the vessels. The same oath shall be required of such persons as is required in the case of other masters. Any person whose name is so endorsed is subject to the liabilities provided by any law against masters of vessels.

(f) The name of the owner, if an individual, or of some responsible person acting for the owner, may be endorsed as master on the license of any unrigged vessel, except one which is required by law to have on board a certificate of inspection, although the person whose name is so endorsed may not be actually employed on that vessel. The same oath shall be required of such persons as is required in the case of other masters. Any person whose name is so endorsed is subject to the liabilities provided by any law against the masters of vessels. (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4171, as amended, R.S. 4335, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 40, 276. E.O. 9083; 7 F.R. 1609)

§ 3.25 *Renewal of license.*¹⁵ (a) A permanent or temporary license shall be presented within 3 days (exclusive of Sunday and holidays) after its expiration, to the collector of the district where the vessel may then be, or if the vessel is then at sea, within 3 days after her first arrival within any district. A temporary license shall be surrendered within 10 days after the arrival of a vessel at her home port and shall not be renewed at that port.

(b) If a license is presented for renewal at any time within 30 calendar days prior to the date of expiration shown thereon, it may be renewed for a period of 1 year from that date of expiration.

(c) A license may be renewed at any port, whether a port of documentation or not.

(d) When a license is presented for renewal, the master shall make oath in the form prescribed by § 3.18 (d). R.S. 161, sec. 2, 23 Stat. 118, R.S. 4325, as amended, 4326, 4327; 5 U.S.C. 22, 46 U.S.C. 2, 267-269. E.O. 9083; 7 F.R. 1609)

§ 3.26 *Surrender of permanent documents.* (a) The marine document shall be surrendered when a vessel is sold in whole or in part; when a vessel has been lost or taken by an enemy, or otherwise prevented from returning to the United States; when a vessel is burned or broken up; when a vessel is altered in form or tonnage by being lengthened, shortened, or built upon, or is changed from one denomination to another by a change in rig or fitting; when a vessel changes from one employment to another; when a vessel changes her name; when a presi-

The approval of the United States Maritime Commission of the surrender of the document of the vessel covered by a preferred mortgage shall be obtained, except as specified in note 19, § 3.30 (a).

(b) If any documented vessel is lost, destroyed, or abandoned, the owner shall immediately report the fact to the collector of customs at the home port of the vessel.

(c) A document need not be surrendered because the engine of the vessel is changed, if there is no change in the rig, dimensions, or tonnage of the vessel, nor because of a change in the service of the vessel, when there is no change in trade, nor in the number of persons in its crew. In such a case, a notation of the change shall be made on the document by a collector of customs and initialed by him. § 3.27 *Surrender of temporary documents.* (a) Every document granted by the collector at a port other than the home port shall be temporary.¹⁶

(b) Every temporary document shall be surrendered to the collector within 10 days after the arrival of the vessel at her home port and whenever the surrender of a permanent document is required.

(c) The term "arrival" in the preceding paragraph means the voluntary arrival of the vessel in the regular course of her employment.

(d) The approval of the United States Maritime Commission of the surrender of the document of a vessel covered by a preferred mortgage shall be obtained, except as specified in note 19, § 3.30 (a). (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4146, as amended, 4160, 4162, 4168, 4170, as amended, 4325, sec. 30, 41 Stat. 1004, sec. 204, 49 Stat. 1987; 5 U.S.C. 22, 46 U.S.C. 2, 23, 30, 32, 37, 39, 267, 961 (a), 1114. E.O. 9083; 7 F.R. 1609)

§ 3.28 *Rebuilt vessels.* (a) A rebuilt vessel¹⁷ shall retain her original name and official number, and her marine document shall show the date and place of original building. The date and place of rebuilding shall be noted in the appropriate place in the document.

(b) If an owner desires that a notation be made in the publication, Merchant Vessels of the United States, that an unrigged wooden vessel of the United States, other than a foreign-built vessel (Class 9) has been rebuilt, he shall fur-

nish to the Commissioner of Customs, through the collector at the port where the vessel then is, an affidavit of the shipbuilder stating that the vessel has been rebuilt; the date and place of such rebuilding; that the vessel is sound and free from rotten or doted wood in its structural parts; that it is properly fastened and calked, and that it is as good as new in strength and seaworthiness.

(c) When application is made to a collector of customs to note the place and date of rebuild of a vessel on its marine document, the applicant shall submit specifications of the rebuild, in affidavit form, through the collector to the Commissioner of Customs, who shall decide whether the vessel is to be considered repaired, rebuilt, or new. (R.S. 161, sec. 2, 23 Stat. 118, 119, R.S. 4155, as amended, R.S. 4179, 4319, as amended, 37 Stat. 189; 5 U.S.C. 22, 46 U.S.C. 2, 3, 25, 50, 63, 259. E.O. 9083; 7 F.R. 1609)

§ 3.29 *Change of build or rig.* (a) When a documented vessel is altered in form or tonnage by being lengthened, shortened, or built upon, or changed from one denomination to another by a change in rig or fitting, the vessel shall cease to be deemed a vessel of the United States unless she is documented anew.

(b) When there is a change in the means of propulsion of a vessel¹⁸ as from steam engine to gas engine or any other alteration which may change the description, the marine document of the vessel shall be surrendered. (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4170, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 39. E.O. 9083; 7 F.R. 1609)

§ 3.30 *Exchange of documents.* (a) Any enrolled and licensed or licensed vessel may be registered upon the surrender¹⁹ of her document to a collector of customs. Except as specified in paragraph (b) of this section, any registered vessel may likewise be enrolled and licensed or licensed.

(b) Neither enrollment nor license for the coasting trade or for the coasting trade and mackerel fishery shall be granted to a vessel prohibited by law from engaging in the coastwise trade. (See §§ 3.2 and 3.42) Neither enrollment nor license for the fisheries or for the coasting trade and mackerel fishery shall be granted to a vessel prohibited by law from engaging in the American fisheries. (See §§ 3.2 and 3.42) Neither enrollment and license nor license shall be granted to any vessel having on board merchandise brought from a foreign port until such merchandise shall have

been wholly unladen and the duties paid or secured.

(c) No registered vessel shall be permitted to exchange her document unless the collector to whom application is made is satisfied by an affidavit of the owner or master that all equipments purchased and repairs made abroad within the year immediately preceding such application have been duly accounted for and the duties accruing thereon have been paid. If the master gives this affidavit, it shall be executed on customs Form 1304.

(d) No vessel shall be permitted to exchange her marine document at a port other than the home port until the master has applied for the new marine document and has filed his affidavit that the ownership remains as stated in the document to be surrendered. Such affidavit shall be executed on customs Form 1304, which may be modified in appropriate cases by deletion of the matter pertaining to foreign equipment or repairs. If the exchange of documents is made at the home port, the oaths required by § 3.18 shall be filed. (R.S. 161, sec. 2, 23 Stat. 118, 119, R.S. 3114, 3115, as amended, R.S. 4322, 4323, as amended, 4337, sec. 30, 41 Stat. 1004, sec. 204, 49 Stat. 1987; 5 U.S.C. 22, 19 U.S.C. 257, 258, 46 U.S.C. 2, 3, 264, 265, 278, 961, 1114. E.O. 9083; 7 F.R. 1609)

§ 3.31 *Loss of marine document.* When the marine document of any vessel is lost, mutilated, destroyed, or mislaid, the master makes oath on customs Form 1305 to such fact, and the oaths required by § 3.18 are filed at the home port if the vessel first arrives at that port after such loss, or the affidavit required by § 3.30 (d) is filed at the port where the vessel first arrives at a port other than her home port after such loss, the collector at such port shall issue a new document in lieu of the lost document, reciting that it was issued in place of the lost one. A document is held to be lost when it is wrongfully withheld from the possession of the owner.²⁰ (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4167, 4326; 5 U.S.C. 22, 46 U.S.C. 2, 36, 268. E.O. 9083; 7 F.R. 1609)

§ 3.32 *Sale of vessel.* (a) When a documented vessel is sold or transferred in whole or in part to a citizen,²¹ such vessel shall not be deemed a vessel of the United States until documented anew.

(b) The bill of sale shall be filed with the collector of customs before a new document is granted. (R.S. 161, sec. 2, 23 Stat. 118, R.S. 4170, as amended, sec. 9, 39 Stat. 730, as amended; 5 U.S.C. 22, 46 U.S.C. 2, 39, 808. E.O. 9083; 7 F.R. 1609)

¹⁸ When a vessel's engine is changed but there is no change in the type of motive power, no redocumentation is required unless the installation of the new engine changes the admeasured tonnage of the vessel.

¹⁹ The requirement of subsection O (a) of the Ship Mortgage Act, 1920 (46 U.S.C. 961 (a)), that the document of a vessel covered by a preferred mortgage may not be surrendered without the approval of the United States Maritime Commission and the mortgagee, does not refer to a renewal of license or change of document incident to change of trade where the ownership and home port remain the same.

¹⁶ See note 5, § 3.6.

¹⁷ A vessel is rebuilt if any considerable part of the hull of an old vessel in its intact condition, without being broken up, is built upon. It is new if none of the old timber is left undisturbed or if all the timber used, whether old or new, is taken up, refitted, and reset.

²⁰ All questions of what constitutes a wrongful withholding shall be referred to the Commissioner of Customs for determination.

²¹ Unless the consent of the United States Maritime Commission is first obtained, no vessel of the United States may be sold or chartered in whole or in part to any person who is not a citizen or to any corporation, partnership, or association which is not a citizen as defined in section 2 of the Shipping Act, 1916, as amended. (46 U.S.C. 802)

§ 3.33 *Recording of bills of sale and mortgages.* (a) When any bill of sale, mortgage, hypothecation, or conveyance of any interest in any vessel is presented to a collector of customs to be recorded, the vendee, mortgagee, pledgee, or transferee shall file with the collector the oath required by section 40, Shipping Act, 1916 (46 U.S.C. 838). The oath of a corporation shall be signed by its president, secretary, or treasurer.

(b) No such instrument shall be accepted for recording prior to the receipt by the collector of the approval of the designation of the home port.

(c) No such instrument shall be valid against any person other than the vendor, mortgagor, pledgor, grantor, the heirs or devisees of any of the foregoing, or a person having actual notice thereof, unless the instrument has been recorded in the office of the collector of customs at the home port of the vessel. If the instrument covers more than one vessel, it shall be recorded at the home port of each vessel and indexed under the name of each vessel whose home port is the port of recordation. The collector shall re-

"(b) Such collector of customs shall record bills of sale, conveyances, and mortgages delivered to him, in the order of their reception, in books to be kept for that purpose and indexed to show—

"(1) The name of the vessel;

"(a) No bill of sale, conveyance, or mortgage shall be recorded unless it states the interest of the grantor or mortgagor in the vessel, and the interest so sold, conveyed, or mortgaged.

"(b) No bill of sale, conveyance, mortgage, notice of claim of lien, or certificate of discharge thereof, shall be recorded unless previously acknowledged before a notary public or other officer authorized by a law of the United States, or of a State, Territory, District, or possession thereof, to take acknowledgment of deeds.

"(c) In case of a change in the port of documentation of a vessel of the United States, no bill of sale, conveyance, or mortgage shall be recorded at the new port of documentation unless there is furnished to the collector of customs of such port, together with the copy of the bill of sale, conveyance, or mortgage to be recorded, a certified copy of the record of the vessel at the former port of documentation furnished by the collector of such port. The collector of customs at the new port of documentation is authorized and directed to record such certified copy. * * * (46 U.S.C. 926)

cord all such instruments delivered to him in the order of their receipt in books to be kept for that purpose and indexed on customs Form 1360 or 1364 to show (1) the name of the vessel, (2) the names of the parties to the instrument, (3) the date and time of day the instrument was received, (4) the interest transferred or mortgaged, (5) the book in which the instrument is recorded, (6) the number assigned to the instrument, and (7) in the case of a mortgage, its amount and date of maturity.

(d) Each such instrument shall recite the interest of the grantor or mortgagor in the vessel, the names of the persons to whom the interest has been transferred or mortgaged, and the interest transferred or mortgaged to each. A bill of sale or conveyance shall also recite in full the last marine document of the vessel.

(e) If any interest in a vessel of the United States has been sold or transferred, the vessel shall not thereafter be documented unless the sale or transfer is represented by a written instrument in the nature of a bill of sale which may be on customs Form 1340, 1342, 1344, 1346, or 1356, and which shall recite in full the marine document last granted to the vessel before the execution of the instrument.

(f) No bill of sale, conveyance, mortgage, release from mortgage, satisfaction or discharge of mortgage, or assignment of mortgage shall be recorded unless previously acknowledged. Any acknowledgment valid under the laws of the state where made may be accepted. No customs officer or employee is authorized by section 486, Tariff Act of 1930, to take such acknowledgments.

(g) Each certificate of discharge of mortgage presented for recording shall be on the customs Form 1363 or in a substantially similar form.

(h) When the home port of a vessel of the United States is changed, whether or not any change in the title occurs, the collector of customs at the old home port shall furnish on customs Form 1331 a certified copy of his record of the vessel to the collector at the new home port. Such certified copy shall include a record of any notice of claim of lien upon the vessel which has been recorded. The collector at the new home port shall record such certified copy and no bill of sale, mortgage, conveyance, or court order passing title shall be recorded at the new home port until such certified copy has been received and recorded.

(i) Each bill of sale, mortgage, hypothecation, conveyance, release, satisfaction, assignment or notice of claim of lien shall be endorsed by the collector to show the port of recordation, the exact day, hour, and minute it was received for recordation, the book in which it was recorded, and the number assigned to the instrument.

(j) When an instrument other than a preferred mortgage or assignment of a preferred mortgage (see § 3.38) is to be recorded, the original and one copy shall be presented to the collector, who shall retain the copy for his files.

(k) After a certified copy of the record of a vessel, customs Form 1331, has been

forwarded from the old home port of the vessel to its new home port, no instrument for such vessel shall be recorded at the old home port. (R.S. 161, sec. 2, 23 Stat. 118, sec. 30, subsecs. C, H, 41 Stat. 1000, 1002, sec. 2, 43 Stat. 948; 5 U.S.C. 22, 46 U.S.C. 2, 921, 926, 1012. E.O. 9083; 7 F.R. 1609)

§ 3.34 *Issue of temporary document upon sale.* (a) When a vessel entitled to be documented changes ownership and is in a port other than the home port designated by the new owner, a temporary document may be issued by the collector at the port where she is.

(b) If application is made to the collector at the home port designated by the new owner and all requirements of law are complied with except the issuance of the document, he shall authorize the collector at the port where the vessel then is to issue a temporary document to the vessel.

(c) If application is made to the collector at the port where the vessel then is, the same proceedings shall be had as are required by law at the vessel's home port, except that the bill of sale shall not be recorded at the port where the vessel is. If the bill of sale is presented to the collector at the port where the temporary document is issued, it shall be noted on his records and then forwarded to the collector at the home port designated by the new owner. The recording fees shall be collected by the issuing collector and forwarded with the bill of sale to the collector at such home port.

(d) The bill of sale shall be recorded by the collector at the home port designated by the new owner, but only after there has been furnished to him by the collector at the former port of documentation a certified copy on customs Form 1331 of the record of the vessel at the latter port as required by subsection H (c) of the Ship Mortgage Act, 1920 (46 U.S.C. 926 (c)).

(e) The temporary document shall be surrendered within 10 days after the arrival of the vessel within the district to which she belongs. (R.S. 161, sec. 2, 23 Stat. 118, sec. 2, 43 Stat. 948, R.S. 4159, R.S. 4160; 5 U.S.C. 22, 46 U.S.C. 2, 29, 30, 1012. E.O. 9083; 7 F.R. 1609)

§ 3.35 *Sale abroad.* A documented vessel which has been sold or transferred in whole or in part to a citizen while such vessel is outside the limits of the United States shall be entitled on her first arrival thereafter to all the privileges of a vessel of the United States if a new document is obtained within 5 days after she arrives at the first port in the United States. (R.S. 161, secs. 2, 3, 23 Stat. 118, sec. 434, 46 Stat. 711, sec. 301, 49 Stat. 527, R.S. 4166; 5 U.S.C. 22, 19 U.S.C. 1434, 46 U.S.C. 2, 3, 35. E.O. 9083; 7 F.R. 1609)

§ 3.36 *Sale or charter to an alien.*

(a) When a documented vessel is sold in whole or in part, even in trust or confidence, to one who is not a citizen, its document shall be delivered (1) within 7 days after the sale to the collector at the port where the vessel is, if it is in the United States, or (2) within 8 days after

the first arrival of the master in the United States to the collector at the port of his first arrival, if the vessel is at sea or not in the United States at the time of sale.²²

(b) The master and all watch officers of a documented vessel chartered to one who is not a citizen²³ shall be citizens. § 3.37 *Preferred mortgages.* (a) For the purposes of these regulations a "preferred mortgage" is one which meets the requirements of subsection D of the Ship Mortgage Act.²⁴

²² See note 21, § 3.32.

²³ "(a) A valid mortgage which at the time it is made, includes the whole of any vessel of the United States (other than a towboat, barge, scow, lighter, car float, canal boat, or tank vessel, of less than two hundred gross tons), shall, in addition, have in respect to such vessel and as of the date of the compliance with all the provisions of this subdivision, the preferred status given by the provisions of section 953 of this title, if—

"(1) The mortgage is endorsed upon the vessel's documents in accordance with the provisions of this section;

"(2) The mortgage is recorded as provided in section 921 of this title, together with the time and date when the mortgage is so endorsed;

"(3) An affidavit is filed with the record of such mortgage to the effect that the mortgage is made in good faith and without any design to hinder, delay, or defraud any existing or future creditor of the mortgagor or any lienor of the mortgaged vessel;

"(4) The mortgagee waives the preferred status thereof; and

"(5) The mortgagee is a citizen of the United States and for the purposes of this section the Reconstruction Finance Corporation shall, in addition to those designated in sections 888 and 802 of this title, be deemed a citizen of the United States.

"(b) Any mortgage which complies in respect to any vessel with the conditions enumerated in this section is hereafter in this chapter called a 'preferred mortgage' as to such vessel.

"(c) There shall be indorsed upon the documents of a vessel covered by a preferred mortgage—

"(1) The names of the mortgagor and mortgagee;

"(2) The time and date the indorsement is made;

"(3) The amount and date of maturity of the mortgage; and

"(4) Any amount required to be indorsed by the provisions of subdivision (e) or (f) of this section.

"(d) Such indorsement shall be made (1) by the collector of customs of the port of documentation of the mortgaged vessel, or (2) by the collector of customs of any port in which the vessel is found, if such collector is directed to make the indorsement by the collector of customs of the port of documentation; and no clearance shall be issued to the vessel until such indorsement is made. The collector of customs of the port of documentation shall give such direction by wire or letter at the request of the mortgagee and upon the tender of the cost of communication of such direction. Whenever any new document is issued for the vessel, such indorsement shall be transferred to and in-

(b) A preferred mortgage may not be placed upon any vessel which is not a documented vessel, nor upon any vessel of less than 200 gross tons which is a towboat (including tugs and other vessels used for towing), barge, scow, lighter, car float, canal boat, or tank vessel. It may cover more than one vessel, but may not be limited to a part of any vessel.

(c) A mortgage which includes property other than a vessel or vessels may not acquire a preferred status unless it provides for the separate discharge of such other property.

(d) A preferred or ordinary mortgage may be placed on a vessel already covered by a preferred or ordinary mortgage. (R.S. 161, sec. 2, 23 Stat. 118, sec. 30, subsec. D, 41 Stat. 1000, 49 Stat. 424; 5 U.S.C. 22, 46 U.S.C. 2, 922. E.O. 9083; 7 F.R. 1609)

§ 3.38 *Record and endorsement of preferred mortgages and related instruments.* (a) Every preferred mortgage presented for recording shall be accompanied by three identical copies and, in the case of a blanket mortgage, one additional identical copy for each vessel in excess of one covered by the mortgage. All copies except one, which shall be inserted by the collector in his record of preferred mortgages, shall be certified by the collector and delivered to the mortgagor²⁵ after the record has been made.

dorsed upon the new document by the collector of customs.

"(e) A mortgage which includes property other than a vessel shall not be held a preferred mortgage unless the mortgage provides for the separate discharge of such property by the payment of a specified portion of the mortgage indebtedness. If a preferred mortgage so provides for the separate discharge, the amount of the portion of such payment shall be indorsed upon the documents of the vessel.

"(f) If a preferred mortgage includes more than one vessel and provides for the separate discharge of each vessel by the payment of a portion of the mortgage indebtedness, the amount of such portion of such payment shall be indorsed upon the documents of the vessel. In case such mortgage does not provide for the separate discharge of a vessel and the vessel is to be sold upon the order of a district court of the United States in a suit in rem in admiralty, the court shall determine the portion of the mortgage indebtedness increased by 20 per centum (1) which, in the opinion of the court, the approximate value of the vessel bears to the approximate value of all the vessels covered by the mortgage, and (2) upon the payment of which the vessel shall be discharged from the mortgage." (46 U. S. C. 922)

"The collector of customs upon the recording of a preferred mortgage shall deliver two certified copies thereof to the mortgagor who shall place, and use due diligence to retain, one copy on board the mortgaged vessel and cause such copy and the documents of the vessel to be exhibited by the master to any person having business with the vessel, which may give rise to a maritime lien upon the vessel or to the sale, conveyance, or mortgage thereof. The master of the vessel shall, upon the request of any such person, exhibit to him the documents of the vessel and the copy of any preferred mortgage of the vessel placed on board thereof." (46 U.S.C. 923)

The original shall be returned to the mortgagee and a receipt obtained.

(b) The affidavit required by subsection D (a) (3) of the Ship Mortgage Act, 1920,²⁶ if not included in the mortgage, shall be presented with each preferred mortgage submitted for recording and shall be retained by the collector.²⁷ Any acknowledgment of such affidavit valid under the laws of the state where made may be accepted.

(c) No vessel covered by a preferred mortgage shall be granted clearance at any port until the preferred mortgage endorsement required by subsection D (c) of the Ship Mortgage Act, 1920,²⁸ has been placed on her marine document.

(d) In addition to the matters required by § 3.33 (c), the collector shall note on the index on customs Form 1364 the day, hour, and minute that (1) the proposed mortgage endorsement is placed on the marine document, and (2) such notation was made on the index.

(e) When a marine document bearing a preferred mortgage endorsement is surrendered²⁹ and a new document is issued before the mortgage is satisfied or the vessel released, the endorsement shall be placed on the new document.

(f) For the purposes of this section and the related statutes, an assignment of a preferred mortgage shall be regarded in all respects as a new preferred mortgage.

(g) A notice of claim of lien upon a vessel shall be recorded only if the vessel is covered by a preferred mortgage and if the notice is in the form of an affidavit.³⁰

(h) Each certificate of discharge of lien presented to a collector of customs shall be recorded in a book to be kept for that purpose and indexed on customs Form 1364.

(i) When a preferred mortgage has been discharged in whole or in part and a certificate of such discharge has been filed with the collector of customs at the home port of any vessel covered by the discharge, such vessel shall not be granted clearance at any port until the collector at the home port, or the collector at the port where the vessel is, at the direction of the collector at the home port, has endorsed the fact of such discharge upon the document of the

(b) In similar cases frontier enrollments shall bear the same endorsements as are placed on registers. When the endorsement required by § 3.2 (c), class 1, or by § 3.2 (d) (1) is placed on a frontier enrollment and license, the word "Coasting" in the license shall be deleted, and the word "Fisheries" inserted in lieu thereof.

(c) A foreign-built vessel which is owned by a citizen but which was not so owned and documented prior to February 1, 1920, or which was not owned by the United States on June 5, 1920, shall not be granted a frontier enrollment and

After the entry, preliminary or otherwise, of any vessel or report of the arrival of any vehicle, the collector may issue a permit to the master of the vessel, or to the person in charge of the vehicle, to unlade merchandise or baggage, but except as provided in subdivision (b) of this section merchandise or baggage so unladen shall be retained at the place of unloading until entry therefor is made and a permit for its delivery granted, and the owners of the vessel or vehicle from which any imported merchandise is unladen prior to entry of such merchandise shall be liable for the payment of the duties accruing on any part thereof that may be removed from the place of unloading without a permit therefor having been issued. * * * Tariff Act of 1930, section 448 (a); 19 U.S.C. 1448 (a).

(c) If there is on board any merchandise, including bulk merchandise and baggage, which is not included in, or does not agree with, the manifest,²⁴ the manifest shall be corrected by the execution in duplicate of a post entry on customs Form 3257. The original shall be filed with the collector and the duplicate shall be mailed or delivered promptly to the comptroller of customs. A correction in the manifest shall not be required in the case of bulk merchandise if the collector is satisfied that the difference between the manifested quantity and the quantity unladen is an ordinary and usual difference properly attributable to absorption of moisture, temperature, faulty weighing at the port of weighing, or other similar reason.

(d) If the discrepancy is not explained to the satisfaction of the collector, the penalties prescribed by section 584, Tariff Act of 1930, as amended, shall be imposed. For the purpose of assessing such penalties the value of the merchandise is that defined in section 23.12. The fact that the master or owner had no knowledge that the discrepancy existed does not relieve him from the penalty. (R.S. 161, secs. 440, 584, 624, 46 Stat. 712, 748, 759, sec. 204, 49 Stat. 523, 5 U.S.C. 22; 19 U.S.C. 1440, 1584, 1624. E.O. 9083; 7 F.R. 1609)

" * * * and if any merchandise, including sea stores, is found on board of or after having been unladen from such vessel or vehicle which is not included or described in said manifest or does not agree therewith, the master of such vessel or the person in charge of such vehicle or the owner of such vessel or vehicle shall be liable to a penalty equal to the value of the merchandise so found or unladen, and any such merchandise belonging or consigned to the master or other officer or to any of the crew of such vessel, or to the owner or person in charge of such vehicle, shall be subject to forfeiture. * * * *Provided*, That if the collector shall be satisfied that the manifest * * * is incorrect by reason of clerical error or other mistake * * * said penalties shall not be incurred." (b) When any shipment of spirits, wines, or other alcoholic liquors found on board a vessel not exceeding 500 net tons is shown to have a bona fide destination outside the United States, the master shall furnish a landing bond on customs Form 7593 (see T. D. 47886) with an authorized corporate surety unless the shipment is accompanied by a certificate on Form 149-Consular.

(c) The condition of the landing bond shall be satisfied by the delivery to the collector of customs within 6 months from the date of the bond of a landing certificate or certificates of a revenue officer of the country of destination, or on consular Form 150 if it is impossible to obtain the certificate of a revenue officer, showing that all the alcoholic liquors have been landed at their foreign destination. (R.S. 161, sec. 7, 49 Stat. 520; 5 U.S.C. 22, 19 U.S.C. 1707)

§ 4.14 *Equipment and repairs to American vessels.* (a) When the master of a vessel documented under the laws of the United States to engage in the foreign or coasting trade, or intended to be employed in such trade, makes entry for his vessel, he shall make an affidavit in duplicate on customs Form 3415 or 3417 as to whether or not any equipment, repair part, or material has been purchased for the vessel, or any expense for repairs has been incurred, in a foreign country,²⁶ within the purview of section 466, Tariff Act of 1930.²⁷ The duplicate copy of such affi-

spirits, wines, or other alcoholic liquors (sea stores excepted) found, or discovered to have been, upon any such vessel at any place in the United States, or within the customs waters, without said certificate on board, which are not shown to have a bona fide destination without the United States, shall be seized and forfeited and, in the case of any such merchandise so destined to a foreign port or place, a bond shall be required in double the amount of the duties to which such merchandise would be subject if imported into the United States, conditioned upon the delivery of said merchandise at such foreign port or place as may be certified by a consular officer of the United States or otherwise as provided in said regulations: *Provided*, That if the collector shall be satisfied that the certificate required for the importation of any spirits, wines, or other alcoholic liquors was issued and was lost or mislaid without fraud, or was defaced by accident, or is incorrect by reason of clerical error or other mistake, said penalties shall not be incurred nor shall such bond be required. * * * (19 U.S.C. 1707)

²⁶ The Canal Zone, Virgin Islands, and the Philippine Islands are not "foreign countries" within the meaning of sec. 466, Tariff Act of 1930, and equipment, repair parts, or materials there purchased or repairs there made on a vessel of the United States are not dutiable.

²⁷ Sections 3114 and 3115 of the Revised Statutes, as amended by the Tariff Act of 1922, are amended to read as follows:

davit shall be mailed or delivered by the master to the comptroller of customs.

(b) Entry on customs Form 7535 shall be made for such equipment or repairs and estimated duties deposited or a bond on customs Form 7567 or 7569 given therefor before the vessel shall be allowed clearance, except that vessels owned by the United States, although subject to the provisions of the said section 466, shall be allowed to proceed without the deposit of duties or the filing of a bond if operated by the United States Maritime Commission or a similar agency of the United States or if operated by private parties under an agreement providing that such agencies shall pay duties accruing under such section 466. Vessels owned by the United States and operated by private parties who are liable by agreement for duties accruing under section 466 shall be treated in all respects the same as privately owned vessels.

"Sec. 3114. The equipments, or any part thereof, including boats, purchased for, or the repair parts or materials to be used, or the expenses of repairs made in a foreign country upon a vessel documented under the laws of the United States to engage in the foreign or coasting trade, or a vessel intended to be employed in such trade, shall, on the first arrival of such vessel in any port of the United States, be liable to entry and the payment of an ad valorem duty of 50 per centum on the cost thereof in such foreign country; and if the owner or master of such vessel shall willfully and knowingly neglect or fail to report, make entry, and pay duties as herein required, such vessel, with her tackle, apparel, and furniture, shall be seized and forfeited. For the purposes of this section, compensation paid to members of the regular crew of such vessel in connection with the installation of any such equipments or any part thereof, or the making of repairs, in a foreign country, shall not be included in the cost of such equipment or part thereof, or of such repairs.

"Sec. 3115. If the owner or master of such vessel furnishes good and sufficient evidence—

"(1) That such vessel, while in the regular course of her voyage, was compelled, by stress of weather or other casualty, to put into such foreign port and purchase such equipments or make such repairs, to secure the safety and seaworthiness of the vessel to enable her to reach her port of destination; or

"(2) That such equipments or parts thereof or repair parts or materials, were manufactured or produced in the United States, and the labor necessary to install such equipments or to make such repairs was performed by residents of the United States, or by members of the regular crew of such vessel,

then the Secretary of the Treasury is authorized to remit or refund such duties, and such vessel shall not be liable to forfeiture, and no license or enrollment and license, or renewal of either, shall hereafter be issued to any such vessel until the collector to whom application is made for the same shall be satisfied, from the oath of the owner or master, that all such equipments and repairs made within the year immediately preceding such application have been duly accounted for under the provisions of this and the preceding sections, and the duties accruing thereon duly paid; and if such owner or master shall refuse to take such oath, or take it falsely, the vessel shall be seized and forfeited." (Tariff Act of 1930, sec. 466; 19 U.S.C. 257, 258)

(c) No consular invoice shall be required, but the master shall file with the entry receipts showing the costs of the items enumerated in the said section 466. If, however, it is impracticable to produce such receipts at the time of entry, liquidation of the entry shall be suspended pending the furnishing of a complete account of the items liable to duty. In such cases the collector shall cause an examination of such equipment or repairs to be made by a representative of the appraiser's office, if possible, in order to verify the cost declared on entry. If the cost of the equipment or repairs, as shown by the complete account when filed, differs from that declared on entry, the collector may permit the entry to be amended accordingly.

(d) When the entry has been completed by the filing of proper evidence of cost and the Commissioner's decision on the application for relief, if any, has been received, the entry shall be liquidated.

(e) Applications for relief may be filed alleging that (1) an item covered by the entry is not within the class of items liable to duty under section 3114, Revised Statutes, (2) such item is within the provisions of section 3115, Revised Statutes, or (3) both of the foregoing. Any such application shall be made, through the collector of customs to the Commissioner of Customs and filed in the office of the former within 90 days after the date of the entry. Upon submission of an application for relief to the collector for transmittal to the Commissioner, liquidation of the entry shall be suspended pending the decision of the Commissioner as to whether or not the duties may be remitted or refunded. Inasmuch as an unprotested liquidation, insofar as it relates to the classification of items for the purposes of section 3114, Revised Statutes, is final at the expiration of 60 days, a subsequent application in regard thereto cannot be considered in the absence of a timely protest.

(f) The United States Maritime Commission or a similar agency or instrumentality of the United States may make application direct to the Commissioner upon receiving his approval of that procedure. The liquidation of entries filed by agencies or instrumentalities of the United States which have received permission to make application for relief direct to the Commissioner shall be suspended until advice is received either from the agency or instrumentality that no application for relief is to be filed, or from the Commissioner as to his decision.

(g) When relief is claimed under subparagraph (1) of section 3115, Revised Statutes, there shall be submitted to the Commissioner of Customs an affidavit of the master accompanied by the entry, itemized bills covering the cost of the repairs made or equipment purchased, abstracts of the vessel's log, and a certificate of the proper officer when the repairs were made in order to obtain a certificate of seaworthiness, all in duplicate. This affidavit shall set out fully the following information:

(1) The nature of the casualty or stress of weather encountered;

(2) When and where the casualty or stress of weather occurred;

(3) The damage done by the casualty or stress of weather;

(4) The port where the repairs were made or the equipments secured; and

(5) A statement of the master of the vessel as to whether or not the repairs or equipments were required to secure the safety and seaworthiness of the vessel to enable her to reach her port of destination.

(h) When relief is claimed under subparagraph (2) of section 3115, Revised Statutes, an affidavit of the master shall be submitted to the Commissioner of Customs in duplicate, accompanied by the evidence in support of the claim.

(i) The evidence referred to in paragraphs (g) and (h), or offered in support of an application filed under paragraph (e) (1), shall be furnished to the collector of customs within 90 days after an application is filed.

(j) The master shall certify as true copies or originals, as the case may be, one copy of each repair bill, abstract of the vessel's log, report of survey, and other documents submitted in support of the application for relief. If a document is written in a foreign language, it shall be accompanied by a translation thereof in duplicate, one copy of which shall be certified as to the accuracy of the translation. (Secs. 466, 498, 46 Stat. 719, 728; 19 U.S.C. 257, 258, 1498)

§ 4.15 Fishing vessels touching and trading at foreign places. (a) Before any vessel enrolled and licensed or licensed to engage in the fisheries shall touch and trade at a foreign port or place, the master shall obtain from a collector of customs a permit on customs Form 1379 to touch and trade.²⁸

(b) Upon the arrival of a vessel enrolled and licensed or licensed for the fisheries which has put into a foreign port or place, the master shall report its arrival, make entry, and conform in all respects to the regulations applicable in the case of a vessel arriving from a foreign port.

(c) If a vessel which has been granted a permit to touch and trade arrives at a

port in the United States, whether or not the vessel has touched at a foreign port or place, such permit shall forthwith be surrendered to the collector of customs.

(d) No permit to touch and trade shall be issued to a vessel enrolled and licensed or licensed for the coasting trade and mackerel fishery which is departing on a foreign voyage to engage exclusively in a trade other than the fisheries. For such a voyage the vessel shall be registered and the master shall obtain clearance for the foreign port or place. (R.S. 161, 4364, 4365, sec. 2, 23 Stat. 118; 5 U.S.C. 22, 46 U.S.C. 2, 310, 311, E.O. 9083; 7 F.R. 1609)

§ 4.16 Entry and clearance on board vessels. (a) A master, owner, or agent of a vessel described in the act of June 16, 1937,²⁹ who desires that arrival may be reported, entry made, and clearance obtained on board the vessel shall file with the collector an application on customs Form 3853 and a bond on customs Form 7567 in such penal sum as the collector deems sufficient but not less than \$500, or the usual term bond on customs Form 7569.

(b) If the application is approved, the collector of customs or such deputy collector of customs as may be designated by him shall receive the report of arrival and the entry of the vessel and grant it clearance on board the vessel.

(c) For the purposes of the said act the term "at night" shall include the hours from 5 p. m. of one day to 8 a. m. of the following day, and the term "holiday" shall include only national holidays. (50 Stat. 303; 19 U.S.C. 1435b, E.O. 9083; 7 F.R. 1609)

§ 4.17 Vessels from discriminating countries. The prohibition against imports in, and forfeiture of, certain vessels from countries which discriminate against American vessels provided for in subsections 2 and 3 of paragraph J, section IV, Tariff Act of 1913, as amended by the Act of March 4, 1915 (19 U.S.C. 130, 131), shall be enforced only in pursuance of specific instructions issued and

published from time to time by the Secretary of the Treasury. (See also §§ 4.20 (c) and 16.19) (R.S. 161, sec. 624, 46 Stat. 759; 5 U.S.C. 22, 19 U.S.C. 1624)

TONNAGE TAX AND LIGHT MONEY

§ 4.20 Tonnage taxes. (a) Except as specified in § 4.21, a regular tonnage tax or duty³⁰ of 2 cents per net ton, not to exceed in the aggregate 10 cents per net ton in any 1 year, shall be imposed at each entry on all vessels which shall be entered in any port of the United States from any foreign port or place in North America, Central America, the West India Islands, the Bahama Islands, the Bermuda Islands, Newfoundland, or the coast of South America bordering on the Caribbean Sea (considered to include the mouth of the Orinoco River), and regular tonnage tax of 6 cents per net ton, not to exceed 30 cents per net ton per annum, shall be imposed at each entry on all vessels which shall be entered in any port of the United States from any other foreign port.

(b) The tonnage year shall be com-

²⁸ "Upon vessels which shall be entered in the United States from any foreign port or place there shall be paid duties as follows: On vessels built within the United States but belonging wholly or in part to subjects of foreign powers, at the rate of thirty cents per ton; on other vessels not of the United States, at the rate of fifty cents per ton, and any vessel any officer of which shall not be a citizen of the United States shall pay a tax of fifty cents per ton.

"A tonnage duty of 2 cents per ton, not to exceed in the aggregate 10 cents per ton in any one year, is imposed at each entry on all vessels which shall be entered in any port of the United States from any foreign port or place in North America, Central America, the West India Islands, the Bahama Islands, the Bermuda Islands, or the coast of South America bordering on the Caribbean Sea, or Newfoundland, and a duty of 6 cents per ton, not to exceed 30 cents per ton per annum, is imposed at each entry on all vessels which shall be entered in any port of the United States from any other foreign port, not, however, to include vessels in distress or not engaged in trade.

"Upon every vessel not of the United States, which shall be entered in one district from another district, having on board goods, wares, or merchandise taken in one district to be delivered in another district, duties shall be paid at the rate of 50 cents per ton: *Provided*, That no such duty shall be required where a vessel owned by citizens of the United States, but not a vessel of the United States, after entering an American port, shall, before leaving the same, be registered as a vessel of the United States. On all foreign vessels which shall be entered in the United States from any foreign port or place, to and with which vessels of the United States are not ordinarily permitted to enter and trade, there shall be paid a duty at the rate of \$2 per ton; and none of the duties on tonnage above mentioned shall be levied on the vessels of any foreign nation if the President of the United States shall be satisfied that the discriminating or countervailing duties of such foreign nations, so far as they operate to the disadvantage of the United States, have been abolished. Any rights or privileges acquired by any foreign nation under the laws and treaties of the United States relative to the duty of tonnage on vessels shall not be impaired; and any vessel any officer of which shall not be a citizen of the United States shall pay a tax of 50 cents per ton." (46 U.S.C. 121)

²⁸ "Whenever any vessel, licensed for carrying on the fishery, is intended to touch and trade at any foreign port, it shall be the duty of the master or owner to obtain permission for that purpose from the collector of the district where such vessel may be, previous to her departure, and the master of every such vessel shall deliver like manifests, and make like entries, both of the vessel and of the merchandise on board, within the same time, and under the same penalty, as are by law provided for vessels of the United States arriving from a foreign port." (46 U.S.C. 310)

"Whenever a vessel, licensed for carrying on the fisheries, is found within three leagues of the coast, with merchandise of foreign growth or manufacture, exceeding the value of \$500, without having such permission as is directed by section 310 of this title, such vessel together with the merchandise of foreign growth or manufacture imported therein, shall be subject to seizure and forfeiture." (46 U.S.C. 311) (See also 46 U.S.C. 325)

If such a vessel puts into a foreign port or place and only obtains bunkers, stores, or supplies suitable for a fishing voyage, it is not considered to have touched and traded there.

²⁹ "In order to expedite the dispatch of vessels carrying passengers operating on regular schedules and arriving at night or on a Sunday or a holiday at a port in the United States at which such vessel is required by law to report arrival and make entry and from which it is required to obtain a clearance, the collector of customs, or any deputy collector of customs designated by him, if the vessel departs during the same night, Sunday, or holiday on which it arrives may, under such regulations as may be prescribed jointly by the Secretary of Commerce [Commissioner of Customs] and the Secretary of the Treasury, receive the report of arrival and entry of such vessel from and give clearance for such vessel to the master or other proper officer thereof on board such vessel: *Provided*, That bond, as prescribed in section 1451 of this title, is given to secure reimbursement to the Government for the compensation of, and expenses incurred by, such customs officers in performing such services, who shall be entitled to rates of compensation fixed on the same basis and payable in the same manner and upon the same terms and conditions as in the case of customs officers and employees assigned to lading or unlading at night or on Sunday or a holiday." (19 U.S.C. 1435b, E.O. 9083; 7 F.R. 1609)

puted from the date of the first payment without regard to its rate, and shall expire on the day preceding the corresponding date of the following year.²⁷

(c) A vessel shall also be subject on every entry from a foreign port or place,

whether or not regular tonnage tax is payable on the particular entry, to the payment of a special tonnage tax²⁸ and to the payment of light money²⁹ at the rates and under the circumstances specified in the following table:

Classes of vessels	Rate per net ton		
	Regular tax	Special tax	Light money
Vessels of the United States:			
1. Under provisional register, without regard to citizenship of officers.	\$0.02 or \$0.06		
2. All others:			
(i) If all the officers are citizens	.02 or .06		
(ii) If any officer is not a citizen	.02 or .06	\$0.50	
Undocumented vessels which are owned by citizens: ³			
1. Built in the United States	.02 or .06	.30	\$0.50
2. Not built in the United States	.02 or .06	.50	.50
Vessels of Philippine registry, owned by citizens of the Philippine Islands.			
Foreign vessels: ⁴			
1. Of nations whose vessels are exempted from special tax or light money	.02 or .06		
2. Entering from a foreign port or place where vessels of the United States are not ordinarily permitted to enter and trade	.02 or .06	\$2.00	\$1.50
3. All others:			
(i) Built in the United States	.02 or .06	.30	.50
(ii) Not built in the United States	.02 or .06	.50	.50

¹ This does not apply on the first arrival of a vessel in a port of the United States from a foreign or intercoastal voyage if all the officers who are not citizens are below the grade of master and are filling vacancies which occurred on the voyage.

² The special tax and light money do not apply if the vessel is documented as a vessel of the United States before leaving the port.

³ This does not apply if the vessel is under a certificate of protection and the owner or master files with the collector the oath required by 46 U. S. C. 129. An unrecorded bill of sale is not such a document as will exempt a vessel from the payment of light money under 46 U. S. C. 128, and the recording of such bill of sale after the arrival of the vessel is not sufficient to relieve it from the payment of the tax.

⁴ Regular tax at the 6-cent rate is to be collected from every foreign vessel entering from the Philippine Islands, in addition to any special tax or light money shown in the table.

⁵ This is to be collected on each entry of a vessel from such a port or place.

(d) Tonnage tax shall be imposed upon a vessel even though she enters a port of the United States only for orders.

(e) The fact that a vessel passes through the Canal Zone does not affect the rate of tonnage tax otherwise applicable to the vessel.

(f) For the purpose of computing tonnage tax, the net tonnage of a vessel stated in the vessel's marine document shall be accepted unless (1) such statement is manifestly wrong, in which case the net tonnage shall be estimated, pending admeasurement of the vessel, or the tonnage reported for her by any recognized classification society may be accepted, or (2) an appendix is attached to the marine document showing a net tonnage ascertained under the so-called "British rules" or the rules of any foreign country which have been accepted as substantially in accord with the rules of the United States, in which case the tonnage so shown may be accepted and

the date the appendix was issued shall be noted on the tonnage tax certificate, customs Form 1002, and on the master's oath, customs Form 3251.

(g) The decision of the Commissioner of Customs is final on any question of interpretation relating to the collection of tonnage tax or to the refund of such tax when collected erroneously or illegally, and any question of doubt shall be referred to him for instructions. (R.S. 161, sec. 3, 23 Stat. 119, R.S. 4219, as amended, R.S. 4131, as amended, R.S. 4153, 4154, as amended, 4225, sec. 2, 28 Stat. 743; 5 U.S.C. 22, 46 U.S.C. 3, 77, 78, 81, 121, 128, 221. E.O. 9083; 7 F.R. 1609)

§ 4.21 Exemptions from tonnage taxes. (a) Tonnage taxes and light money shall be suspended in whole or in part whenever the President by proclamation shall so direct.

(b) A vessel is exempt from the payment of any tonnage taxes or light money if:

(1) It comes into port for bunkers (including water), sea stores, or ship's stores; transacts no other business in the port; and departs within 24 hours after its arrival.

(2) It arrives in distress, even though required to enter.

(3) It is brought into port by orders of United States naval authorities and transacts no business while in port other than the taking on of bunkers, sea stores, or ship's stores.

(4) A vessel of war.

(5) A public vessel employed for the conveyance of letters and dispatches, or of fuel for war vessels, and not carrying passengers or merchandise in trade.

(6) A yacht or other pleasure vessel not carrying passengers or merchandise in trade.

(7) Engaged exclusively in scientific activities.

(8) Engaged exclusively in laying or repairing cables.

(9) Engaged in whaling or other fisheries, even though it may have entered a foreign port for fuel or supplies, if it did not carry passengers or merchandise in trade.

(10) It is a passenger vessel making three trips or more a week between a port of the United States and a foreign port.

(11) It is used exclusively as a ferry boat, including a car ferry.

(12) It is a tug under frontier enrollment and license, when towing vessels which are required to make entry.

(13) It is a vessel under frontier enrollment and license which has touched at an intermediate foreign port or ports during a coastwise voyage.

(14) It enters otherwise than by sea from a foreign port at which tonnage or lighthouse dues or equivalent taxes are not imposed on vessels of the United States.

(15) It is owned by a citizen of the Philippine Islands and is documented by the Philippine Government.

(16) It is a vessel of the United States entering directly from the Philippine Islands.

(17) It is a vessel entering directly from the Virgin Islands (U. S.), the Canal Zone, American Samoa, the islands of Guam, Wake, Midway, Canton, or Kingman Reef, or Guantanamo Bay Naval Station.

(18) It is a vessel making regular daily trips between any port of the United States and any port in Canada wholly upon interior waters not navigable to the ocean, except that such a vessel shall pay tonnage taxes upon her first arrival in each calendar year. (R.S. 161, 2792, 2793, 4214, 4220, 4221, 4225, 4226, 4227, sec. 3, 23 Stat. 119, sec. 2, 35 Stat. 70, 36 Stat. 234, sec. 1, 39 Stat. 286, sec. 441, 46 Stat. 712, sec. 302, 49 Stat. 527, sec. 1, 50 Stat. 638; 5 U.S.C. 22, 19 U.S.C. 1441, 46 U.S.C. 3, 103, 122, 123, 124, 125, 127, 128, 129, 130, 132, 135. scribed in paragraph (e) or (f) of this section and except in the case of a vessel exempt from entry or clearance under section 288, title 19, United States Code,⁴⁶ no passengers,⁴⁷ cargo,⁴⁸ baggage,⁴⁹ or other article⁵⁰ shall be unladen from a vessel which arrives directly or indirectly from any port or place outside the customs territory of the United States and no cargo, baggage, or other article shall be laden⁵¹ on a vessel destined to a port

⁴⁶ "Enrolled or licensed vessels engaged in the foreign and coasting trade on the northern, northeastern, and northwestern frontiers of the United States, departing from or arriving at a port in one district to or from a port in another district, and also touching at intermediate foreign ports, shall not thereby become liable to the payment of entry and clearance fees, as if from or to foreign ports; but such vessels shall, notwithstanding, be required to enter and clear; * * *." (19 U.S.C. 288 and Supp I)

⁴⁷ "If any passenger is unladen from any vessel or vehicle without a special license or permit therefor issued by the collector, the master of such vessel or the person in charge of such vehicle and every other person who knowingly is concerned, or who aids therein, shall each be liable to a penalty of \$500 for each such passenger so unladen." (Tariff Act of 1930, sec. 454; 19 U.S.C. 1454)

⁴⁸ "After the entry, preliminary or otherwise, of any vessel or report of the arrival of any vehicle, the collector may issue a permit to the master of the vessel, or to the person in charge of the vehicle, to unlade merchandise or baggage, but except as provided in subdivision (b) of this section merchandise or baggage so unladen shall be retained at the place of unloading until entry therefor is made and a permit for its delivery granted, and the owners of the vessel or vehicle from which any imported merchandise is unladen prior to entry of such merchandise shall be liable for the payment of the duties accruing on any part thereof that may be removed from the place of unloading without a permit therefor having been issued. Such approval, together with the permit, shall constitute a special license. The request for overtime services of customs officers, if made at the time the application to unlade or lade is filed, may be on customs Form 3171 in the space provided therefor, but if made thereafter, shall be on customs Form 3853. Such request for overtime services shall not be approved by the collector unless a bond⁵⁴ on cus-

⁵⁴ "Before any such special license to unlade shall be granted, the master, owner, or agent, of such vessel or vehicle shall be required to give a bond in the penal sum to be fixed by the collector conditioned to indemnify the United States for any loss or liability which might occur or be occasioned by reason of the granting of such special license and to pay the compensation and expenses of the customs officers and employees assigned to duty in connection with such unloading at night or on Sunday or a holiday, in accordance with the provisions of section 5 of the Act entitled 'An Act to provide for the lading, or unloading of vessels at night, the preliminary entry of vessels, and for other purposes,' approved February 13, 1911, as amended. In

toms Form 7567 or 7569 shall have been filed, except that, when a carrier has on file a bond on customs Form 3587, no further bond shall be required solely by reason of the unloading or lading at night or on a Sunday or holiday of merchandise or baggage covered by bonded transportation entries.

(d) Except as prescribed in paragraph (e) or (f) of this section, a separate application for a permit or special license shall be filed in the case of each arrival. (e) A special license on customs Form 3851 running for a period of 1 month may be granted for a passenger vessel making three or more trips a week between a port in the United States and a foreign port, or a vessel used as a ferryboat, including car ferries, to unlade merchandise, passengers, or baggage, or to lade merchandise or baggage at night or on a Sunday or holiday when customs supervision is required. The application for such a special license shall be on customs Form 3851 supplemented by a request for overtime services of customs officers on customs Form 3853 which shall clearly indicate the periods for which the overtime services are desired. The special license shall not be granted unless the required bond on customs Form 3587, 7567, or 7569 shall have been filed.

(f) The collector may also issue a permit running for a period of 1 month to unlade or lade any vessel specified in paragraph (e) of this section during official hours. Customs Form 3851 (modified) shall be used for such purpose.

(g) A special license for the unloading or lading of a vessel at night shall be refused by the collector if the character of the merchandise or the conditions or facilities at the place of unloading or lading render the issuance of such special license dangerous to the revenue. In no case shall a special license for unloading or lading on a Sunday or holiday be granted except on the ground of commercial necessity.

(h) The collector shall not issue a permit to unlade cargo or equipment of vessels arriving directly or indirectly from any port or place outside the customs territory of the United States, except on compliance with one or more of the following conditions:

- (1) The merchandise shall have been duly entered and permits issued; or
- (2) A vessel bond on customs Form 7567 or 7569 shall have been given; or
- (3) The merchandise is to be discharged into the custody of the collector

lieu of such bond the owner, or agent, of any vessel or vehicle or line of vessels or vehicles may execute a bond in a penal sum to be fixed by the Secretary of the Treasury to cover and include the issuance of special licenses for the unloading of vessels or vehicles belonging to such line for a period of one year from the date thereof. * * * (Tariff Act of 1930, sec. 451, as amended; 19 U.S.C. 1451)

¹⁰ "At the request of the consignee of any merchandise, or of the owner or master of the vessel or the person in charge of the vehicle in which the same is imported, any merchandise may be taken possession of by the collector after the expiration of one day after the entry of the vessel or report of the vehicle and may be unladen and held at the risk and expense of the consignee until entry thereof is made." (Tariff Act of 1930, section 490 (b); 19 U.S.C. 1490 (b))

Unless its transportation has been in violation of the coastwise laws, the cargo may be cleared through customs at the port where it is discharged or forwarded to the port of original destination under an entry for immediate transportation or for transportation and exportation, as the case may be. All regulations shall apply in such cases as if the unloading and delivery took place at the port of original destination. (b) A bond on customs Form 7567 shall be given in an amount to be determined by the collector to insure the proper disposition of the cargo, whether such cargo be dutiable or free. (R.S. 251, secs. 449, 624, 46 Stat. 715, 759; 19 U.S.C. 66 and Sup. I, 19 U.S.C. 1449, 1624)

¹⁴ "Except as provided in sections 442 and 447 of this Act (relating to residue cargo and to bulk cargo, respectively), merchandise and baggage imported in any vessel by sea shall be unladen at the port of entry to which such vessel is destined, unless (1) such vessel is compelled by any cause to put into another port of entry, and the collector of such port issues a permit for the unloading of such merchandise or baggage, or (2) the Secretary of the Treasury, because of an emergency existing at the port of destination, authorizes such vessel to proceed to another port of entry. Merchandise and baggage so unladen may be entered in the same manner as other imported merchandise or baggage and may be treated as unclaimed merchandise or baggage and stored at the expense and risk of the owner thereof, or may be reladen without entry upon the vessel from which it was unladen for transportation to its destination." (b) Merchandise and baggage unladen at the second port under these circumstances may be (1) entered in the same manner as other imported merchandise and baggage, (2) treated as unclaimed, or (3) reladen without entry for transportation to its original destination.

(c) The destination in the United States of foreign cargo appearing on the inward foreign manifest may be changed at any domestic port to permit the landing of such cargo at any other domestic port if the consignee or his authorized representative and the vessel's owner or agent join in a written application therefor in which each stipulates that in consideration of the approval of the diversion the collector shall be held blameless for any consequence of the act; but no foreign vessel shall be permitted to carry any merchandise beyond the port to which it is shown to be destined on the traveling manifest unless the collector is satisfied that the destination shown on the manifest is in error because of clerical or other mistake. The owner or agent of the vessel shall be required to furnish an amended manifest which shall also be under oath and shall be in duplicate if filed at a port other than the one at which the vessel's bond was filed. The certified manifest shall not be altered or added to in any way by the master or agent, but in any instance where the application for change of destination is approved, that fact and a specific reference to the manifest sheet number and the bills of lading numbers, if any, shall be included in the certification on the certified (traveling) manifest. (Secs. 449, 624, 46 Stat. 715, 759; 19 U.S.C. 1449, 1624)

§ 4.34 Prematurely discharged, overcarried, and undelivered cargo. (a) On written application of the owner or agent of a vessel, the collector may permit inward foreign cargo remaining on the dock, which was prematurely landed and left behind by the importing vessel, to be reladen on board the next available vessel of the same line on which it may be forwarded to the destination shown on the inward foreign manifest of the first vessel, provided the importing vessel actually entered the port of destination of the prematurely landed cargo. Unless so forwarded within 30 days from the date of landing, such cargo shall be appropriately entered for customs clearance or for forwarding in bond; otherwise, it shall be sent to general order as unclaimed.

(b) The collector may permit merchandise not landed at destination and overcarried to another domestic port through error or on account of an emergency to be returned in the importing

vessel, or in another vessel of the same line, to the destination shown on the inward foreign manifest of the importing vessel, provided that vessel actually entered the port of such destination.

(c) Cargo so stowed as to be inaccessible upon arrival at destination may be retained on board, carried forward to another domestic port or ports, and returned to the port of destination in the importing vessel or in another vessel of the same line in the same manner as other overcarried cargo.

(d) Prematurely landed or overcarried cargo forwarded to destination by the importing vessel or another vessel of the same line shall be distinctively manifested in triplicate with appropriate notations on customs Form 7527-B. The abstract manifests shall be certified and the vessel cleared on a permit to proceed, customs Form 1385, on which shall be shown the full details of all the vessel transactions and such information as is required in the case of regular residue cargo by the collector at the port where this cargo is to be discharged. A separate certificate on customs Form 3221, specifying foreign ports and the dates of departure of the importing vessel therefrom, shall be issued in instances where merchandise is forwarded in a vessel other than the one in which the cargo was imported.

(e) A vessel carrying prematurely landed or overcarried cargo upon arrival at each intermediate port and at destination shall comply in respect of such cargo with all the requirements prescribed in this part for a vessel arriving with cargo from a foreign port via a domestic port.

(f) Merchandise shipped from a domestic port, but undelivered at the foreign destination and brought back, shall be manifested as "Undelivered—To be returned to original foreign destination," if such return is intended. The collector may issue a permit to retain such merchandise on board, or he may, upon written application of the steamship company, issue a permit on customs Form 7500-A allowing such merchandise to be transferred to another vessel for return to the original foreign destination. No charge shall be made against the vessel bond. The items shall be remanifested outward and an explanatory reference of the attending circumstances and compliance with export requirements noted. (a) Upon written application from the interested party, the Commissioner of Customs, if he considers it necessary, will permit any vessel laden with merchandise in bulk to proceed, after entry, to any place outside the port where the vessel entered which he may designate for the purpose of unlading such cargo.

"It shall be unlawful * * * to unlade the cargo or any part thereof of any vessel elsewhere than at a port of entry: *Provided*, * * * That any vessel laden with merchandise in bulk may proceed after entry of such vessel to any place designated by the Secretary of the Treasury for the purpose of unlading such cargo, under the supervision of customs officers if the collector shall con-

The compensation and expenses of any such inspector or customs officer for subsistence while on board of such vessel or vehicle shall be reimbursed to the Government by the owner or master of such vessel or vehicle." (Tariff Act of 1930, sec. 457; 19 U.S.C. 1457)

⁶⁷ "The limitation of time for unlading shall not extend to vessels laden exclusively with merchandise in bulk consigned to one consignee and arriving at a port for orders, but if the master of such vessel requests a longer time to discharge its cargo, the compensation of the inspectors or other customs officers whose services are required in connection with the unlading shall, for every day consumed in unlading in excess of twenty-five (25) days from the date of the vessel's entry, be reimbursed by the master or owner of such vessel." If the officer finds that the seals are not intact or for any other reason believes that the baggage has been tampered with en route to the United States, he shall detain the baggage for examination, except as provided for in § 18.3 (c).

(b) Supplies acquired abroad and not required to have internal-revenue stamps affixed thereto before release for consumption may be used in the United States if covered by an inventory furnished in triplicate to the proper customs officer at the time of arrival in the United States.* The correctness of the inventory shall be sworn to by the person in charge of the railroad car. The inventory shall consist of an itemized list showing in parallel columns the kind and quantity of each class of supplies on hand in the car upon its arrival in the United States and the quantity used in the United States.

(c) The customs officer shall certify all copies of the inventory, retain the original, and return the other copies to the person in charge of the car.

(d) Upon arrival of the railroad car at the port of exit on its return to the foreign country, the two copies of the inventory which were returned by the customs officer at the port of arrival to the person in charge of the car shall be submitted to the proper customs officer after being completed by filling in the column showing the quantity of each item used in the United States and resworn to by the person in charge of the car.

554, Tariff Act of 1930,¹⁰ merchandise may be transported from one port to another in the United States through Canada or Mexico without being subject to treatment as an importation when returned to the United States, upon compliance with the regulations in this section and in §§ 5.9 and 5.10.

(b) The merchandise shall be transported in sealed conveyances or compartments unless (1) it is in less-than-load or compartment lots, in which case the packages may be forwarded without being corded and sealed, or (2) it consists of live animals to be transported in accordance with paragraph (c), or (3) its treatment in the same manner as less-than-load or compartment lots is authorized by the Bureau; and shall be covered by manifests printed on yellow paper, 3½ by 8 inches in size, in substantially the following form:

(c) Live animals which can be identified by specific description in the manifest may be transported in the care of an attendant or customs inspector at the expense of the parties in interest in conveyances or compartments not secured with customs seals.

(d) The information contained in the in-transit manifest shall correspond with the information contained in the waybill accompanying the conveyance.

(e) Each manifest shall be presented by the carrier to the customs officer at the port of exit of the conveyance or at the port of lading of the vessel, as the case may be. When the merchandise is to be transhipped under customs supervision in foreign territory, an addi-

¹⁰ "With the consent of the proper authorities, imported merchandise, in bond or duty-paid, and products and manufactures of the United States may be transported from one port to another in the United States through contiguous countries, under such regulations as the Secretary of the Treasury shall prescribe, unless such transportation is in violation of section 4347 of the Revised Statutes, as amended, section 27 of the Merchant Marine Act, 1920, or section 588 of this Act." (Tariff Act of 1930, sec. 554; 19 U.S.C. 1554)

tional copy of the manifest shall be so presented by the carrier for each place of transshipment. In lieu of any improvised record of the transaction, an extra copy of the manifest may be required in any case provided it serves an essential administrative purpose. In the case of mixed loadings, that is loadings made up of several shipments, the description shall be "miscellaneous shipments." When such loadings are to be transshipped in foreign territory and the transshipment may involve the breaking up or consolidation of such mixed loadings, the manifest for the conveyance shall be on a long form, preferably 8 by 10½ inches, instead of on the short form prescribed in paragraph (b), and as to each shipment in the conveyance shall show, in addition to the information required on the short form, the name of the consignee, the final destination, the marks and numbers of the packages, and the number of packages.

(f) Before the departure from the United States of an in-transit railroad train, the carrier concerned shall furnish to the customs inspector at the port of exit a train sheet, otherwise known as a consist, bridge sheet, or trip sheet, listing each car of the train and specifically indicating the in-transit cars.

(g) It shall be the duty of the carrier to affix blue in-transit seals to all openings of conveyances and compartments containing in-transit merchandise, except that conveyances or compartments already secured by red in-bond seals may go forward without having blue in-transit seals affixed thereto and without in-transit manifests. The conveyance shall not proceed until after the customs inspector has finished his inspection.

(h) The original manifest shall accompany the merchandise and the additional copies required when transshipment is involved shall be mailed by the customs officer to the customs officers stationed at the places of transshipment. When by reason of the carrier's schedule or other condition it is probable that the additional copy of the manifest if sent by mail will not reach the customs officer at the place of transshipment prior to the arrival of the merchandise, it may be given to the conductor, master, air commander, or driver, as the case may be, in a sealed envelope for delivery to such customs officer. (Sec. 554, 46 Stat. 743; 19 U.S.C. 1554)

§ 5.9 Transshipment; storage; feeding and watering livestock in Canada.

(a) Merchandise in transit may be transshipped in foreign territory from one conveyance to another under the supervision of a customs officer, who shall also supervise the sealing of the conveyances or compartments to which the merchandise is transshipped, note his action on both the additional copy of the manifest received by him in accordance with § 5.8 (h) and on the conductor's, master's, air commander's, or driver's copy, and return the latter to the conductor, master, air commander, or driver to accompany the merchandise.

(b) When the transshipment involves the breaking up of the in-transit contents of a conveyance or compartment,

and the circumstances are such as to require separate manifests for articles previously covered by a single manifest, the customs officer supervising the transshipment shall take up the carrier's copy of the manifest and require the carrier to prepare a new manifest, in duplicate, for each conveyance to which the merchandise is transshipped. If there is to be a further transshipment, an additional copy of each new manifest shall be presented for mailing by the customs officer to the customs officer at the point of further transshipment, or be forwarded in a sealed envelope in care of the conductor, master, air commander, or driver as provided for in § 5.8 (h). After supervising the transshipment and sealing of the conveyances or compartments to which the merchandise is transshipped, the customs officer shall sign or initial the new manifests and return the originals of such new manifests to the carrier to accompany the merchandise. If the transshipping results in mixed loadings, except when the loading is into a vessel, the long form of manifest, referred to in § 5.8 (e), shall be used.

(c) Live animals in sealed conveyances or compartments may be fed and watered in Canada under the supervision of United States or Canadian customs officers.

(d) When merchandise under in-transit manifests is to be stored in foreign territory awaiting transshipment, the customs officer at the place of transshipment shall check the merchandise into a storehouse, where it shall remain under customs locks or seals until transshipment is effected under custom supervision. (Sec. 554, 46 Stat. 743; 19 U.S.C. 1554)

§ 5.10 Diversion or delay in foreign territory; procedure and treatment at port of reentry or discharge from vessel.

(a) In cases where in-transit cars are diverted, cut out of a train for any reason, or unusually delayed, the railroad superintendent at the point of such diversion, cut-out, or delay shall immediately notify the proper customs officer at the port of reentry by telegraph.

(b) When customs entry is made in Canada or Mexico for merchandise which left the United States in an in-transit status, the carrier shall send the in-transit seals and manifests to the ports where the manifests were first filed with customs, with an endorsement by the carrier's agent on each manifest showing that the merchandise was so entered.

(c) On arrival of an in-transit shipment at the first port in the United States after transportation through foreign territory, the carrier shall present to the customs officer for each loaded conveyance a manifest or manifests, signed or initialed by a custom officer at the port of exit, or the port of lading in the case of a vessel, or the place of transshipment when the merchandise has been transshipped in foreign territory; and in the case of a railroad train the conductor shall also present a train sheet showing the initials, car numbers,

and port of exit of each car in the train. In the case of mixed loadings under § 5.8 (e), the waybills shall be available at the port of return or discharge for use by customs officers for necessary checking purposes.

(d) Upon the arrival at a port of entry of a vessel carrying in-transit merchandise, the master's copies of the in-transit or in-bond manifests covering the merchandise given final customs release at that port shall be retained by customs at that port and the manifests, if any, covering merchandise to be discharged at subsequent ports of arrival shall be returned to the master of the vessel for surrender to customs at the next port, and so on as the vessel proceeds from port to port.

(e) In-bond seals shall be broken only by a customs officer or by a person acting under the direction of a customs officer. In-transit seals may be broken by any carrier's employee, or by the consignee at any time or place after the merchandise under such seals has been released by customs upon return to the United States.

(f) Merchandise which shall have left the United States under in-transit seals but which shall have been transshipped in foreign territory without United States customs supervision shall, upon return to the United States, be treated in the same manner as other merchandise arriving from Canada or Mexico, as the case may be. Similar treatment shall be accorded the merchandise if the inspector finds any of the seals applied to the conveyance or compartment at the port of exit are unlocked or missing. If any cases of substitution of merchandise are found, the merchandise shall be detained and the facts reported to the Bureau.

(g) No in-transit merchandise arriving at ports in the United States shall be released until proper manifests are received, except that it may be treated as originating in Canada or Mexico, as the case may be.

(h) No inward foreign manifests are required for merchandise returned to the United States as an in-transit movement under these regulations. (Sec. 554, 46 Stat. 743; 19 U.S.C. 1554)

§ 5.11 Merchandise in transit through the United States between ports of Canada or Mexico; procedure.

(a) Whenever merchandise, whether in carload or less-than-carload lots, arrives at a frontier port under Canadian or Mexican customs seals in transit through the United States to the same country from which it arrived, the same procedure shall be followed as that prescribed for merchandise in transit through the United States to foreign countries (§§ 18.20-18.24), except that only three copies of customs Form 7512 shall be required, and except that, when the route is such that the train and cars will remain intact while proceeding through the United States, a consolidated train manifest containing the same information as is required on customs Form 7512 may be used. One copy of customs Form 7512 shall be delivered to the conductor, master, or person in charge to accompany the conveyance and be delivered

to the collector at destination for his record.

(b) When any such merchandise arrives without Canadian or Mexican customs seals, the regular procedure governing transportation and exportation shall be followed. (Sec. 553, 46 Stat. 742, sec. 21, 52 Stat. 1087; 19 U.S.C. 1553)

§ 5.12 *Locomotives; railroad equipment; when entry required.* (a) Foreign locomotives or other foreign railroad equipment in use on a continuous route crossing the boundary into the United States shall be admitted without entry or the payment of duty to proceed to and return from the end of the run; that is, in the case of locomotives, the last place to which the locomotive takes the inbound train by a continuous haul, and, in the case of other equipment, the place of complete unloading. Unless formally entered and cleared through customs in the United States, such locomotives or other equipment shall not be used on the inward trip otherwise than in connection with the continuous run, which includes switching of cars of a train that it has hauled into the United States. On the return trip, the locomotives may be used only in connection with through trains crossing the boundary, including the switching to make up such trains, but the other equipment may be used in such trains or for such local traffic as is reasonably incidental to its economical and prompt return to the country from which it entered the United States. Empty foreign railroad cars shall enter the United States without formal entry to be loaded only if the passengers or goods are to be transported directly to or through the country from which the cars entered the United States. Customs officers shall seize any locomotive or other railroad equipment used in violation of this regulation as being imported contrary to law.

(b) Domestic locomotives or other domestic railroad equipment¹¹ upon which repairs have been made in a foreign country shall be subject, upon reentry into the United States, to a duty upon the value of the repairs at the rate at which the locomotive or other equipment would be dutiable if imported, but no such duty shall be assessed by reason of repairs required to restore any such article to the condition in which it last left the United States. A report of the first arrival in the United States of such equipment after it has been repaired in a foreign country shall be made promptly, in writing, to the United States Customs at the port of entry, such report to state the time and place of arrival. (R.S. 251, sec. 624, 46 Stat. 759; 19 U.S.C. 66, 1624)

¹¹ For the purpose of this section, locomotives or other railroad equipment manufactured in, or regularly imported into, the United States, and not subsequently cleared through foreign customs into another country, nor used in foreign local traffic otherwise than as an incident of the return of the equipment to the United States, shall be considered "domestic." Other railroad equipment shall be considered "foreign."

§ 5.13 *Stolen automobiles, trailers, and airplanes returned to United States; entry not required.* Collectors of customs shall admit from Mexico, under the provisions of Executive Order 7965, dated August 29, 1938, without entry and without the payment of duty, alleged stolen or embezzled motor vehicles, trailers, airplanes, or component parts of any of them, if accompanied by a letter from the United States Embassy in Mexico City stating that such Embassy is satisfied from information furnished it that the property, which must be adequately described in the letter for identification purposes, is stolen property being returned to the United States under the provisions of the convention between the United States and Mexico concluded October 6, 1936. (Executive Order 7965, dated August 29, 1938. Sec. 624, 46 Stat. 759; 19 U.S.C. 1624)

§ 5.14 *Grain from Canada to be ground and returned; exemption from duty.* (a) When grain is brought into the United States by Canadian farmers to be ground and returned under the provisions of section 193, title 19, United States Code,¹² and the mill at which such grain is to be ground is not located at a port of entry, a deposit of the duties on such grain shall be taken, such deposit to be refunded upon receipt of the sworn statement of the owner of the mill that the said grain has been received at the mill and of evidence satisfactory to the collector that the product of the grinding thereof, less any toll, has been returned to Canada.

(b) A statement from the owners of the mill, showing that they are citizens of the United States, shall be filed with the collector. An account shall be kept by the miller in a proper register to be open to inspection by any customs officer, showing the name of the farmer bringing any such grain to the mill, the nature of the grain, the dates of its receipt by him and of its delivery, the quantity received at the mill, the quantity of ground products delivered to the farmer, and the quantity of grain taken as tolls for grinding. The miller shall produce a sworn statement of such quantities at the end of each month to the collector, and shall then enter the grain received as tolls and pay the duties due thereon.

(c) Duties shall be paid on any grain, or manufactures thereof, not removed from the mill for transportation to Canada within 1 month from the date of its receipt by the miller. Such grain may

¹² "Grain brought into the United States in wagons or other ordinary road vehicles, by farmers residing in the Dominion of Canada, to be ground by mills owned by citizens of the United States, shall not be deemed to be imported or liable to import duties. Such grains shall be brought into the United States under such regulations as the Treasury Department may prescribe to prevent fraud and evasion, and shall be returned as in like manner provided by such regulations. Entry shall be made of and duties paid upon all such grain as shall be taken or received by mill owners as tolls for such grinding, under like regulations provided by the Treasury Department." (19 U.S.C. 193)

be mixed, provided the entire product of the grinding be returned to Canada with the exception of the tolls and other portions on which duty has been paid. (22 Stat. 402, 19 U.S.C. 193)

§ 5.15 *Buildings on boundary; merchandise deposited therein.* When any merchandise on which the duty has not been paid or which was imported contrary to law is found in any building upon or within 10 feet of the boundary line between the United States and any foreign country, such merchandise shall be seized and the building or that portion thereof which is within the United States shall be taken down or removed.¹³ (Secs. 595, 596, 624, 46 Stat. 752, 759; 19 U.S.C. 1595, 1596, 1624)

(d) The term "aircraft" means civil aircraft, that is, any aircraft not used exclusively in the governmental service of the United States or a foreign country, but includes any government-owned aircraft engaged in carrying persons or property for commercial purposes.

(e) The term "aircraft commander" means the person serving on the aircraft having charge or command of its operation and navigation.

(f) The term "scheduled airline" means any individual, partnership, corporation, or association engaged in air transportation upon regular schedules to, over, or away from the United States, or from area to area, and holding a Foreign Air Carrier Permit or a Certificate of Public Convenience and Necessity issued pursuant to the Civil Aeronautics Act of 1938.

(g) The term "airport of entry" means any airport designated by the Secretary of the Treasury as a port of entry for aircraft arriving in the United States from any place outside thereof and for the merchandise carried on such aircraft; also by the Attorney General as a port of entry for aliens arriving on such aircraft; and by the Federal Security Administrator as a place for quarantine inspection.

§ 6.3 Landing requirements—(a) Place of landing. Every aircraft coming into any area from any place outside thereof shall land in such area unless exempted from this requirement by the Administrator of Civil Aeronautics, Washington, D. C. The first landing shall be at an airport of entry, unless permission to land elsewhere than at an airport of entry is first granted by the Commissioner of Customs, Washington, D. C., who, upon granting such permission, shall immediately notify the Surgeon General, Public Health Service, the Commissioner of Immigration and Naturalization, and any other agency affected thereby. In cases where such permission is given the owner, operator, or person in charge of the aircraft shall pay the additional expenses, if any, incurred in inspecting the aircraft, passengers, employees, merchandise, and baggage carried therein. When such permission is granted to a scheduled airline to land aircraft operating on a schedule, no inspection charge shall be made except for overtime service performed by customs officers and, if the aircraft arrives substantially in accordance with schedules on file with the immigration authorities, no inspection charge shall be made for overtime service by immigration officers.

(b) **Advance notice of arrival.** No aircraft coming into any area from any place outside thereof may land in such area unless notice of the intended flight has been furnished to the collector or deputy collector of customs at the airport of entry at or nearest the intended place of first landing in such area; nor unless the same notice has been furnished to the quarantine and the immigration officers in charge at or nearest such place. Such notice shall specify the type of aircraft, the registration marks thereon, the name of the aircraft

commander, the place of last departure, the airport of entry, or other place at which landing has been authorized, number of alien passengers, number of citizen passengers, and the estimated time of arrival; and shall be sent so as to be received in sufficient time to enable the officers designated to inspect the aircraft to reach the airport of entry or such other place of first landing prior to the arrival of the aircraft. Such advance notice will not be required in the case of aircraft of a scheduled airline arriving in accordance with the regular schedule filed with the collector of customs for the district in which the place of first landing in the area is situated and also with the immigration officer in charge of such place.

(c) **Permission to discharge or depart.** No aircraft arriving in the United States from any place outside thereof, or in an area from another area carrying residue foreign cargo (see § 6.10a) shall, without receiving permission from the quarantine and the customs officers in charge, depart from the place of landing, or discharge any merchandise, passengers, or baggage; and no aircraft arriving in the United States from any place outside thereof or in an area from another area, except directly from the Mainland, shall discharge any passenger or employee without permission from the immigration officer in charge.

(d) **Emergency or forced landing.** Should any aircraft coming into the United States from any place outside thereof, or into any area from any other area, make a forced landing in the United States, the aircraft commander or operator shall not allow any merchandise or baggage to be removed from the landing place without permission from a customs officer, nor allow any passenger or person employed thereon to depart from such landing place without permission of the quarantine and immigration officers, unless such removal or departure is necessary for purposes of safety or the preservation of life or property. As soon as practicable, the aircraft commander, or a member of the crew in charge, or the owner of the aircraft, shall communicate with the customs officer at the intended place of first landing or at the nearest airport of entry or other customs port of entry in that area and also with the nearest quarantine officer and immigration officer and make a full report of the circumstances of the flight and of the emergency or forced landing. Mail carried as such may be removed from such aircraft upon making an emergency or forced landing, but if so removed shall be delivered at once to a responsible officer or employee of the Postal Service.

§ 6.4 Entry and clearance. (a) Aircraft coming into any area from any place outside the United States shall be entered (see § 6.8) in such area if landing is made therein. Aircraft coming into any area from another area shall be entered (see § 6.9 (e)) in such area if landing is made therein and if carrying merchandise or passengers.

(b) Entry shall be made by the aircraft commander at the airport of entry at which the first landing is made in the

area. If, pursuant to § 6.3 (a) the first landing occurs at a place not an airport of entry, entry shall be made at the nearest airport of entry or customs port of entry, unless some other place is designated for that purpose by the Commissioner of Customs.

(c) Aircraft departing from any area for foreign territory, or to take aboard or discharge persons or merchandise anywhere outside the United States, or departing from any area for another area carrying passengers that must be listed in clearance declaration (§ 6.9 (b), (e)) or merchandise shall be cleared (see § 6.9) in the area from which departing.

(d) The clearance shall be obtained by the aircraft commander at the customs port of entry (whether or not an airport of entry) at or nearest the place of last take-off from the area, unless some other place is designated for that purpose by the collector of customs.

(e) This section shall not apply to the entry of aircraft of scheduled air lines complying with the terms of § 6.5, nor to the clearance of such aircraft complying with the terms of § 6.6, nor to the clearance of any aircraft holding a permit issued by the Secretary of Commerce authorizing departure without clearance.

§ 6.5 Entry of aircraft of scheduled air lines. (a) Aircraft operated by scheduled air lines coming into the United States from any place outside thereof shall make entry in the area of first landing.

(2) Carrying residue cargo (§ 6.10a); or

(3) Carrying merchandise in bond (Part 18 of this chapter).

§ 6.6 Clearance of aircraft of scheduled air lines. (a) Aircraft operated by scheduled air lines departing for any place outside the United States may clear from the area of departure, but clearance shall be mandatory only during any period covered by a proclamation of the President that a state of war exists between foreign nations, or the aircraft is:

(1) Beginning a flight in that area; or

(2) Carrying from that area merchandise or such passengers as must be listed in clearance declaration (§ 6.9); or

(3) There are one or more aliens that must be listed on the part of clearance declaration relating to aliens employed (§ 6.9).

In such case the clearance shall be limited to the passengers and merchandise taken aboard at such place. Otherwise the clearance shall be obtained at the customs port of entry (whether or not an airport of entry) at or nearest the place of last take-off in the area unless some other place for clearance is designated by the collector of customs.

§ 6.7 *Documents.* (a) The forms described in §§ 6.8 and 6.9 shall be the primary documents required for entry and clearance of aircraft and the listing of passengers and merchandise carried thereon and aliens employed on board thereof. (2) An aircraft commander's clearance declaration in accordance with this section. The above documents may be filed *pro forma* if the aircraft is departing from the United States and prior to departure a bond be given on customs Form 7301, 7567, or 7569, and the completed documents be delivered pursuant thereto not later than the fourth day after departure: *Provided*, That during any period covered by a proclamation of the President that a state of war exists between foreign nations no aircraft shall be cleared for a foreign port until the shipper's export declarations have been filed with the customs officer in charge.

alien leaving the United States as an employee on the aircraft who was not such when it last arrived in the United States (such alien to be indicated as additional). This requirement applies only to a departure to any place outside the United States but not to a departure from the Mainland or Alaska to Canada or Mexico, nor if such information is furnished in accordance with § 6.10.

(8) Immigration list in the English language, typewritten or printed in ink, of all passengers, departing on the aircraft, showing full name (family name and given name), age, sex, country of which citizen or subject, and as to any alien, the place and date of last arrival in the United States. Such oath may be executed before a customs officer having authority to administer oaths in the performance of his official duties, or other person having authority to administer oaths generally.

(c) The aircraft commander's clearance declaration shall consist of the original, with one copy if the aircraft is departing from the United States, and two copies whenever required by paragraph (e) of this section. The original immigration lists shall be detached and promptly filed by the aircraft commander with the immigration officer in charge. The original outward manifest shall be delivered by the aircraft commander to the customs officer in charge to be retained by him as a record of clearance.

(d) The copy of the clearance declaration for a departure from the United States shall constitute a clearance certificate when endorsed by the customs officer in charge that clearance is granted.

(e) The two copies of the clearance declaration shall be furnished by the aircraft commander when the clearance is to another area and the aircraft is:

(1) Carrying to or over that area passengers that must be listed on clearance declaration; or

(2) Carrying residue cargo (§ 6.10a); or

(3) Carrying merchandise in bond (Part 18 of this chapter).

The copies must have the endorsement of the customs officer in the area from which clearing that permit to proceed is granted. These copies and an information sheet concerning each passenger, unless within an exception prescribed on

the back of that sheet, shall, upon arrival in the area to which cleared, be disposed of by the aircraft commander as follows:

(ii) The outward manifests shall be sworn to before the customs officer in charge at such place of entry and delivered to him. One copy shall be retained by such officer as the coasting manifest.*

§ 6.10 *Omission of lists of aliens employed on board aircraft.* The information required by §§ 6.8 and 6.9 as to aliens employed on board an aircraft may be omitted from the aircraft commander's entry and clearance declarations in the case of aircraft operated by a scheduled air line if its schedules and a list (on a form approved by the Commissioner of Immigration and Naturalization) of such information as to all aliens employed on board the aircraft have been filed by the operator of the aircraft with the immigration officer in charge at the airport of arrival (and at the airport of departure if other than the airport of arrival) shown on such schedules. From that list such officer shall keep as to each alien a card record on a form prescribed by the Commissioner of Immigration and Naturalization. Whenever an alien so listed shall be left in a hospital in the United States or ceases to be in the employ of the operator, the latter shall file with such immigration officer at such airport a report covering the date, place, and manner of leaving the alien in a hospital or the discontinuance of his employment. The name, place, and date of employment of any other or additional alien on board, for inclusion in the list so filed, shall be reported promptly by the operator to such immigration officer at such airport.

§ 6.10a *Residue cargo; customs.* (a) *Tariff Act of 1930, section 442 (19 U.S.C. 1442):*

* * * Any vessel arriving from a foreign port or place having on board merchandise shown by the manifest to be destined to a port or ports in the United States other than the port of entry at which such vessel first arrived and made entry may proceed with such merchandise from port to port or from district to district for the unloading thereof.

(b) *Tariff Act of 1930, section 443 (19 U.S.C. 1443):*

Merchandise arriving in any vessel for delivery in different districts or ports of entry shall be described in the manifest in the order of the districts or ports at or in which the same is to be unladen. Before any vessel arriving in the United States with any such

merchandise shall depart from the port of first arrival, the master shall obtain from the collector a permit therefor with a certified copy of the vessel's manifest showing the quantities and particulars of the merchandise entered at such port of entry and of that remaining on board.

(c) *Tariff Act of 1930, section 444 (19 U.S.C. 1444):*

Within twenty-four hours after the arrival of such vessel at another port of entry, the master shall report the arrival of his vessel to the collector at such port and shall produce the permit issued by the collector at the port of first arrival, together with a certified copy of his manifest.

(d) *Merchandise destined beyond place of first landing.* Aircraft arriving in an area with merchandise on board from any place outside of the United States destined to or through another area may proceed with such merchandise to the place of first landing in the other area under the procedure prescribed in the next paragraph, upon the giving of a bond on customs Form 7567 or 7569. When such aircraft has on board no merchandise from any place outside the United States and if no bond on customs Form 7567 or 7569 is on file covering such aircraft, but immediate clearance is requested, a bond on customs Form 7301, "Bond of vessel or aircraft to produce complete manifest and/or export declarations," shall be required.

(e) *Documents.* An aircraft commander's entry declaration, as prescribed in § 6.8, shall be filed at the port of first arrival in the United States from any place outside thereof. Upon departure from such port of first arrival there shall be filed a manifest in duplicate of all foreign cargo then retained on board. For this purpose two additional copies of the outward manifest on the aircraft commander's clearance declaration, as prescribed in § 6.9, shall be used. These duplicate manifests, together with a copy of the complete inward manifest on the aircraft commander's entry declaration filed on arrival from the foreign port or place and certified by the properly authorized customs officer, with a certificate (customs Form 3221, appropriately modified) attached thereto, shall be furnished to the aircraft commander for deposit at the next port. Customs Form 1385 shall not be used.

(f) Except as specified in this section, the customs regulation requirements applicable to residue vessel cargo shall apply to residue aircraft cargo.*

§ 6.10b *General provisions; customs.* Except as otherwise in the regulations in this part provided, aircraft arriving from contiguous foreign territory and the persons, merchandise, and baggage carried thereon shall be subject to the customs laws and regulations applicable to vehicles arriving from contiguous foreign territory; and aircraft, and the passengers and merchandise and baggage carried thereon, arriving from any other place outside the United States, shall be subject to the customs laws and regula-

(a) *Release by Public Health Service.* No passengers or persons employed on board any aircraft arriving from any place outside the United States or landing in an area from another area shall be permitted to leave the aircraft at the place of first landing or the airport of entry in the United States except by authority of the quarantine officer assigned thereto. Such aircraft and any mail, baggage, cargo, or other contents on board shall be held at such place or airport until released by such officer. (For procedure in the case of emergency or forced landing, see § 6.3 (d).)

(b) *Special sanitary treatment.* Any aircraft arriving from any foreign port or place which the quarantine officer declares to be of such menace that it cannot be adequately or safely handled at the airport of first or intended landing shall be required to proceed with all passengers and persons employed on board and all mail, baggage, cargo, or other contents on board, as may be designated by such officer, to an airport indicated by such officer to have adequate facilities for such treatment as shall be prescribed by him.

(c) *Entries in journey log book of arriving aircraft.* Any aircraft departing for the United States from any place outside thereof shall have entered in the journey log book* statements as to the occurrence of plague, cholera, yellow fever, typhus fever, and smallpox in the country from which the aircraft departed and in countries in which landings are made en route. There also shall be entered in the journey log book statements as to any sanitary measures undergone before departure or at such landings. These statements shall be verified and signed by the officers in charge of the airports from which the aircraft departed and at which it landed en route. In addition, the aircraft commander shall enter a statement as to the occurrence of any sickness among the passengers and persons employed on board and as to any sanitary treatment performed en route.

(d) *Spraying of arriving aircraft.* Any aircraft bound for the United States from any place in South America or tropical Africa, or from any other region where yellow fever may appear, shall be sprayed during flight with an insecticide approved by the Surgeon General of the Public Health Service. The spraying shall be performed as soon as possible after departure from the last foreign port, in accordance with such method

as may be prescribed by the Surgeon General of the Public Health Service. The same provision applies to aircraft bound for the mainland of the United States from any United States insular port.

(e) *Statement of whereabouts of passengers and crew.* The commander of any aircraft arriving in the United States from any place in the Western Hemisphere located within the region bounded by 30° south latitude and 13° north latitude, or from any place in the African continent located within the region bounded by 8° south latitude and 16° north latitude, or from any other place where yellow fever may appear, shall furnish the quarantine officer with a written statement showing the whereabouts of all passengers and members of the crew for a period of 6 days prior to embarkation for the United States.

(f) *Importation of living disease organisms and vectors, shaving brushes, and parrots.* Importations of living disease organisms and vectors, of shaving or lather brushes, and of birds of the parrot family are subject to the special regulations prescribed therefor.

(g) *Entries in journey log book of departing aircraft.* Any aircraft clearing from any area for any place outside the United States may obtain from the quarantine officer for entry in the journey log book information regarding the occurrence of plague, cholera, yellow fever, typhus fever, and smallpox in the area.

(h) *General provisions.* Except as otherwise provided in the regulations in this part, aircraft and the passengers, merchandise, and baggage carried thereon, arriving from any place outside the United States, shall be subject to the United States quarantine laws and regulations applicable to vessels so arriving, insofar as such laws and regulations are applicable to aircraft.

§ 6.10d General provisions; entry and clearance. All navigation laws and regulations pertaining to the entry and clearance of vessels shall apply to civil aircraft to such extent and upon such conditions as are specified in the regulations in this part.

§ 6.10e Penalties. (a) Any person violating any customs regulations relating to aircraft or any provision of the customs laws or regulations made applicable to aircraft by section 6.10b shall be subject to a civil penalty of \$500, and any aircraft used in connection with any such violation shall be subject to seizure and forfeiture, as provided for in the customs laws. Such penalty and forfeiture may be remitted or mitigated by the Secretary of the Treasury.

(b) Any person violating any public health regulation relating to aircraft or

any provision of the public health laws or regulations made applicable to aircraft by § 6.10c shall be subject to a civil penalty of \$500, and any aircraft used in connection with such violation shall be subject to seizure and forfeiture, as provided for in the public health laws and section 11 (b) and (c) of the Air Commerce Act of 1926 (49 U.S.C. 181 (b), (c)). Such penalty and forfeiture may be remitted or mitigated by the Federal Security Administrator.

Such penalty and forfeiture may be remitted or mitigated by the Secretary of Commerce.

(d) For the penalty for any violation of the regulations in this part relating to immigration, see further regulations in 8 CFR Part 116 applying immigration laws and regulations to civil air navigation.

(e) *Liability to penalties with respect to any one of the sets of laws, that is, the customs laws, the public health laws, the entry and clearance laws, and the immigration laws, under which the regulations in this part are prescribed, shall be separate from such liability with respect to any other set of such laws.*

§ 6.11 Airports of entry; regulations.

(a) Airports of entry will be designated after due investigation to establish the fact that a sufficient need exists in any particular district or area to justify such designation and to determine the airport best suited for such purpose.

(b) A specific airport will be designated in each case, rather than a general area or district which may include several airports.

(c) The designation as an airport of entry may be withdrawn if it is found that the volume of business clearing through the port does not justify maintenance of inspection equipment and personnel, if proper facilities are not provided and maintained by the airport, if the rules and regulations of the Federal Government are not complied with, or if it be found that some other location would be more advantageous.

(d) Airports of entry shall be municipal airports, unless particular conditions which prevail warrant a departure from such requirement, and shall be possessed of a currently effective designation as a "Designated Landing Area" issued by the Administrator of Civil Aeronautics. Additional requirements may be imposed as the needs of the district or area to be served by the airport may demand.

(e) Airports of entry shall provide without cost to the Federal Government suitable office and other space for the exclusive use of Federal officials con-

nected with the port. A suitable surfaced loading area in each case shall be provided by the airport at a convenient location with respect to such office space. Such loading area shall be reserved for the use of aircraft entering or clearing through the airport.

(f) Airports of entry shall be open to all aircraft for entry and clearance purposes and no charge shall be made for the use of said airports for such purposes. However, in cases where airports of entry authorize any such aircraft to use such airports for the taking on or discharging of passengers or cargo, or as a base for other commercial operations or for private operations, this paragraph shall not be interpreted to mean that charges may not be made for such commercial or private use of such airports.

(g) All aircraft entering or clearing through airports of entry shall receive the required servicing by airport personnel promptly and in the order of arrival or preparation for departure without discrimination. The charges made for such servicing shall in no case exceed the schedule of charges prevailing at the airport in question. A copy of said schedule of charges shall be posted in a conspicuous place at the office space provided for the use of Federal officials connected with the port.

(h) Airports of entry shall adopt and enforce observance of such requirements for the operation of airports, including airport rules, as may be prescribed or recommended by the Civil Aeronautics Administration. to his estate or to a beneficiary (individual, partnership, or corporation), directly or in trust, are excluded from the gross income of the beneficiary, except in the case of certain transferees as provided in § 19.22 (b) (2) (A)–3 and in the case of a spouse to whom such payments are income under section 22 (k).

PAR. 2. Section 19.22 (b) (2) (A)–3, as added by Treasury Decision 5194, approved December 8, 1942, is amended to read as follows:

§ 19.22 (b) (2) (A)–3 *Transfers of life insurance, endowment, or annuity contracts.* In the case of a transfer for a valuable consideration, by assignment or otherwise, of a life insurance, endowment, or annuity contract, or any interest therein, to which section 22 (b) (1) or (2) (A) applies, only the actual value of the consideration given for such transfer and the amount of the premiums and other sums subsequently paid by the transferee shall be excluded from gross income, in lieu of the amounts provided in §§ 19.22 (b) (1)–1, 19.22 (b) (2) (A)–1, or 19.22 (b) (2) (A)–2, to be excluded with respect to payments under such life insurance, endowment, or annuity contract. In the event of such a transfer (other than to the insured, the rule stated in the preceding sentence transforms the exemption applicable under section 22 (b) (1) or (2) (A) from that determined as in the case of the insured or person to whom the policy was originally issued to an exemption determined as in the case of a transferee for a valuable consideration. The exemption applicable in the case of a transferee without valuable consideration or a donee beneficiary is determined in accordance with the rule applicable in the case of its last transferor or last owner of the policy. For the purpose of determining gross income for any taxable year beginning after December 31, 1940, in the case of a transfer of a life insurance, endowment, or annuity contract or any interest therein, if such contract or interest therein has a basis for determining gain or loss in the hands of the transferee determined, in whole or in part, by reference to such basis of such contract or interest therein in the hands of the transferor, the rule stated in the first sentence of this section shall not apply as to such transfer, and the rule applicable under section 22 (b) (1) or (2) (A) to a transferee without valuable consideration (as stated in the preceding sentence) shall apply as if the transfer from such transferor to such transferee were without valuable consideration. Thus, where a corporation acquires a life insurance policy from a predecessor corporation in a tax-free reorganization, if the proceeds received under the policy by reason of the death of the insured would be exempt from taxation in the hands of the transferor, such proceeds received by reason of the death of the insured will be exempt from taxation in the hands of the transferee for a taxable year beginning after December 31, 1940, because the basis is determined with reference to the basis in the hands of the transferor.

The following examples illustrate the application of the provisions of this section:

Example (1). The A Corporation procures, for a single premium of \$500, an insurance policy in the face amount of \$1,000 upon the life of X, one of its officers, naming the A Corporation as beneficiary. If X dies during the time the policy is held by the corporation, the proceeds of the policy paid by reason of the death of X will be tax-free to the corporation. If the A Corporation transfers the policy to the B Corporation for a valuable consideration (for example, \$600 in cash, and not pursuant to a tax-free exchange or reorganization), the proceeds paid to the B Corporation by reason of the death of X would be taxable to the extent of \$400 (\$1,000 minus \$600). Similarly, if, before the death of X, the B Corporation had transferred the policy to the C Corporation in a tax-free reorganization, the proceeds in the hands of the C Corporation for taxable years beginning after December 31, 1940, would be taxable to the extent of \$400, since \$600, the consideration paid by Corporation B for the transfer, would be exempt.

Example (2). In 1922, Y took out an annual premium 20-year endowment policy having a maturity value of \$20,000. After payment of premiums totalling \$5,500, Y assigned the policy to the M Corporation for a consideration of \$4,000. If the M Corporation held the policy and paid the premiums thereon, the \$20,000 received upon maturity of the policy (while A is still alive) would be includible in the income of the M Corporation, except to the extent of the \$4,000 consideration paid by it and the premiums which it paid after the transfer. If prior to the maturity of the policy, the M Corporation transferred its assets, including the policy, to the N Corporation in a tax-free exchange for the stock of the N Corporation and the N Corporation held the policy until maturity (1942), paying all premiums due thereon after such transfer, the \$20,000 received by the N Corporation would be includible in its gross income, except to the extent of the \$4,000 consideration paid by the M Corporation for the transfer of the policy from Y and the aggregate premiums paid by the M and N Corporations upon the policy.

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

TAXABLE YEARS OF LESS THAN 12 MONTHS

Section 30.711 (a)-4 of Regulations 109 [Part 30, Title 26, Code of Federal Regulations, 1941 Sup.], as amended by Treasury Decision 5253, approved March 27, 1943, is further amended by striking out that part of paragraph (d) which follows the third sentence thereof and inserting in lieu of such part the following sentences:

In all other cases, the taxpayer shall file its return and compute its tax as provided in subsection (b) of this section, and the application for the benefit of section 711 (a) (3) (B) shall be made in the form of a claim for credit or refund if the tax computed under section 711 (a) (3) (A) has been paid, or, if the tax computed under section 711 (a) (3) (A) has not been paid, the application shall consist of a notice to the Commissioner setting forth the facts involved together with an excess profits tax return form covering the 12-month period used. The claim or other application for the benefit of section 711 (a) (3) (B) shall set forth the computation of the adjusted excess profits net income and the tax thereon for the 12-month period and, if credit or refund is sought for taxes paid before the application for the benefit of section 711 (a) (3) (B) is filed, the claim must be filed not later than June 15, 1943, or the time prescribed for filing the return for the first taxable year ending with or after the twelfth month after the beginning of the short taxable year, whichever date is later. For example, the taxpayer changes its accounting period from the calendar year basis to the fiscal year basis ending September 30, and files a return for the period from January 1, 1942 to September 30, 1942. At the time it files its return, it pays the tax computed thereon under the provisions of section 711 (a) (3) (A). Its claim for credit or refund of the overpayment which would result from the application of section 711 (a) (3) (B) must be filed not later than the time prescribed for filing its return for the first taxable year which ends on or after the last day of December, 1942, the twelfth month after the beginning of the short taxable year. In this case, the taxpayer must file its claim for credit or refund not later than December 15, 1943, the time prescribed for filing the return for its fiscal year ending September 30, 1943. However, if it obtains an extension of time for filing the return for such fiscal year, it may file its claim during the period of such extension. If the Commissioner determines that the taxpayer has established the amount of the adjusted excess profits net income for the 12-month, any excess of the tax paid for the short taxable year over the tax computed under section 711 (a) (3) (B) will be credited or refunded to the taxpayer in the same manner as in the case of any other overpayment. An application for the benefit of section 711 (a) (3) (B), other than a claim for credit or refund, made in any case in which the tax liability computed under section 711 (a) (3) (A) has not been paid, may be filed at any time before the tax liability for the taxable year is finally determined. Such application does not constitute a claim for credit, refund, or abatement. If credit or refund is sought for taxes paid after such application is filed, a claim therefor on Form 843 should be filed after such payment and within the period prescribed in section 322.

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C., 62), as made applicable by sec. 729 (a) of the Internal Revenue Code (54 Stat. 989; 26 U.S.C., 729 (a)), and in sec. 711 (a) (3) of the Internal Revenue Code (54 Stat. 977; 26 U.S.C., 711 (a) (3)), as amended by sec. 213 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong.))

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 15 for the establishment of price classifications and minimum prices for the coals of certain mines.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15 for truck shipments; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 335.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

No relief is granted herein for the coals of the Maiwald Mine, Mine Index No. 1680, of code member Frank Maiwald for the reason set forth in the order severing that portion of Docket No. A-2013 relating to such coals from the remainder of the docket, designating such portion as Docket No. A-2013, Part II, and granting temporary relief therein.

The relief requested in the original petition for the coals of Smith & Palmer Mine, Mine Index No. 665, of Smith & Palmer Coal Co. (Roscoe E. Smith), is not granted herein for the reason that, in General Docket No. 15, such relief was granted for the coals of this mine under the name of the Harlin & Smith Mine, Mine Index No. 665, of Harlin & Smith (Louie T. Harlin).

PART 323—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 3

ORDER GRANTING PETITION

Memorandum opinion and order of the Director in the matter of the petition of District Board No. 3 for a change in price classifications and minimum prices for the coals of Sunset Mine, Mine Index No. 776, of J. A. Jackson, and the Franklin Mine, Mine Index No. 243, of H. S. Glenn, District No. 3.

This proceeding was instituted upon a petition duly filed with the Bituminous Coal Division on August 7, 1942, by District Board 3, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting revision in the price classifications for rail shipment in Size Groups 1 to 10, inclusive, and the establishment of price classifications in Size Groups 11 to 16, inclusive, for the coals produced by the Sunset Mine (Mine Index No. 776), of J. A. Jackson, located in Marion County, West Virginia, and by the Franklin Mine (Mine Index No. 243) of H. S. Glenn, located in Harrison County, West Virginia. On August 13, 1942, an order issued granting temporary relief as requested in the petition herein.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing in this matter was held on September 24, 1942, before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Petitioner and the Bituminous Coal Consumers' Counsel appeared. At the conclusion of the hearing, all parties waived the preparation and filing of a report by the Examiner, and the record was thereupon submitted to me for consideration.

Upon the basis of the entire record in this proceeding, I hereby make the following findings of fact:

The Sunset Mine (Mine Index No. 776) of J. A. Jackson, located in Marion Coun-

ty, West Virginia, and the Franklin Mine (Mine Index No. 243) of H. S. Glenn, located in Harrison County, West Virginia, are small mines operating in the Pittsburgh Seam in northern West Virginia in District 3, producing approximately 15 to 20 tons per day.

It is alleged in the petition that these mines were assigned an "F" classification² on the basis of information then available to District Board 3, which did not include analyses of the coals produced by these mines, and that after analysis had been made by the District Board's laboratory it was determined that these coals are of the low sulphur variety produced from the Pittsburgh Seam and that reclassification was necessary. Accordingly, it was proposed that the classifications of these coals be revised or established in conformity with the classifications "DE" in Size Groups 1 to 6, inclusive, "DF" in Size Groups 7 to 10, inclusive, and "B" in Size Groups 11 to 16, inclusive, of analogous and comparable coals produced by other mines operating in the Pittsburgh Seam in northern West Virginia.

In support of the foregoing allegation, Daniel T. Buckley, Chairman of District Board 3, testified that these mines were classified in accordance with the District Board's practice to propose the "F" classification for mines operating in the Pittsburgh Seam pending a determination of the type of coal produced. He explained that on June 29, 1942, the coals of these mines were sampled and analyses made which disclosed that these coals were primarily low sulphur coals.³ He asserted that these were

of a quality generally comparable with the coals produced by several other mines operating in the Pittsburgh Seam of northern West Virginia which also have a lower sulphur content.⁴

The record further discloses that great demand presently exists in District 3 for coals suitable for by-product uses in the manufacture of coke which is vital to the production of war materials.⁵ It is well recognized that coals with a sulphur content below 1.35 per cent are adequate for by-product use, retort water gas, steel manufacture or in plants requiring coal for metallurgical use. It has been customary to assign higher price classifications for mines producing coals having a sulphur content below 1.35 per cent than for high sulphur content mines for the reason that low sulphur coal is usually also low in ash content, and is generally of a superior quality to coals with a sulphur content in excess of 1.35 per cent. This line of demarcation in sulphur content of Pittsburgh Seam coals accounts for their dual classification.⁶

The witness Buckley emphasized the necessity for the proposed reclassification which resulted primarily from a desire to enable the Sunset and Franklin Mines to market their coal for by-product pur-

⁴ The witness referred to the Kingmont Mine (Mine Index No. 85) of the Virginia and Pittsburgh Coal and Coke Company, the Consolidation Nos. 63 and 86 Mines (Mine Index Nos. 40 and 41) of the Consolidation Coal Company, and the Federal No. 1 Mine (Mine Index No. 55) of the Eastern Gas and Fuel Associates, all presently classified "DE" in Size Groups 1 to 6, inclusive, "DF" in Size Groups 7 to 10, inclusive, and "B" in Size Groups 11 to 16, inclusive.

⁵ The witness pointed out the Morgantown Ordnance Works, operated by duPont for the Government, is in great need of this quality of coal, that coal with a sulphur content up to 1.50 per cent has been used, and that several small mines have specially commenced production to supply the demand for low sulphur coal.

⁶ This dual classification of Pittsburgh Seam coals marketed for commercial and by-product uses has been recognized since the establishment of the Code under NRA (Examiner's Report, General Docket No. 15, pp. 269-271), and was followed in General Docket No. 15 in which "DE" and "DF" classifications were assigned coals with a sulphur content below 1.35 percent (Findings of Fact, etc., General Docket No. 15, pp. A-73, 74).

poses.⁷ In answer to Consumers' Counsel's inquiry, whether relief would not be sufficient if a "B" classification were afforded Size Groups 11 to 16, inclusive, without revision in the classifications of Size Groups 1 to 10, inclusive, the witness explained that such a proposal would afford these two mines a lower classification than the low sulphur mines which produce comparable coals, and also an unfair competitive advantage, particularly under more normal market conditions, over the high sulphur mines, thereby prejudicing the proper competitive relationship which should exist among all these mines. Moreover, he asserted that the Pittsburgh Seam coals are generally mixed, and while the mixture may exceed 1.35 per cent in sulphur content, these coals are of better quality than the coals of high sulphur content, and warrant a 5- to 10-cent differential in price in Size Groups 1 to 10, inclusive. This differential is also influenced by the market conditions which confront the slack sizes which are used in cement burning for which sulphur content is a comparatively unimportant factor as to market price. Finally, the witness explained that while the B. t. u. on a dry basis for the coals of the Sunset and Franklin Mines appears low as compared with comparable Pittsburgh Seam coals, the product of these mines, which are comparatively small operations, is outcrop coal and is weathered, resulting in a lower B. t. u. content. It was the opinion of the witness that the proposed classifications are necessary to maintain the competitive relationship existing in District 3.

The record adequately establishes, on the basis of analytical data, market history, and consumer demand that the coals produced by the Sunset and Franklin Mines are the low sulphur variety of Pittsburgh Seam coals, suitable for by-product purposes and entitled to the dual price classifications in Size Groups 1 to 10, inclusive, and the "B" classification in Size Groups 11 to 16, inclusive, established for similarly sized coals produced by the Pittsburgh Seam mines, referred to above. Moreover, no objection was made to the proposed classifications by code members in District 3, nor, as far as the record discloses, was objection thereto expressed at the hearing. In view of the foregoing, I find that, in order to reflect the market value of the coals of the Sunset and Franklin Mines as nearly as possible and to preserve fair competitive opportunities among District 3 producers as nearly as may be existing, the classifications of these coals in Size Groups 1 to 10, inclusive, should be revised and the classifications in Size Groups 11 to 16, inclusive, should be established as requested in the petition herein. I find further that the proposed classifications comply with the standards set forth in sections 4

⁷ Although these mines are engaged principally in production for by-product use, and may not be shipping Size Groups 1 to 5, inclusive, it has been the policy of District Board 3 to propose a classification for all sizes produced by particular mines so as to have a classification available in the event of production of screenings or prepared sizes.

II (a) and (b) of the Act, and are required to effectuate the purpose thereof. Upon the entire record in this proceeding, and upon the basis of the foregoing findings of fact,

It is hereby ordered, That effective fifteen (15) days from the date hereof, § 323.6 (Alphabetical list of code members) in the Schedule of Effective Minimum Prices for District No. 3 for All Shipments Except Truck shall be amended by revising the price classifications and minimum prices of the coals produced by the Sunset Mine (Mine Index No. 776) of J. A. Jackson and the Franklin Mine (Mine Index No. 243) of H. S. Glenn, operating in the Pittsburgh Seam of District 3, in Size Groups 1 to 16, inclusive, for rail shipment, in accordance with the price classifications and minimum prices contained in Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.⁸

PART 323—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 3

ORDER GRANTING PETITION

Memorandum opinion and order of the Director in the matter of the petition of District Board No. 3 for a change in the price classifications and minimum prices established for all shipments except for the coals of McDonald No. 1 Mine, Mine Index No. 677 of Ray McDonald, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on August 20, 1942, by District Board 3, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. District Board 3 requests a change in the minimum price classifications for the coals produced by Ray McDonald at his McDonald No. 1 Mine (Mine Index No. 677), operating in the Pittsburgh Seam and located in Marion County, West Virginia, in District 3.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing in this matter was held on September 24, 1942,¹ before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Petitioner and Bituminous Coal Consumers' Counsel appeared at the hearing. All parties waived the preparation and filing of a report by the Examiner, and the record was thereupon submitted to me.

The McDonald No. 1 Mine (Mine Index No. 677) is a comparatively small mine,²

¹ The hearing, originally set for October 7, 1942, was advanced to September 24.

² Witness Buckley testified that "under present conditions" this mine was producing 25 tons of coal per day.

operating in the Pittsburgh Seam in Freight Origin Group No. 50, in District No. 3. On June 16, 1942, 7 F.R. 4755, in accordance with a request of District Board 3, in a petition filed with the Division on May 22, 1942, the Director entered an order assigning to this mine the temporary and conditionally final classification of "F" for Size Groups 1 to 10, inclusive.³ District Board 3 now alleges in its petition herein that the "F" classification established for the McDonald No. 1 Mine was erroneous and that it does not conform with the classifications for analogous and comparable coals. It requests instead the classifications of "DE" for Size Groups 1 to 6 inclusive, "DF" for Size Groups 7 to 10 inclusive, and "B" for Size Groups 11 to 16 inclusive, which, according to its petition, would effectuate the purposes of the Act and would reflect as nearly as possible the market value of the coals and preserve, as nearly as may be, existing fair competitive opportunities.

In support of its position, petitioner introduced into the record oral and documentary evidence to the effect that the coals produced at the McDonald No. 1 Mine (Mine Index No. 677) were of a quality similar to that of coals produced in District 3 which are classified as it requests the McDonald coals be classified. Daniel T. Buckley, Chairman of District Board 3, testified that at the time the Board first proposed price classifications for the McDonald No. 1 Mine, it had little information about its coals. From its then available information, it believed that the "F" classification was proper. Since that time, however, it had obtained an analysis of the coals,⁴ which showed that the coals are suitable for commercial or by-product uses. Witness Buckley stated that other mines in District 3⁵ operating in the Pittsburgh seam and producing coal with the same sulphur content had been accorded dual classi-

⁴ "In the Matter of the Petition of District Board No. 3, Docket No. A-1467.

⁵ This analysis was introduced into the record as petitioner's Exhibit 1 and is as follows:

	Molst.	V. M.	F. C.	Ash	Sulphur	A. S. T.	B. t. u.
As received.....	6.0	35.3	52.6	6.1	1.00	2,420	13,030
Dray basis.....	37.5	56.0	6.5	1.00	2,420	13,860	

⁵ This witness stated that the Kingmont Mine, the Jamison No. 8 and 9 Mines, the Federal No. 1 Mine, and the Rachel Mine of the Jones Collieries, located within the vicinity of McDonald No. 1 Mine, produce coal of a similar quality and have the dual classifications of "DE" and "DF". An examination of the price schedule for District 3 discloses that the Federal No. 1 Mine (Mine Index No. 55) of Eastern Gas and Fuel Associates, located in Freight Origin Group No. 55, Jamison No. 8 (Mine Index No. 79) and Jamison No. 9 (Mine Index No. 80) of the Jamison Coal and Coke Company, and the Rachel Mine (Mine Index No. 122) of the Jones Collieries, Inc., located in Freight Origin Group No. 50, and the Kingmont Mine (Mine Index No. 85) of the Virginia & Pittsburgh Coal & Coke Company have the dual classification of "DE" for Size Groups 1 to 6 inclusive and "DF" for Size Groups 7 to 10 inclusive and "B" for Size Groups 11 to 16 inclusive.

fications of "DE" for Size Groups 1 to 6 inclusive and "DF" for Size Groups 7 to 10 inclusive, and "B" classifications for Size Groups 11 to 16 inclusive.

According to Buckley, the coal produced in the McDonald No. 1 is of a quality suitable for ordnance plant uses, and is now very much in demand. Apparently code member McDonald had a contract with the duPont Ordnance Plant of Morgantown, West Virginia, for the sale of his entire production of coal from his No. 1 mine for commercial and by-product uses; the duPont plant is at present manufacturing war material for the United States Government.

The record clearly shows, and I so find, that the existing price classifications for the coals of the McDonald No. 1 Mine, as established by the Order of the Director of June 16, 1942, are improper. I further find that the coals produced in this mine are of a quality suitable for commercial or by-product uses and that they should have the classifications of analogous coals as requested by petitioner. I am of the opinion that the establishment of the classifications requested by petitioner are required in order properly to reflect the relative market values of the McDonald No. 1 mines and to preserve, as nearly as may be, existing fair competitive opportunities. I note that no opposition to petitioner's request was expressed by any of the parties. I conclude, therefore, that the granting of petitioner's request is necessary to effectuate the purposes of section 4 II (a) and 4 II (b) of the Act and to comply with the standards thereof.

Now, therefore, it is ordered, That effective fifteen (15) days from the date hereof, the price classifications and effective minimum prices for the coals of Ray McDonald produced at his McDonald No. 1 Mine (Mine Index No. 677) in Size Groups 1 to 16 inclusive, in § 323.6

⁶ This witness stated that whereas some of the mines operating in the Pittsburgh Seam had dual classifications, a number of mines operating in the same seam had a single "F" classification. Whether or not the dual classification was accorded depended upon whether or not the sulphur content of any of the coals produced was under 1.35. He also stated that one could not tell the sulphur content from the appearance of the coal and that it sometimes happened, although very rarely, that a change in the content of the sulphur in the same mine might occur at different stages in the same seam. The low sulphur area, Buckley testified, is "pretty spotty." The Examiners in their Report issued in General Docket No. 15, pointed out that ever since the promulgation of the Bituminous Coal Code under the National Industrial Recovery Act, Pittsburgh Seam coals in District 3 were accorded a dual classification when marketed for commercial or by-product purposes. (Examiners Report in General Docket No. 15, pp. 269-271). They recommended that a line of demarcation between the dual classifications be drawn in accordance with the sulphur content of the coals. Coals of "DE" or "DF" mines which have a sulphur content of 1.35 per centum or under, irrespective of the use for which they are sold were to be classified as "D". Those with a sulphur content in excess of 1.35 per centum were classified as "E" or "F". The Director in his findings in General Docket No. 15 approved and adopted the recommendation of the Examiners in this respect. (Director's Finding in General Docket No. 15 pp. A 73-A 74).

(Alphabetical list of code members) in the Schedule of Effective Minimum Prices for District No. 3 for All Shipments Except Truck shall be and the same hereby are amended as set forth in Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.¹

PART 328—MINIMUM PRICE SCHEDULE,
DISTRICT NO. 8

ORDER GRANTING PETITION

Memorandum opinion and order of the director in the matter of the petition of District Board No. 8 for a change in the price classifications and minimum prices for rail and truck shipments for the coals of certain mines in Bell, Knox and Whitley Counties, Kentucky, Claiborne County, Tennessee, and Wyoming County, West Virginia, District No. 8.

This proceeding was instituted upon a petition filed with the Bituminous Coal Division on July 30, 1942, by District Board 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition seeks revision of seam designation and price classification for various truck mines in Bell, Knox, and Whitley Counties, Kentucky, Claiborne County, Tennessee, and Wyoming County, West Virginia. On October 6, 1942, Consumers' Counsel filed a notice of appearance.

Pursuant to an appropriate order, dated August 13, 1942, a hearing in this matter was held on October 14 and 15, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Petitioner and Consumers' Counsel appeared. At the conclusion of the hearing all parties waived the preparation and filing of a report by the Examiner, and the record was thereupon submitted to me for consideration. On October 30, 1942, Consumers' Counsel filed a brief which I have considered.

Petitioner requests correction of seam designations from the Jellico or Dean Seams to the Blue Gem and Straight Creek Seams in most cases, and corresponding revision of effective minimum f. o. b. mine prices for truck shipment for coals produced at 70 truck mines in Subdistricts 5 and 6.¹ Petitioner also requests increases in the minimum f.o.b. mine prices for truck shipment, but no change in seam designation for coals produced at 5 other mines in Subdistrict 6.² Request is also made for a Blue Gem Seam designation with no change in effective minimum prices for 2 mines in Whitley County.³ Finally, it is requested that the county location

¹ Mine Index No. 2825 is located in Wyoming County, Subdistrict 5, 44 mines are located in Knox County and 26 in Whitley County, Subdistrict 6.

² Mine Index Nos. 3530 and 513 (Blue Gem Seam) in Knox County; Mine Index No. 401 (Sterling Seam) and Mine Index No. 516 (Jellico Seam) in Claiborne County; and Mine Index No. 378 (Turner Seam) in Bell County.

³ Mine Index No. 3290 (no present seam designation), and Mine Index No. 1831 (Jellico). Mine Index No. 1864 also in Whitley County was incorrectly proposed to be changed from the River Gem Seam to the Jellico Seam. At the hearing the petition was amended to delete Mine Index No. 1864. The petition was also amended to correct the proposed prices for Mine Index No. 1698 from Blue Gem Seam prices to Straight Creek Seam prices.

of Mine Index No. 4073 be changed from Bell County to Knox County and assigned a Blue Gem Seam designation and the corresponding increase in prices.

John F. Daniels, Director of Compliance and Reclassification for District Board 8 and the only witness at the hearing, testified that there are approximately 2500 comparatively small truck mines in this district which operate on a day to day basis. According to the witness, upon the original proposal of prices for the great majority of these mines, the district board did not have accurate information as to the correct location or seam designation of these mines, inasmuch as the original forms of code acceptance did not contain this information or new acceptants of the code or code members did not submit correct information. The purpose of the district board in instituting the present proceeding was to correct errors of this nature and in the corresponding effective minimum prices assigned to these mines in order to correlate the prices of mines producing analogous and comparable coals from the same or similar seams. Most of the mines involved herein are presently designated in the Jellico Seam⁴ and take the price scale established for this seam. After investigation, which disclosed that these mines were producing "a thin coal," of high quality and less friable than the coal of the Jellico Seam, the district board was convinced that these mines were truly in the Blue Gem or in the Straight Creek Seams⁵ and should be assigned the corresponding effective minimum prices.

Consumers' Counsel makes no objection to correction of seam designations, but opposes increases in minimum prices which would result in higher minima for truck shipment than for rail shipment in the same size groups. It is contended that the requested price revisions would violate the policy established in General Docket No. 15 of equality in minimum prices for District 8 coals, size by size, for rail and truck shipment to Market Area 101. As examples of a departure from this principle, Mine Index Nos. 378, 401 and 516 are cited, for which truck prices would be higher than rail prices in the event the requested relief were granted.

The witness Daniels, acknowledging the general principle that in District 8 truck prices followed rail prices, maintained that these three mines are really rail mines, located in close proximity to each other and near other mines shipping exclusively by truck, which have been assigned the higher truck prices. While these three mines have rail prices they ship by truck and compete with truck mines. Mine Index No. 378 ships a good portion of its output by truck; Mine Index No. 401 moves the bulk of its

production by truck; and Mine Index No. 516 ships all lump coal by truck and all fine coal by rail. These shipments at the lower truck prices come into direct competition with adjacent and competing truck mines which have higher prices. In the opinion of the witness, such a situation justifies an exception to the principle above referred to. For the same reasons price revision was requested for Mine Index No. 513, also mentioned by Consumers' Counsel, since it was originally assigned rail prices and produces Blue Gem Seam coal. He urged that the prices of the foregoing mines should be changed to conform to the level of truck prices applicable to the Blue Gem Seam, inasmuch as it was not intended to adjust rail prices for these mines in this proceeding. Furthermore most of the mines involved herein are not presently operating and it is intended to prepare for eventual operation by correction of seam designation and assignment of appropriate prices on a subdistrict basis.

The record discloses that the mines herein⁶ should be redesignated in the Blue Gem, Straight Creek or the other seams, as requested in the petition and that these mines should be assigned the price scale established for these respective seams. I am of the opinion that the requested revision will properly relate the coals of these mines to comparable and competitive coals and is necessary to reflect as nearly as possible the relative market value of the various sizes of these coals and to preserve as nearly as may be existing fair competitive opportunities among producers in Subdistricts 5 and 6 of District 8. This conclusion is confirmed by the uncontroverted fact that these producers have not made objection to the relief requested herein.

I find, therefore, that the requested revision complies with the standards set forth in sections 4 II (a) and (b) of the Act and is required to effectuate the purposes thereof.

Now, therefore, it is ordered, That § 328.34 (General prices for high volatile coals in cents per net ton for shipment into all market areas) in the Schedule of Effective Minimum Prices for District No. 8 for Truck Shipments be, and the same hereby is, amended to include the seam designations and minimum prices for the mines set forth in Supplement T, which supplement is hereinafter set forth and hereby made a part hereof.⁷

PART 328—MINIMUM PRICE SCHEDULE,
DISTRICT No. 8

ORDER GRANTING PETITION

Memorandum opinion and order of the Director in the matter of the petition of District Board No. 8 for a change of price classifications and minimum prices for all shipments except truck for the coals of Martin 8-H Mine, Mine Index No. 321 of Utilities Elkhorn Coal Company, District No. 8.

This proceeding was instituted upon a petition filed August 14, 1942 with the Bituminous Coal Division by District Board 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting a revision in the price classification for rail shipment of the coals in Size Groups 18-21, inclusive, produced by the Martin 8-H Mine (Mine Index No. 321) of the Utilities Elkhorn Coal Company, from "L" to "H".

Pursuant to an appropriate order, and after due notice to interested persons, a hearing in this matter was held on August 13, 1942, before W. A. Cuff, a duly designated Examiner of the Division at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Petitioner and Bituminous Coal Consumers' Counsel appeared. All parties waived the preparation and filing of a report by the Examiner, and the matter was thereupon submitted to me.

The Martin 8-H Mine, located in the Big Sandy-Elkhorn Subdistrict of District 8, has been operated by the Utilities Elkhorn Coal Company since 1929. The high volatile coals produced at this mine in Size Groups 18-21, inclusive, have been classified "L" since the establishment of minimum prices in October, 1940. These coals are sold in the Middle West for steam raising purposes. During the proceeding in General Docket No. 15, District Board 8 originally proposed the "L" classification finally accorded the Martin 8-H Mine coals in these size groups, on the basis of proximate analyses made in 1938. These analyses indicated that the coals had a high ash and sulphur content and a low ash softening temperature.¹

In 1939 a significant alteration was effected in the Martin 8-H Mine. This operation, which had previously been developed in a northeasterly direction, was shifted toward the southwest section of the area in which the mine was located. Each of the three witnesses for petitioner testified at the hearing that the nut and slack coals produced from the southwest section of the mine have materially lower ash and sulphur content and higher ash softening temperature than the coals produced from the northeast section. During the transition period in 1939 when the coals in Size Groups 18-21, inclusive, which were mined from both the northeast and southwest sections of the mine, were loaded together over the

¹ For example, these analyses for the 24" x 0 size indicated an ash content of 9.2 percent, a sulphur content of 2.6 percent and an ash softening temperature of 2180 degrees.

⁴ Several mines are in the Dean Seam and one or two in the Moss or Eagle Seams, as appears by Appendix A attached to the petition herein containing the names of code members and mines, mine index numbers, present and proposed seam designations and minimum prices.

⁵ The Straight Creek Seam, which extends into the eastern part of Knox County, is comparable with the Straight Creek Seam in Bell County, and its coal takes a slightly higher price.

mine's tippie, the coals were again sampled at the code member's request. Two analyses, one taken by the Bureau of Mines on November 27, 1939, and one taken by the Commercial Testing & Engineering Company on December 5, 1939, were deemed inconclusive. Accordingly, the district board did not then propose a reclassification of the coals in the size groups here involved.

Since the end of 1939 the coal produced at the Martin 8-H Mine has been mined exclusively from the southwest section.² One heading has been advanced to a point at the minimum distance required by law from the workings of the Stephens Mine, (Mine Index No. 447) of the Stephens Elkhorn Fuel Corporation. Petitioner contends that the coals in Size Groups 18 through 21 now being mined at the Martin 8-H Mine are comparable in quality and consumer acceptance to similarly sized coals produced by the Stephens Mine, and by the two other mines most nearly adjacent to the Martin 8-H Mine, the Liberty Mine (Mine Index No. 585) of the Liberty Elkhorn Mining Company and the No. 1 Mine (Mine Index No. 640) of the Princess-Elkhorn Coal Company. The coal produced at all four mines is from the Elkhorn No. 2 Seam. In May 1942, Utilities Elkhorn protested the "L" classification established for its nut and slack coals. On April 29, May 13 and May 27, 1942, proximate analyses were again taken of the Martin 8-H Mine 2 3/4" x 0 size. The pertinent data shown by these analyses,³ together with additional information shown by "representative analyses" of nut and slack coals produced by the Stephens, Liberty and No. 1 Mines indicate that approximately a 300 degree difference exists between the ash fusion point of the Martin 8-H coals and the ash fusion point of the coals produced by these three neighboring mines. A proximate analysis taken May 26, 1942 of 2 3/4" x 0 coals produced by the No. 5 Mine (Mine Index No. 99) of the Central Elkhorn Coal Company,⁴ disclosed that a difference of only about 230 degrees existed between the ash fusion point of the Martin 8-H Mine nut and slack coals and that of the Central Elkhorn No. 5 Mine's nut and slack coals. However, F. L. Poindexter, a member of the Classification and Price Committee

²O. S. Batten, chief engineer of Utilities Elkhorn, testified that about 1400 tons of coal in Size Groups 18-21, inclusive, are being mined daily from the southwest section. He estimated that about 1,200,000 tons of coal in the southwest section remain accessible for extraction. Approximately 300,000 tons of coal remain in the northeast section, but most of this section is worked out except the pillars, and, in his opinion, it would not be a "mineable proposition" to resume operations in the abandoned section to the northeast.

³These analyses, as disclosed by the record, may be tabulated as follows:

	Martin	8-H	Mine	Stephens	Liberty	No. 1
				Mine	Mine	Mine
Ash content.....	6.1	6.1	5.8	6.1	8.3	3.9
Sulphur content....	1.1	1.0	1.0	.9	.9	.7
Ash softening temperature.....	2,330	2,430	2,440	2,740	2,730	2,700

⁴This size is presently classified "L".

of District Board 8, testified that although the most desirable coal for steam raising use contains lower ash and sulphur and higher ash softening temperature, coals with an ash softening temperature ranging from 2400 to 2700 degrees are included in the medium ash softening temperature group, that generally, plants which can use coal with a 2700 degree ash softening temperature can also use coal with a 2400 ash softening temperature, but that generally, plants which can use coal with a 2400 ash fusion point cannot use coals with a 2200 ash fusion point, and that variations in ash softening temperatures within the medium ash fusion point group are not as material as quantitatively smaller variations in ash fusion points of coals in different ash fusion point groups. In addition, the witness Batten asserted that the ash softening temperature of the coals now being mined at the southwest section of the Martin 8-H Mine is in fact higher than that indicated by the three proximate analyses taken in 1942 because one part of the southwest section producing coals of lower ash fusion point has now been mined out. Batten estimated the present ash softening temperature of the Martin 8-H nut and slack coals to range from 2500 to 2700 degrees. Coal to be produced from the northwest section of the Martin 8-H Mine, is shown by proximate analyses to have an ash fusion point of 2900 degrees.⁵

The record further discloses that the market history of the Martin 8-H Mine nut and slack coals corroborates petitioner's contention that the market value of its coals has improved since 1939. J. H. Rhodes, vice-president of United Collieries, Inc., sales agent of Utilities Elkhorn, testified that until the close of 1939 the Size Group 18 to 21 coals produced by the Martin 8-H Mine had difficulty finding markets in competition with other District 8 coals. Since the beginning of 1940, however, these coals have been readily marketed. Production at the mine increased when the southwest section began to be mined.⁶ According to this witness, the Martin 8-H coals in these sizes were being sold above applicable minimum prices, even during the period from October through December 1940, when District 8 nut and slack coals were selling generally at the minimum price level and even prior to April 1941 when the marked upward surge in the demand for coal was first experienced in District 8. Rhodes testified also that, although as a sales agent, he would prefer the retention of the "L" price classification since the lower classification would, upon return to a buyers' market, assure the coals of the Martin 8-H Mine a competitive advantage over mines producing comparable coals in District 8, sales resistance of individual consumers would,

⁵Utilities Elkhorn is now negotiating for a leasehold to an adjoining tract the coals of which are also shown by analyses "to be a very high grade coal, low sulphur and high fusion," according to Batten.

⁶Production of the Martin 8-H Mine amounted to 141,503 tons in 1939; 127,834 tons in 1939; 166,068 tons in 1940; 231,195 tons in 1941. From July 1, 1941 to June 30, 1942, approximately 5,600 tons of Size Group 18, 7,800 tons of Size Group 19, and 47,600 tons of Size Group 20 were shipped from the mine.

nevertheless, be heightened as a result of the maintenance of a lower price classification.

The record establishes that since the end of 1939 the coals in Size Groups 18 to 21, inclusive, produced by the Martin 8-H Mine have increased substantially in value. The ash and sulphur content of these coals have decreased; the ash fusion point has increased. These coals are substantially comparable and competitive with the coals in Size Groups 18 to 21, inclusive, produced by the Stephens Mine, the Liberty Mine and the No. 1 Mine. Finally it appears that no objection has been made by District 8 producers to the granting of the relief requested by petitioner.⁷ I find, therefore, that the price classification of the coals of the Martin 8-H Mine in Size Groups 18 to 21, inclusive, should be revised from "L" to "H", in order that their market value may be more adequately reflected with relation to the market value of comparable and competitive coals in District 8, and that fair competitive opportunities of District 8 mines producing analogous and comparable coals may be preserved. In order also to maintain the correlation between rail and truck prices in District 8, it will be necessary to make an equivalent revision in the effective minimum prices in the corresponding size groups for truck shipment, i. e., Size Groups 7 and 8. These revisions in price classifications and minimum prices, I further find, comply with the standards in sections 4 II (a) and 4 II (b) of the Act, and are necessary to effectuate the purposes thereof.

Upon the basis of the entire record in this proceeding and upon the foregoing findings of fact,

It is hereby ordered, That effective fifteen (15) days from the date hereof, § 328.11 (*Alphabetical list of code members*) in the Schedules of Effective Minimum Prices for District 8 for All Shipments Except Truck and for Truck Shipments be amended by revising the price classifications of Size Groups 18-21, inclusive, for rail shipment, and the minimum prices of Size Groups 7 and 8 for truck shipment, for the coals produced by the Martin 8-H Mine (Mine Index No. 321) of the Utilities Elkhorn Coal Company, in accordance with Supplements R and T, which supplements are herein-after set forth and hereby made a part hereof.⁸

PART 962—IRON AND STEEL

[General Preference Order M-21-b-2 as Amended June 15, 1943]

MERCHANT TRADE PRODUCTS WAREHOUSES AND DEALERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of steel for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 962.11 General Preference Order M-21-b-2—(a) *Purpose and scope.* This order tells how, under the Controlled Materials Plan, a distributor obtains deliveries of merchant trade products from producers and from other persons for stock or for delivery direct to a distributor's customers. The method by which a distributor obtains deliveries of general steel products is set forth in General Preference Order M-21-b-1. Deliveries of steel from stock by distributors to persons not purchasing for resale are governed by CMP Regulation No. 4. Deliveries by distributors to other distributors are governed by this order and not by CMP Regulation No. 4.

(b) *Definitions.* For the purposes of this order:

(1) "Steel" means carbon steel, alloy steel and wrought iron, in each case only in the forms and shapes indicated in the CMP Materials List.

(2) "Alloy steel" means any steel containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%. Silicon, maximum of range in excess of 0.60%. Copper, maximum of range in excess of 0.60%. Aluminum, chromium,

cobalt, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

(3) "Carbon steel" means any steel (including wrought iron) other than alloy steel.

(4) "Merchant trade products" means any of the steel products listed in Schedule I hereto.

(5) "Product group" means any of the twelve numbered groups of merchant trade products listed in Schedule I hereto.

(6) "Type" means (i) carbon steel, or (ii) stainless steel, or (iii) other alloy steel.

(7) "Base period" means

(i) With respect to merchant trade products in product groups 17-22, inclusive, of Schedule I, the calendar year 1940.

(ii) With respect to merchant trade products in product groups 23-28, inclusive, of Schedule I, the 12 months ending June 30, 1941.

(8) "Base tonnage" of a warehouse for any product group means the tonnage of such product group delivered by producers to the stock of such warehouse during the base period, or as specifically otherwise established by the War Production Board.

(9) "Distributor" means any person (including a warehouse, jobber, dealer, or retailer, who is engaged in the business of receiving steel for sale or resale and who does not process the material so sold otherwise than by performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, or pipe threading; but a person who, in connection with any sale, forms, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale.

(10) "Warehouse" means a distributor who receives physical delivery of merchant trade products from a producer for sale or resale in the form received, and who was engaged in the business of distributing steel from stock on August 9, 1941. The term does not include any pipe, sheet, or wire fabricator unless his sales from stock during 1940 of merchant trade products in the form received represented at least 25 percent of the total tonnage of merchant trade products received by him in that year. If a warehouse maintains a stock at more than one location, each location shall be deemed a separate warehouse.

(11) "Dealer" means a distributor (other than a warehouse) who receives physical delivery of merchant trade products from persons other than producers for sale or resale in the form received.

(12) "Delivery" includes deliveries received on consignment.

(c) *General restrictions on placing orders by warehouses—*(1) *Product groups and types to be ordered.* No warehouse shall order or accept delivery to warehouse stock of merchant trade products in any product group and type except those for which it has a base tonnage with a producer pursuant to this order.

(2) *Quantity restrictions on prime quality material.* No warehouse which, during 1940, purchased more than 25 percent of its tonnage of any product group in a grade now invoiced as less than prime quality may order for delivery to warehouse stock during any calendar quarter, prime quality steel products (requiring scheduled rollings) of the same product group from all producers in an amount greater than one-fourth of the total tonnage of such prime quality material purchased from all producers during 1940.

(d) *Warehouse orders for certain wire and sheet products.* The following rules apply to deliveries to warehouse stock of products in products groups 22, 26, 27 and 28:

(1) A warehouse shall not accept delivery of any product in these product groups from any producer (and a producer shall not deliver such products to a warehouse) unless the warehouse has a base tonnage for that product group with that producer. By the use of form PD-83-e, a warehouse may shift its total base tonnage for any of these product groups from one producer to another.

(2) Deliveries from a producer of any of these product groups to a warehouse stock shall be made only up to the following percentages of the base tonnage of the warehouse with the producer:

Product group	(Beginning January 1, 1943)	
	During any calendar half year	During any calendar year
22. Galvanized or painted formed roofing and siding.....	Percent 50	Percent 60
26. Wire bale ties.....	100	160
27. Wire (barbed and twisted), wire fence (woven or welded), and netting.....	100	120
28. Fence posts and gates.....	100	120

Warehouse orders for these products shall not be considered authorized controlled material orders, unless accompanied by Form CMP-11 in the manner provided for in paragraph (d) (3). Nevertheless (and in spite of the provisions of any other WPB regulation or order), a producer may, in any month, within the limits of his production directive for the particular product group, make delivery of these products to warehouses on orders which are not authorized controlled material orders, after he has filled all authorized controlled material orders for the same product group calling for delivery in the same month. Deliveries on warehouse purchase orders of this sort shall be distributed by the producer among the warehouses which have a base tonnage with it as nearly as possible in proportion to the base tonnage of each warehouse with that producer.

(3) If a warehouse wishes to obtain earlier delivery on an order placed in accordance with paragraph (d) (2) it may give any such order the status of an authorized controlled material order by filing with the producer a copy of Form CMP-11 to support such purchase order. On this form the warehouse may report

¹ Form filed as part of the original document.

only the tonnage of any merchant trade products which it delivered during the preceding 90 days on authorized controlled material orders or on orders rated AA-5 or higher.

(e) *Warehouse orders for all other merchant trade products.* The following rules apply to deliveries to warehouse stock of products in product groups, 17, 18, 19, 20, 21, 23, 24 and 25:

(1) For most of these products, each producer operates under a warehouse load directive which instructs it to reserve each month a certain percentage of its production of each product group to fill warehouse orders. The orders of any warehouse on a producer up to this percentage of its base tonnage with that producer shall be considered authorized controlled material orders. A warehouse can place orders of this sort only with producers with which it has a base tonnage. No form is required for placing such orders. By the use of Form PD-83-e a warehouse can shift its total base tonnage for any of these product groups from one producer to another.

(2) In addition, a warehouse may replace in stock merchant trade products of the same type (carbon, stainless, or other alloy) which it has sold during the preceding 90 days on authorized controlled material orders or orders rated AA-5 or higher. Form CMP-11 will be used for this purpose. Orders of this sort can be placed with any producer and will be considered authorized controlled material orders.

(f) *Time for placing orders.* Orders for all merchant trade products requiring scheduled rollings shall specify delivery, in the case of carbon steel, not earlier than the month following the date of order entry, and, in the case of alloy steel, not earlier than the month 105 days following the date of order entry. Orders for such material not requiring scheduled rollings (such as rejects, wasters, waste wasters, and shorts) may specify delivery at any time.

(g) *Alternative use of Form PD-83-g.* Up to July 1, 1943, Form PD-83-g may be used instead of Form CMP-11 to extend authorized controlled material orders or orders rated AA-5 or higher. Each order placed by a warehouse with a producer for delivery to warehouse stock and supported by Form CMP-11 or Form PD-83-g shall be deemed an authorized controlled material order.

(h) *Restrictions on inventories.* On and after July 1, 1943, no warehouse whose base tonnage of pipe (product groups 17 to 19), tin and terne plate (product group 20), galvanized or painted sheets (product groups 21 to 22), or wire products (product groups 23 to 28) exceeds 240 net tons shall accept a delivery of steel in any product group and type which will result in an inventory at the end of a calendar quarter greater than one-half its base tonnage for such product group and type.

(i) *Purchases from idle or excess inventories.* A warehouse or dealer may order for delivery to its stock, without limitation as to quantity, from idle or

excess inventories pursuant to Priorities Regulation No. 13, merchant trade products in any product group and type for which such warehouse has a base tonnage. Each purchase order for such material shall be endorsed in substantially the following form, and when so endorsed shall be deemed to be an authorized controlled material order:

The undersigned certifies to the seller and to the War Production Board that this order is placed pursuant to paragraph (1) of Order M-21-b-2, and is an authorized controlled material order.

Name of Warehouse or Dealer
By-----
Authorized Official

Address

Date

(j) *Warehouse purchases for direct shipment to customer.* A warehouse receiving an authorized controlled material order for a customer and wishing to arrange for shipment direct to such customer by the producer or other supplier, shall specify delivery to a point other than the warehouse, and shall copy on its own purchase order the endorsement made to it by its customer (including the customer's name) in accordance with CMP Regulation No. 1 or other applicable regulation or order. A purchase order specifying direct shipment and so endorsed shall be deemed an authorized controlled material order.

(k) *Earmarked warehouse stocks.* To the extent agreed upon by the Steel Division and any claimant agency, an earmarked stock of one or more merchant trade products may be established in any warehouse. Deliveries to such stock and withdrawals therefrom shall be made only in accordance with the specific directions which shall be issued at the time such stock is established.

(l) *Deliveries to dealers.* Dealers obtain deliveries of merchant trade products to stock in the following ways:

(1) *Steel delivered on authorized controlled material orders (or on orders rated AA-5 or higher).* Merchant trade products which a dealer has delivered on authorized controlled material orders (or on orders rated AA-5 or higher) within the previous 90 days may be replaced with an equivalent tonnage of the same or any other merchant trade product by sending to a supplier with the purchase order a list of such deliveries showing for each the weight delivered, the allotment number or symbol (or preference rating), and the date of delivery. Such a purchase order is an authorized controlled material order. The warehouse, for the purposes of paragraphs (d) (3) and (e) (2), is entitled to use deliveries on these orders to support replacement orders filed with Form CMP-11.

(2) *Other deliveries.* In addition, a dealer may place orders for merchant trade products with warehouses without limit as to quantity. Such orders shall not be considered authorized controlled material orders. Nevertheless (and in spite of the provisions of any other War

Production Board regulation or order) a warehouse may make delivery on such orders.

(m) *Reports.* (1) Each warehouse whose base tonnage of pipe (product groups 17 to 19), tin and terne plate (product group 20), galvanized or painted sheets (product groups 21 to 22), or wire products (product group, 23 to 28) exceeds 240 net tons shall file with the Bureau of the Census, Washington, D. C., a quarterly report in duplicate on Form PD-83-i.

(2) Each producer of a product for which a warehouse load has been established shall file quarterly reports with the War Production Board on Form PD-83-f.

PART 1029—FARM MACHINERY AND EQUIPMENT AND ATTACHMENTS AND REPAIR PARTS THEREFOR

[Limitation Order L-257]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical materials entering into the manufacture of farm machinery and equipment and repair parts therefor, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1029.15 *Limitation Order L-257—*

(a) *Applicability of regulations.* This order and all transactions affected hereby, except as herein otherwise specified, are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Definitions.* For the purpose of this order (and any orders supplementary hereto, unless otherwise indicated):

(1) "Producer" means any person, other than a supplier, to the extent that he is actively engaged in the current manufacture (in the United States) of farm machinery and equipment or of repair parts for farm machinery and equipment, but does not include any person who did not manufacture any farm machinery and equipment or repair parts in 1940 or 1941.

(2) "Small producer" means any producer whose total net sales (including exports and sales by affiliates) of all products did not exceed \$100,000 during the calendar year 1941; and includes any other producer who has been classified by the Smaller War Plants Corporation as a "smaller, distressed producer" and is specifically designated as such for the purpose of this order by the War Production Board.

(3) "Manufacture" means to put into process, machine, fabricate, or otherwise alter materials by physical or chemical means.

(4) "Supplier" means any person engaged in the manufacture (for sale to a producer in the United States) of ma-

terials, parts, assemblies or subassemblies to be physically incorporated into farm machinery and equipment or repair parts manufactured by such producer, or to be resold by such producer as repair parts.

(5) "Machinery and equipment" means agricultural machinery, mechanical equipment and implements (including all attachments used in conjunction therewith) of the types ordinarily manufactured for farm use, and listed on Schedule A attached hereto.

(6) "Farm use" means use for the production or care of crops, livestock, livestock products, or other produce on a farm (or elsewhere in the case of poultry), or use for any civilian purpose with respect to horseshoes, muleshoes, oxen-shoes, nails for such shoes, and harness hardware.

(7) "Farm machinery and equipment" means machinery and equipment which is manufactured specifically for farm use, including irrigation and drainage equipment (excluding tile), horseshoes, muleshoes, oxen-shoes, nails for such shoes, harness hardware, and water well casing (fabricated by other than pipe mills); but excluding repair parts, and also excluding all of the following: track-laying type tractors, fencing, poultry netting and wire, wire fencing, bale ties or straps, oil well casing and water pipe, nails (other than horseshoe, muleshoe, and oxen-shoe nails) and sundry hardware, grain bins and corn cribs, hand tools, and water storage tanks.

(8) "Non-farm machinery and equipment" means machinery and equipment, as defined in paragraph (b) (5) above, which is manufactured pursuant to rated orders for any purpose other than farm use.

(9) "Attachment" for machinery and equipment means a supplementary appliance which may be added to an otherwise complete machine to extend the utility of such machine.

(10) "Repair parts" means all types of replacement parts considered separately or as assemblies which are manufactured for use and used in the repair and maintenance of "farm machinery and equipment" and shall include plow shares and shapes, and water pump cylinders. No item listed on Schedule A shall be deemed a repair part.

(11) "Base production" means the weight of a producer's total manufacture in the United States of any item of farm machinery and equipment for sale in the United States during either the calendar year 1940 or 1941, in whichever year such weight was the greater.

(12) "United States" means the forty-eight states, the District of Columbia, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and all other territories and possessions of the United States.

(c) *Restrictions on production for domestic farm use* (1) Except as provided in paragraph (d), during the period July 1, 1943 to June 30, 1944, in-

¹ Production quotas for export are set forth in Order L-257-a.

clusive, no producer shall manufacture, for sale in the United States:

(i) A total quantity by weight of any item of farm machinery and equipment listed in Schedule A in excess of that quantity obtained by multiplying the applicable quota percentage for such item by his base production of such item;

(ii) Any item of farm machinery and equipment or repair parts except to the extent listed on production schedules which have been approved pursuant to the provisions of paragraph (e) hereof; or

(iii) Any item of farm machinery and equipment requiring rubber tires, except upon specific authorization in writing of the War Production Board.

(2) During the period July 1, 1943 to June 30, 1944, inclusive:

(i) No person who is not a producer shall manufacture any farm machinery and equipment or repair parts of an aggregate value exceeding \$2,500, and

(ii) No item of farm machinery and equipment not listed on Schedule A or on an approved production schedule shall be manufactured for sale in the United States.

(3) The War Production Board may, by specific written directions issued to any producer or class of producers, increase or decrease any quota or authorized use of materials as established pursuant to this order, or any order supplementary hereto; and may transfer any portions of such quota between producers, taking into consideration the amount and weight of materials to be used, the need for particular items at the time required in particular areas, the labor and transportation situation in the manufacturing areas involved, and such other factors as may be appropriate.

(d) *Exceptions* (1) *Repair parts.* Nothing in this order shall be deemed to restrict or control producers in the manufacture of repair parts for sale in the United States, subject to the provisions of paragraph (e) with respect to production and delivery schedules.

(2) *Bracketed items on Schedule A.* Wherever, in Schedule A, two or more items are bracketed together, the producer shall apply the respective percentages to his base production of each item in the bracket, and the total permissible weight thus determined may be distributed among all or any one or more of such bracketed items (regardless of the individual quota percentages) at his election.

(3) *Attachments may be lumped together.* Any producer, instead of conforming to the respective quota percentages for items of attachments as indicated in Schedule A, may at his election manufacture not more than an aggregate of 75% of his total base production of all attachments, and the total permissible weight thus determined may

be distributed among all or any one or more of such items of attachments as he may see fit: *Provided*, That once such election is made, it shall apply to all attachments to be manufactured.

(4) *Small producers.* Any small producer may substitute for the quota percentage listed on Schedule A for any item or items which he manufactures, the quota percentage 100%, but only to the extent that the weight of his total manufacture of all items for sale in the United States during the period July 1, 1943, to June 30, 1944, does not exceed, in the aggregate, 100% of his total base production thereof.

(5) *Uncompleted L-170 production.* During the period July 1, 1943 to June 30, 1944, inclusive, producers may manufacture for sale in the United States, in addition to the manufacture otherwise permitted by this order, all uncompleted domestic quotas under Order L-170 (including all amendments, appeals and specific authorizations).

(6) *Substitute materials.* The restrictions of this order shall not apply to the manufacture for sale in the United States by any person of any of the following items of farm machinery and equipment (other than those made from iron and steel):

- Bee hives
- Farm gates
- Feed trucks
- Grit boxes
- Hog troughs
- Laying nests
- Livestock feeders
- Milk stools
- Poultry feeders
- Poultry waterers;

Provided, however, That such items are made entirely (except for nails and essential strappings and fastenings, and except for doors in the case of livestock feeders) from any one or more of the following materials:

- Glass or other ceramic products
- Plain concrete
- Fibre board
- Wood fibre products
- Plywood (produced with binder or adhesive not restricted by Conservation Order M-25 or any other applicable M or L order)
- Gum and other hardwood lumber
- Softwood lumber (subject to the restrictions of Conservation Order M-208 and all other applicable M and L orders).

(7) *Substitution for critical materials encouraged.* To the extent that the weight of any item or items of a producer's quota as established by paragraph (c) has been or will be increased by his substituting for more critical materials entering into such item or items any one or more of the materials listed in subparagraph (6) of this paragraph (d), such increased weight shall not operate to reduce the number of units which he would otherwise be authorized

to manufacture pursuant to said paragraph (c). In addition, if any such producer has made, or shows that he can make, in any item or items of his quota as established by paragraph (c), a substitution of any of the materials so listed for more critical materials entering into such item or items, he may apply by letter to the War Production Board for reconsideration of his quota based on such substitution.

(e) *Production schedules.* (1) Subject to the provisions of this order, on and after July 1, 1943, each producer shall schedule his production and make deliveries of each item of farm machinery and equipment (and also non-farm machinery and equipment) and repair parts in accordance with such production and delivery schedules as may be authorized or prescribed for him in writing by the War Production Board.

(2) The War Production Board may, at any time, authorize or direct in writing any change in any such production or delivery schedule; and no producer shall alter any such schedule as approved, prescribed or modified pursuant to this paragraph (e), unless authorized or directed to do so in writing by the War Production Board.

(3) Notwithstanding the provisions of Priorities Regulation No. 1, producers may schedule their production of items of farm machinery and equipment and repair parts as if the orders therefor bore a rating of AA-2.

(4) On and after July 1, 1943, the delivery schedules for all items for farm use, and for export, as approved or modified pursuant to this paragraph (e), shall be maintained without regard to any preference ratings already or hereafter assigned to particular contracts, commitments or purchase orders, unless otherwise specifically directed in writing by the War Production Board.

(f) *Further restrictions.*—(1) *Items containing iron and steel.* No person shall manufacture, from iron or steel (excluding screws, nails, rivets, bolts, wire, strapping or small hardware for joining or other similar essential purposes), any of the following items:

- Bee hives
- Milk stools
- Tongues
- Silos (except for ladders, chutes and platforms)
- Cattle stalls
- Stanchions
- Stock pens
- Marking poles
- Thills
- Farm gates
- Boxes for farm wagons and trucks (not motor trucks)
- Farm wagon gears
- Farm trucks (not motor trucks);

Provided however, That nothing in this paragraph (f) (1) shall be deemed to prevent the manufacture of:

(i) Cattle stalls, stanchions, stock pens, marking poles, or farm gates from

re-rolled rail steel, plus strappings and essential hardware (and plus necessary wire in the case of farm gates), or

(ii) Farm wagon gears or farm trucks from re-rolled rail and axle steel, "top cuts," or Bessemer process steel, plus iron castings and wheels, and plus not more than 100 pounds of open-hearth process steel per item.

(2) *Restrictions on sale for domestic use.* Subject to such directions as may be issued from time to time as to rationing control by the War Food Administrator, no person shall sell any item of new farm machinery and equipment (except poultry equipment, horseshoes, mule shoes, oxen shoes, nails for such shoes, and harness hardware) which was manufactured for sale in the United States, and which he knows or has reason to believe will not be used in the hands of the ultimate consumer for farm use, except to fill a contract or purchase order bearing a preference rating of AA-4 or higher.

(g) *Excess inventory.* Any producer may sell to any other producer any material in his inventory which is in excess of his requirements for the items of farm machinery and equipment and repair parts authorized to be manufactured under the provisions of this order. Such sales shall be expressly permitted within the terms of paragraph (c) (3) of Priorities Regulation No. 13.

(h) *Standardization, simplification, substitution and conservation of critical materials.* (1) In the manufacture of any item of farm machinery and equipment or repair parts, no producer shall use any materials which are prohibited by M-orders or other restrictions on use of critical materials as now or hereafter ordered by the War Production Board.

(2) The War Production Board may from time to time issue supplementary orders or schedules establishing required specifications with respect to the manufacture of any item or items of farm machinery and equipment (or non-farm machinery and equipment) and repair parts. "Required specifications" may include requirements to standardize or simplify the types, sizes or models of, or the specifications for, any such item or items; to eliminate, reduce or conserve the use of critical materials in the production thereof; and to substitute less critical for more critical materials in the production thereof. On and after the effective date of any such supplementary order or schedule no farm machinery and equipment and repair parts affected thereby shall be manufactured except in accordance therewith.

(i) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction

may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Order L-170.* Except as herein otherwise provided, this order shall become effective as of July 1, 1943, and shall supersede Limitation Order L-170 as of that date. Supplementary Limitation Order L-170-a shall remain in full force and effect until revoked or modified.

(l) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Farm Machinery and Equipment Division, Washington, D. C. Ref: L-257.

Issued this 15th day of June 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A ATTACHED TO ORDER L-257

QUOTAS COVERING MANUFACTURE FOR DOMESTIC FARM USE OF FARM MACHINERY AND EQUIPMENT FOR THE PERIOD JULY 1, 1943, TO JUNE 30, 1944

Producers are not restricted by any quota percentage in the manufacture of repair parts.

Quotas for new machinery and equipment for farm use are expressed as a percentage of the net shipping weight of each item produced during 1940 or 1941, whichever was higher. In accordance with paragraph (d) (2), production of "bracketed items" may be distributed among all or any one or more items included in the particular bracket, so long as the total weight does not exceed that determined by applying the various quota percentages to the items in the particular bracket.

"Small producers" may use the quota percentage of 100% for any item or items they manufacture, so long as their aggregate production of all items does not exceed 100% of their total 1940 or 1941 production, whichever was higher, as provided in paragraph (d) (4).

Quotas for each item of attachments, unless election is made to lump together all attachments pursuant to paragraph (d) (3), are expressed as the same percentage as that listed for the machine with which the particular attachment is used (except engines).

Any item of farm machinery and equipment not provided for in this Schedule A is not to be manufactured for sale in the United States, unless specifically exempted under the order. Moreover, any manufacture of an item in excess of the percentages established in this Schedule A, even though it may be scheduled for production under paragraph (e), is permitted only if specifically authorized pursuant to paragraph (c) (3) or on appeal.

pair parts except to the extent listed on production schedules which have been approved pursuant to the provisions of paragraph (e) of this order.

(3) The War Production Board may, by specific written directions issued to any producer or class of producers, increase or decrease any quotas or authorized use of materials as established pursuant to this order; and may transfer any portions of such quotas between producers, taking into consideration the amount and weight of materials to be used, the need for particular items at the time required in particular countries, the labor and transportation situation in the manufacturing areas involved, and such other factors as may be appropriate.

(d) *Exceptions.* (1) During the period July 1, 1943 to June 30, 1944, inclusive, any producer may manufacture for shipment and/or ship, in addition to any export quotas established by paragraph (c) (1), any item of farm machinery and equipment or repair parts, which is within his authorized export quota under Orders L-26 or L-170 (including all amendments thereto and appeals granted thereunder), and which is covered by an export license issued by the Board of Economic Warfare or by a Lend-lease order, dated prior to October 1, 1943, whether or not such item is completely manufactured by that date.

(e) *Production schedules.* (1) Each producer shall schedule his production and shipments for export of each item of farm machinery and equipment (and also non-farm machinery and equipment) and repair parts in accordance with such production and delivery schedules as are approved, prescribed or modified for him pursuant to paragraph (e) of Limitation Order L-257. All provisions of that paragraph shall be applicable, unless otherwise indicated, to such schedules for export.

Section 1051.1 *General Conservation Order M-70* is hereby amended to read as follows:

§ 1051.1 *General Conservation Order M-70*—(a) *Definitions*. For the purposes of this order:

(1) "Raw jute" means unprocessed jute, including butts, meshta, urena lobata of all grades (commonly called congo jute) and punga.

(2) "Scrap jute" means the material commonly called scrap jute, including millrun, bagging, and sugar cloth; and burlap, excepting roofing bagging, which has been used as a container or cover, but which cannot be reclaimed for use as a container or cover by mending or other means.

(3) "Jute product" means scrap jute, and any product processed from raw jute, either alone or in combination with other material, including but not limited to yarn, roving, rope, twine, scrim, webbing, brattice cloth, linoleum burlap, woven jute fabric, imported grain bags, sacking, interlinings, and new or re-woven bale covering containing raw jute for covering raw cotton. The term shall not include burlap as defined in Conservation Order M-47, as amended, or sugar sacking for sugar areas in the Western Hemisphere.

(4) "Scrap jute manufactured product" means any end product manufactured from scrap jute either alone or in combination with other material including, but not limited to, new or re-woven

jute bale covering for covering raw cotton, carded or garnetted jute felt or jute sliver, oakum and twisted jute packing and punched jute felts.

(5) "Domestic jute product" means any jute product processed in the continental United States.

(6) "Imported jute product" means any jute product, excepting burlap as defined in Order M-47, imported into the continental United States in the processed form.

(7) "Woven jute fabric" means fabric with fast edges woven from jute and weighing not more than 6 ounces per yard, basis forty inches wide.

(8) "Scrim" means a woven jute fabric composed of single jute yarns, not exceeding 10 threads per inch, counting the warp and filling, and weighing not more than 3.6 ounces per yard, basis forty inches wide.

(9) "Webbing" means a woven jute fabric, with fast edges, not exceeding 12 inches in width.

(10) "Processor", as applied to raw jute, means any person who processes or who puts into process raw jute in the continental United States by performing any operation up to or through the manufacture of roving or yarn, and the term shall not include any person in any manufacturing capacities other than the production of roving or yarn; as applied to scrap jute, it means any person who processes scrap jute or who puts it into process either by mending or by converting into fiber to produce a manufactured product.

(11) "Put into process", as applied to raw jute means placing it upon a processing machine; as applied to scrap jute, it means reclamation by mending or converting into fiber to produce a manufactured product.

(12) "Dealer" means any person who purchases jute or jute products for resale but does not include a person who sells only at retail.

(13) "Damaged jute" means jute that has been rejected by the Defense Supplies Corporation or jute upon which an adjustment has been made by an insurance adjuster as a result of fire, water damage, storm or any type of damage making a given bale or bales unsuitable for use in the manufacture of products permitted by this order.

(14) "Continental United States" means the forty-eight states and the District of Columbia.

(b) *Control and allocation*. On and after June 15, 1943, no processor shall make or accept delivery of, or use or process jute or jute products in violation of orders of the War Production Board issued pursuant to this paragraph, except that imports of commodities listed in Order M-63 shall be governed by that order. The War Production Board may from time to time allocate the supply of jute or jute products, and specifically direct the time, manner and quantities in which deliveries to or by particular processors shall be made or withheld. It may also direct or prohibit particular uses of jute. Any direction, prohibition, or allocation, pursuant to this paragraph, must, to be valid, be in writing

and in the name of the War Production Board.

(c) *Restrictions on processing and use.* (1) No processor shall use or put into process any raw or scrap jute except (in the case of raw jute) for the manufacture of the products listed in List A, and (in the case of scrap jute) for the manufacture of the products listed in List B. No person shall use any jute product listed in List A, manufactured from raw jute, except for the purposes stated in List A. No person shall use any jute product listed in List B, manufactured after June 15, 1943, from scrap jute, except for the purposes stated in List B. No person shall use any imported jute product listed on List C, except for the purposes specified in List C.

(2) Any processor whose operations consist primarily of mending and who does not further manufacture scrap jute not suitable for mending may dispose of such unsuitable scrap jute to a processor who can process it or to a dealer. Unless he makes such delivery with reasonable promptness, he may not accept further deliveries of scrap jute.

(3) No processor shall put into process in any calendar month more raw jute than is necessary to meet his required deliveries of jute products and to maintain a practicable minimum working inventory. The term "practicable minimum working inventory" is to be strictly construed as meaning the minimum inventory which will permit of economical operation of plant and will depend, in each case, upon the practicability of changing a spinning system from the manufacture of one product to another.

(4) Whether he uses jute or any other fiber, no jute processor shall use any carding, drawing, roving or spinning machinery in the manufacture of any products other than products specifically permitted in this order, or in any other conservation order of the War Production Board specifically regulating the end uses for which fiber may be processed.

(d) *Restrictions on deliveries.* No person shall accept delivery of, deliver, purchase, or sell any raw jute, scrap jute, domestic jute product, or imported jute product for any use not permitted by this order. No person shall sell or deliver any such product to any person whom he knows or has reason to believe is not entitled to receive the same, or to any person whom he has reason to believe will put such material to a use not permitted by this order. Unless he knows or has reason to believe it to be false, any person may rely upon a certificate obtained from his customer or supplier indorsed on or attached to the purchase order or delivery receipt in substantially the following form:

This is to certify to you and to the War Production Board that delivery from or to you of _____ quantity of jute (Indicate whether raw, scrap, domestic product, or imported product) on or about _____, 1943, is of a kind, in an amount, and for a purpose permitted by WPB Order M-70, with the terms of which I am familiar. Materials referred to in this certificate will be used as permitted by the order.

By _____
Purchaser (or Supplier)
Duly Authorized Official

A person selling or delivering jute or jute products need not require such certificate if he satisfies himself in any other reasonable manner that the facts exist which warrant him in making a delivery under this paragraph.

(e) *Exceptions.* Notwithstanding paragraphs (c) and (d), the restrictions of this order do not apply to persons selling or purchasing at retail, farmers (as defined in Priorities Regulation 19, § 944.40 (g)), and persons purchasing manufactured products in or with which jute products have been used for insulation, caulking, packing, covering, or lining, and such persons shall not be deemed parties to any violation of this order unless they procure such violation and have actual knowledge thereof.

(f) *Restrictions of the use of damaged jute.* Any processor, person, or dealer who has in his possession damaged jute shall report the extent of the damage to the War Production Board, and shall make a representation to the War Production Board as to the percentage not suitable for the manufacture of products permitted by this order. Such report and representation shall be made by letter setting forth all pertinent facts. Upon making such representation to the War Production Board and on receipt of acknowledgment without objection he may then use or dispose of such portion unsuitable for the manufacture of products permitted by this order free from the restrictions thereof.

(g) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(h) *Reports.* Every processor and every person importing, processing, owning or controlling any raw jute or jute product shall report monthly on Form WPB-914, formerly PD-469. Every processor and every person importing, processing, owning, or controlling any scrap jute shall report within ten days after the end of each calendar quarter on Forms WPB-2576 and 2577.

(i) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Reference M-70.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority con-

trol and may be deprived of priorities assistance.

PART 3173—ELECTRIC MOTOR CONTROLLERS

[General Conservation Order L-250, as Amended June 15, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials and facilities used in the manufacture of electric motor controllers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3173.1 *General Conservation Order L-250*—(a) *Definitions*. For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any enterprise to the extent that it is engaged in the business of manufacturing controllers, and includes sales and distribution outlets and warehouses controlled by any such person.

(3) "Manufacture" means the production, fabrication or assembly of any controller, or of any part thereof.

(4) "Controller" means any new device or equipment used to stop, start or regulate electric motors or to protect electric motors against overheating or overloading; including manual and magnetic starters and controllers, contactors and relays, speed regulators, drum switches, shunt or series coil type thermal or magnetic overload relays (except switch gear induction type relays), motor field rheostats, and solenoid, thruster and torque motor brakes; and related pilot devices such as push button stations, and limit, pressure and float switches. The term does not include wiring devices or snap switches rated 15 amperes or less; safety switches; fuses; air circuit breakers; oil circuit breakers; domestic type thermostats, refrigeration controls or furnace controls; or any replacement part for a passenger automobile, truck, truck trailer, passenger carrier, motorized fire equipment, or off-the-highway motor vehicle, as defined in Limitation Order L-158, as amended.

(5) "Commercial" as applied to a size, type or rating of a product means any size, type or rating thereof heretofore normally produced by any producer as a standard item, for his inventory or for general distribution, and not in fulfillment of special orders.

(b) *Restrictions on orders*. No manufacturer shall accept any order, or commence manufacture in fulfillment of

any order, for any controller or part thereof, unless the order bears a preference rating of AA-5 or higher. The restrictions of this paragraph shall not apply to any order for any controllers, or parts thereof, for use on elevators and manufactured by a person engaged primarily in the production of elevators.

(c) *Restrictions on manufacture*. (1) Except as otherwise provided herein, on and after March 1, 1943, no manufacturer shall accept any order, or commence manufacture in fulfillment of any order, for any controller or part thereof unless such controller or part is to be manufactured in accordance with the standards prescribed in subparagraph (2) below. On and after May 14, 1943, no manufacturer shall deliver any controller or part thereof, unless it has been manufactured in accordance with such standards. The limitations of this subparagraph shall not apply to any order for, or delivery of any controller or part which was completely fabricated on or before February 13, 1943.

(2) Subject to the other provisions of this paragraph, all controllers and parts thereof shall be manufactured in compliance with the following requirements and shall be otherwise of the simplest practicable design:

(i) All control circuit wiring shall follow a straight line between terminals except where, and to the extent that deviation therefrom is necessary to avoid electrical or mechanical interference.

(ii) Control circuit wiring carrying 15 amperes or less shall have no greater copper content than size No. 14 AWG wire; except when and to the extent that a larger copper content is required to avoid abnormal voltage drop or heating.

(iii) All buses, connecting straps and terminals, except for oil immersed controllers, shall be of the smallest commercial size copper necessary to prevent the bus, strap or terminal from exceeding a temperature rise of 50° over 40° C. ambient temperature when carrying the full load current of the motor with which the controller will be used.

(iv) No control circuit wiring insulation between terminals on a controller shall be of more than one color for each voltage.

(v) No controller of a type listed in Appendix A, for a single motor, shall include a contactor having an ampere rating in excess of the maximum rating prescribed in the appendix for such controller; except where operation requires repeated opening of stalled motor current (such as plug-stop or jogging (inching) duty) at a rate in excess of 5 per minute.

(vi) No general purpose controller, for a single motor, of the type listed below rated 600 volts or less shall include control circuit fuses or a control circuit disconnect switch:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(e) Direct current reduced voltage controllers.

(f) Direct current, reduced voltage controllers with motor circuit switches or thermal or magnetic circuit breakers.

(vii) No general purpose controller, for a single motor, of the types listed below rated 600 volts or less shall include a control transformer unless master switches or pilot devices of the necessary rating are not obtainable as a commercial product:

(a) Alternating current magnetic across the line type starters;

(b) Alternating current magnetic reduced voltage autotransformer, reactor, impedance, or primary resistance type starters;

(c) Alternating current combination across the line starters and thermal or magnetic circuit breakers;

(d) Alternating current combination across the line starters and motor circuit switches.

(viii) No alternating current controller of the reduced voltage autotransformer, reactor, impedance, or primary resistance type shall be provided for a polyphase induction motor of 20 horsepower or less, rated 600 volts or less, except that the limitations of this paragraph shall not apply to a controller for an elevator, hoist or crane.

(ix) No controller or control equipment of the types listed below, rated 600 volts or less, shall be provided with a floor mounting type steel enclosing case or a floor mounting type steel cabinet:

(a) Magnetic controller for main mill or auxiliary motors, for a metal rolling mill (mill duty controllers);

(b) Magnetic controllers for cab operated cranes;

(c) Protective panels for cranes;

(d) Magnetic or manual controllers for fire pumps;

(e) Magnetic controllers for elevators;

(f) Magnetic controllers for skip hoists;

(g) Magnetic, manual, or combination magnetic and manual controller for a single synchronous motor;

(h) Magnetic controllers of the across-the-line or reduced voltage type for a single motor;

(i) Resistor banks for secondary or armature control, mounted separately from the controller; except where forced draft or air circulation is required to meet the temperature limitation.

The limitations of this subparagraph

(c) (2) (ix) shall not apply to any controller or control equipment used below the level of the ground in a mine or quarry; or to any controller to be used in a Class 1 hazardous location as defined in paragraph 5005, article 500, chapter 5 of the National Electrical Code, approved by the American Standards Association, August 7, 1940, or in a Class 2 hazardous location as defined in paragraph 5006, article 500 of the above mentioned code; or to be used generally in an atmosphere which is corrosive, or which contains such quantities of metal particles, dust or fumes as to be destructive of an open type controller; nor shall such limitations apply in any case where the controller is to be installed permanently outdoors without other protection.

(x) No controller shall be supplied with built in test jacks or test receptacles.

(xi) No alternating current motor controller of less than 1,000 horsepower, and no direct current motor controller of 50 horsepower or less, shall include instruments, meters, potential transformers, or current transformers or shunts to be used for metering, mounted on the controller panel or enclosure; but this restriction shall not apply to controllers used to regulate a series of direct current motors driving a common load, nor to alternating current line ammeter and direct current field ammeter to be installed on synchronous motor controllers, nor to ampere hour meters to be installed on industrial truck or locomotive control panels.

(xii) No aluminum, copper, chromium, nickel, cadmium, or alloys or finishes thereof shall be used in the manufacture of enclosing cases, name plates, identification plates or door handles for controllers.

(xiii) No stainless steel shall be used in the manufacture of any controller or part; except for resistance wire or ribbon or where necessary to provide non-magnetic properties required for operation or to prevent sticking or binding of moving parts.

(3) The limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration.

(d) *Miscellaneous provisions*—
(1) *Records and reports.* All persons affected by this order shall keep and preserve, for not less than two years, accurate and complete records concerning inventories, production and sales. All such persons shall execute and file with the War Production Board, such reports and questionnaires as the Board shall request from time to time.

(2) *Violations.* Any person who willfully violates any provision of this order,

or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order may be filed by either the manufacturer or the purchaser or proposed purchaser. Any such appeal shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. On appeals from the provisions of paragraph (c) (2) (viii), the letter shall include the following data:

(i) Horsepower, voltage, frequency and phase of the motor to be controlled;

(ii) The kva rating of the transformer bank supplying the motor;

(iii) The maximum load on the transformer bank, exclusive of the motor to be controlled;

(iv) Description of the equipment being driven by the motor if reduced voltage starter is necessary to limit starting torque;

(v) And any other information necessary to establish the need for a reduced voltage starter.

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, General Industrial Equipment Division, Washington, D. C.; Ref.: L-250.

Issued this 15th day of June 1943.

[INTERPRETATION 1]

Paragraph (c) (2) (ix) prohibits the use of floor mounting type steel enclosing cases or steel cabinets for various kinds of controllers, with certain exceptions. These exceptions include cases for use in an atmosphere which is corrosive or which contains metal particles, dust, or fumes, or for use out-of-doors without other protection.

A question has arisen as to whether Type I (general purpose) and Type IA (semi-dust

tight) enclosing cases are included within the above mentioned exception. Since Types I and IA cases are not suitable for protection against conditions of the kind which form the basis for the above mentioned exemptions, such equipment is not deemed to be within the exception regardless of the use to which the purchaser alleges he wishes to put the equipment. PART 3173—ELECTRIC MOTOR CONTROLLERS

[Interpretation 2 to General Conservation Order L-250]

The following official interpretation is hereby issued with respect to General Conservation Order L-250 (§3173.1):

Subparagraph (c) (3) of § 3173.1 (General Conservation Order L-250) provides that the limitations of paragraph (c) shall not apply to any controller delivered for use aboard any ship owned or operated by the Army, Navy, Maritime Commission or War Shipping Administration. A question has been raised as to the proper classification of floating dry docks. It was contemplated that floating dry docks produced for service anywhere would be considered ships within the meaning of the paragraph.

PART 1405—FERRO ALLOYS

[MPR 405]

FERROSILICON AND SILICON METAL

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for sales of ferrosilicon and silicon metal by a specific maximum price regulation. The Price Administrator has ascertained and given due consideration to the prices of ferrosilicon and silicon metal prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industries which will be affected by this regulation.

In judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

§ 1405.152 *Maximum prices for ferrosilicon and silicon metal.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 405 (Ferrosilicon and Silicon Metal), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: § 1405.152 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871.

N. B. For general terms see Section 5 below.

SEC. 4 *Maximum prices for ferrosilicon other than standard grades listed.* The maximum price for any ferrosilicon which has a silicon content which does not fall within the range for any of the standard grades, for which maximum prices are prescribed above, shall be determined as though it fell within the next lowest standard grade. For example, a ferrosilicon containing 23% silicon would be priced on the basis of a 15% ferrosilicon containing 18% silicon, which silicon content is the maximum for the particular grade.

SEC. 5 *Terms of general applicability—(a) Credit.* No charge shall be made for extension of credit when payment is made within 30 days of date of invoice.

(b) *No spot premiums on sales to the United States or any agency thereof.* No spot premium may be added on any sale or delivery of ferrosilicon or silicon metal to the United States or any agency thereof.

(c) *Limited freight allowance on certain sales to the United States or any agency thereof.* If, on the request, instruction or direction of the War Production Board, ferrosilicon (except the

15% grade) or silicon metal is sold to the United States or any agency thereof by a producer, who has only one plant in the Eastern Zone and sells from such plant for delivery in the Eastern Zone, the maximum freight to be allowed by such seller need not exceed freight from producer's plant to St. Louis, Missouri.

SEC. 6 *Charges for packing.* (a) The domestic packing of all grades of ferrosilicon and silicon metal, which is covered by the packing premiums in the price tables above, is packing in drums or barrels of 30 to 50 gallons capacity, which are suitable for domestic shipment. Charges for packing for ocean shipment, when requested by the buyer, may be made as provided in the price table above.

(b) In the case of packing in smaller containers than those listed, charges may be made as follows:

(1) The highest charge which the seller made for such packing on a delivery made by him during January, February or March 1942 (This packing charge need not have been billed separately.); or

(2) If the seller cannot make this determination on the basis of a delivery, then the highest charge which the seller quoted for such packing during January, February or March 1942 (This packing charge need not have been quoted separately.); or

(3) If the seller cannot determine his maximum charge for such packing under either of the above provisions, then a charge to be approved by the Administrator. This charge shall be reported within 15 days after delivery and, pending approval, such charge may be paid and received subject to adjustment between the parties if the charge is disapproved. A charge once reported and approved need not thereafter be reported by the same seller.

Reports called for by this provision shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C., and the charge reported may be approved or disapproved by a letter signed by the Price Executive of the Non-Ferrous Metals Branch. When a charge is disapproved by letter, the Administrator will issue a formal order to the same effect if within 30 days the party reporting such charge for approval requests him to do so.

(c) *Packing expenses on sales to procurement agencies.* On sales and deliveries of ferrosilicon or silicon metal to a procurement agency of the United States the charges for packing, which are provided above, may be added to the maximum price and Supplementary Order No. 34¹ shall not apply to any sale or delivery of ferrosilicon or silicon metal.

SEC. 7 *Charges for grinding.* (a) Standard grinding for ferrosilicon and silicon metal shall be that specified above in the price schedules for the different grades. All other grinding shall be considered special grinding and may be charged for as follows:

(1) Grinding to a size larger than or intermediate between standard sizes for the particular grade: The price listed for the next smaller size.

(2) Grinding to a mesh smaller than any listed for the particular grade or to special specifications which include a bottom screen size as well as a top screen size:

(i) The highest charge which the seller made for such grinding and sizing on a delivery made by him during January, February or March 1942 (This grinding and sizing charge need not have been billed separately.); or

(ii) If the seller cannot make this determination on the basis of a delivery, then the highest charge which the seller quoted for such grinding and sizing during January, February or March 1942 (This grinding and sizing charge need not have been quoted separately.); or

(iii) If the seller cannot determine his maximum charge for such grinding and sizing under either of the above provisions, then a charge to be approved by the Administrator. This charge shall be reported within fifteen days after delivery and, pending approval, such charge may be paid and received subject to adjustment between the parties if the charge is disapproved. A charge once reported and approved need not thereafter be reported by the same seller.

Reports called for by this provision shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C., and the charge reported may be approved or disapproved by a letter signed by the Price Executive of the Non-Ferrous Metals Branch. When a charge is disapproved by letter, the Administrator will issue a formal order to the same effect if within 30 days the party reporting such charge for approval requests him to do so.

(b) *Specially processed ground ferrosilicon.* Where ground ferrosilicon or silicon metal is specially processed or treated (as stabilizing finely ground ferrosilicon to be used in coating welding rods) an extra charge may be added for such treatment or processing. This charge shall be determined as provided in subparagraph (a) (2) above, for grinding to smaller than standard mesh and for grinding to special specifications.

SEC. 8 *Sales by independent warehousemen.* The maximum price at which an independent warehouseman may sell ferrosilicon or silicon metal shall be the maximum price at which the quantity and grade sold by him could be sold by a producer for delivery to his warehouse, plus the following differentials or premiums:

500 lbs. and over...	10% to price determined as above.
Less than 500 lbs., down to 100 lbs.	15% to price determined as above.
100 lbs. and less....	20% to price determined as above.

The maximum price for independent warehousemen is f. o. b. warehouse with no allowance for freight.

For the purpose of this section "Independent Warehouseman" means a private seller, other than a manufacturer of

ferrosilicon or silicon metal or a subsidiary or affiliate thereof, who renders the service of maintaining a stock of ferrosilicon and silicon metal for the convenience of buyers who desire to purchase small quantities or to receive quick delivery.

SEC. 9 Applicability of regulation—
(a) *Geographical.* The maximum prices established by this regulation shall apply to the forty-eight states and the District of Columbia.

(b) *Export sales.* The maximum price at which any person may export ferrosilicon or silicon metal shall be determined in accordance with the provisions of the 2nd Revised Maximum Export Regulation,² issued by the Office of Price Administration.

(c) *Import sales and sales of imported ferrosilicon and silicon metal.* This regulation shall not apply to the importation of ferrosilicon or silicon metal or to the sale of ferrosilicon or silicon metal which has been imported into the forty-eight states and the District of Columbia. The General Maximum Price Regulation³ and the supplementary regulations issued thereunder shall apply to the importation of ferrosilicon and silicon metal and the sale of imported ferrosilicon and silicon metal.

(d) *Relation to General Maximum Price Regulation.* This regulation supersedes the General Maximum Price Regulation as to sales and deliveries of ferrosilicon and silicon metal other than imported ferrosilicon and silicon metal.

SEC. 10 Records and reports. (a) On and after July 1, 1943, every person making a purchase or sale of ferrosilicon or silicon metal shall keep for inspection by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942 remains in effect, complete and accurate records of each such purchase or sale showing (1) the date thereof; (2) the name and address of the buyer and the seller, (3) the quantity and analysis of each grade and size purchased or sold, (4) the date of delivery of each shipment, and (5) the price paid or received.

(b) Persons subject to this regulation shall submit such reports, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, as the Office of Price Administration may from time to time require.

SEC. 11 Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not in-

terfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 12. Applications for adjustment—
(a) *When available.* The Office of Price Administration may, by order, adjust any maximum price established by this regulation whenever it finds, from an application for adjustment or on its own motion, that the price impedes or threatens to impede any seller's production of ferrosilicon or silicon metal and that the seller's production is essential for the prosecution of the war.

(b) *Principal considerations.* In considering whether production is impeded or threatened, although other relevant factors may be considered, principal consideration will be given to the over-all profit or loss of the seller before income or excess profits taxes. Wherever possible the seller's future annual earnings before income and excess profits taxes, as estimated by the Office of Price Administration on the basis of actual current earnings, will be compared with the seller's average profit or loss before income and excess profits taxes for his four fiscal years beginning on or after January 1, 1936, adjusted for changes in invested capital (here called "base profit"). Where the seller was not in business during a part or all of this base period, or where the base profit is lower than the base profit which the Office of Price Administration considers adequate for a business of the type and size conducted by the seller, a profit which the Office of Price Administration considers adequate will be used in lieu of the base profit. In addition consideration will be given to the seller's revenue from the grade or grades of ferrosilicon or silicon metal on which he seeks price adjustment and to his total revenue from all other sources.

(c) *Amounts of adjustment.* Increases in price will be permitted in an amount which the Office of Price Administration considers sufficient to avoid the impeding of production or the threat of impeding production.

(d) *Form of application.* An original and one copy of an application for adjustment must be filed with the Office of Price Administration, Washington, D. C. It is suggested that, before filing an application for adjustment under the provisions of this section, the seller obtain from the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C., a statement of the specific information that will be necessary in order that his application may receive prompt action.

SEC. 13 Petitions for amendment. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance

with the provisions of the Revised Procedural Regulation No. 1,⁴ issued by the Office of Price Administration.

SEC. 14 Prohibition against dealing in ferrosilicon and silicon metal at prices above the maximum. (a) On and after July 1, 1943, regardless of any contract, agreement, or other obligation, no person shall sell or deliver ferrosilicon or silicon metal and no person in the course of trade or business shall buy or receive ferrosilicon or silicon metal at prices higher than the maximum prices set out in this regulation; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

(b) Any practice or device which is an attempt to get the effect of a price higher than the maximum without actually charging a higher price is prohibited and is as much a violation of this regulation as an outright excessive price. This applies to devices involving commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(c) Prices lower than those set out in this regulation may be charged, demanded, paid or offered.

SEC. 15 Enforcement. (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(b) No war procurement agency, nor any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this regulation or the Emergency Control Act of 1942, as amended. "War procurement agency" includes the War Department, the Department of the Navy, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any agency of the foregoing.

SEC. 16 Definitions. (a) When used in this regulation the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(8) "Freight" means the charge for transportation not in excess of the charge made by railroads and includes the federal tax on such railroad transportation charge.

(9) "Eastern Zone" includes Mississippi River points and all the area east of the Mississippi River.

(10) "Central Zone" includes all the area west of the Mississippi River (not including Mississippi River points on the west side of the River) and east of a line formed by the western boundaries of the States of New Mexico, Colorado, Wyoming, and the extension of the western boundary of Wyoming directly north to the Canadian border.

PART 1340—FUEL

[MPR 137,¹ Amdt. 35]

PETROLEUM PRODUCTS SOLD AT RETAIL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1340.91 (m) is amended by designating the paragraph as (m) (1) and adding a new subparagraph (2) to read as set forth below:

(2) If a retail dealer is not a tank wagon buyer of gasoline, kerosene, range or stove oil, distillate fuel oils, tractor and diesel fuel at a particular retail establishment, and, therefore, is unable to take advantage of increases permitted by certain tank wagon buyers under the preceding paragraph, then such retail dealer's maximum prices for such petroleum products at his retail establishment shall be the sum of his maximum prices prior to June 19, 1943, and an amount equal to the difference between his delivered cost on such date and the maximum tank wagon price of the reference seller at that point as defined by § 1340.159 (b) (11) (i) of Revised Price Schedule No. 88.

Illustration: 1. A service station operator who operates a central storage bulk plant from which he supplies only his own service stations, and who makes no tank wagon sales to other service stations, has a maximum retail price for gasoline at his service station of 18¢ per gallon and his delivered cost of gasoline at that station is 15¢ whereas the tank wagon price of gasoline of the reference seller at that point is 16¢, the service station operator may increase his retail price 1¢ per gallon to 19¢ or the amount of the difference between his laid-down cost (15¢) and the reference seller's tank wagon price (16¢) at that point.

2. A service station operator who operates his own bulk plant and makes tank wagon sales to other service stations, has a maximum retail price at his station of 19¢ per gallon and his delivered cost at that station is 15¢. His tank wagon price to other service stations is 16¢ and the reference seller's tank wagon price is also 16¢. In this case the maximum price at his station may be increased 1¢ per gallon to 20¢, the difference between his delivered cost (15¢) and the reference seller's tank wagon price (16¢) at that point.

3. A service station operator purchases gasoline by tank car for direct delivery into his service station tanks, and his maximum retail price is 16¢ per gallon. His delivered

cost is 10¢ per gallon, whereas the reference seller's tank wagon price is 14¢ per gallon at that point. The operator may increase his maximum price by 4¢, to 20¢ per gallon, the 4¢ being the difference between his delivered cost (10¢) and the reference seller's tank wagon price (14¢) at that point.

This amendment shall become effective June 19, 1943.

Notice of such hearing is hereby given to said Code Member and to all other persons or entities having an interest in this proceeding. Application for disposition of this proceeding without formal hearing and intervening petitions may be filed as provided by the Rules of Practice and Procedure before the Division in such matters.

[Docket No. A-2004]

DISTRICT BOARD 12

ORDER GRANTING TEMPORARY RELIEF AND
NOTICE OF AND ORDER FOR HEARING

In the matter of the petition of District Board No. 12 for establishment of a new size group and the establishment of price classifications and minimum prices.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this

Division by the above-named party, requesting the temporary establishment of a new size group and of price classifications and minimum prices therefor, for all shipments except truck and for truck shipments of District No. 12 coals.

Although this petition did not set forth sufficient facts upon which there may be based the relief requested in the original petition, reasonable necessity appears for the granting of temporary relief in the manner hereinafter set forth.

No petitions of intervention having been filed with the Division in the above-entitled matter; and the following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on July 8, 1943, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That W. A. Cuff, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before July 3, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 12 for the establishment of a new size group in the schedules of effective minimum prices for District No. 12 for all shipments except truck and for truck

shipments, such size group to be known as Crushed Domestic Stoker, Size Group No. 7-A, and to be prepared from double screened sizes crushed to sizes which will pass through a 1 1/4" round hole screen or its equivalent and over a 3/8" round hole screen or its equivalent, and for the establishment of the same minimum prices at the mines for the new size group as are applicable to Size Group 2 coals, with the exception that as to the 52 towns in which price adjustments were made in the order dated July 26, 1941, in Docket No. A-86, the delivered price on Size Group 7-A shall not be less than 20¢ per ton more than the delivered price at such destinations of Size Group 7.

It is further ordered, That, pending further order, temporary relief is granted as follows: Commencing forthwith, the schedule of effective minimum prices for District No. 12 for all shipments except truck and for truck shipments are supplemented to include the price classifications, minimum prices and other matter set forth in the schedules marked Supplement R. and Supplement T annexed hereto and made a part hereto.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The original petition states that if satisfactory domestic stoker coal is to be produced from Iowa coal in any appreciable quantity, it must be made from the crushing of double screened sizes and that in most instances it will be practicable to make domestic stoker coal only by crushing standard lump. The petition requested, however, that the proposed new size group be defined as coal prepared from crushing all double screened sizes (Size Groups 1, 2, 3, 4, 6 and 7). In view of the allegation in the petition, the temporary relief granted herein is limited to coals which will pass through a 1 1/4" round hole screen or its equivalent and over a 3/8" round hole screen or its equivalent, made from the crushing of lump coals and the larger double screened sizes (Size Groups 1, 2 and 3).

The original petition further requested that for rail shipments the minimum price for the proposed new size group shall be at the mine the same as the minimum price for Size Group No. 2 coals, and that the delivered minimum prices therefor for shipment by rail to any destination shall be such as will net to the producer the same minimum mine return as though such producer had shipped Standard Lump, Size Group No. 2, to such destination, with the exception that as to shipments to the 52 towns in Market Areas Nos. 47, 48 and 49 for which price adjustments were made in Docket No. A-86, the delivered price for the proposed new size group shall not be less than 20 cents per net ton more than the delivered price for Size Group No. 7 coals at such destinations. It does not appear

that the requested prices for the proposed new size group should be granted in full herein without a hearing, for the reason that the minimum prices to eight of these towns in Market Area 49 would be 20 cents per net ton in excess of the present minimum prices for Size Group No. 2 coals for shipments to other destinations in Market Area No. 49. The temporary relief granted, however, establishes minimum prices for Crushed Domestic Stoker coal (Size Group 7-A) for shipments to each of these 52 destinations the same as the present effective minimum prices for Size Group No. 2 coals for such shipments, except that for shipments to the said 8 towns in Market Area 49 temporary minimum prices are established herein the same as the effective minimum prices for Size Group 7 coals for shipments to such towns.

DISTRICT BOARD 8

ORDER GRANTING RELIEF

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8 and other matters, Docket No. A-1999; in the matter of the petition of District Board No. 8 for a change in seam designation for the Tilson Nos. 1, 2 and 3 Mines, Mine Index No. 5935, of the Tilson Mining Company, Docket No. A-1999, Part II.

Memorandum opinion and order severing Docket No. A-1999, Part II, from Docket No. A-1999, and granting temporary relief in Docket No. A-1999, Part II, and notice of and order for hearing.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, has been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8, and also requesting changes in shipping points, correction of county locations and subdistrict numbers, deletion and consolidation of mine index numbers, and changes in seam designations, for certain other mines in District No. 8.

It appears, however, that no final determination should be made at this time with respect to a change in the seam designation for the Tilson Nos. 1, 2 and 3 Mines, Mine Index No. 5935, of the Tilson Mining Company from "Millers Creek" to "Millers Creek & Elkhorn No. 2," as requested in the original petition filed in this matter, because the relative market values of the coals produced in these two seams are not always the same and because the minimum prices and price classifications established for such coals are not completely identical.

It appearing that a reasonable showing of necessity has been made for the

granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That the portion of Docket No. A-1999 relating to the Tilson Nos. 1, 2 and 3 Mines, Mine Index No. 5935, of the Tilson Mining Company be, and the same hereby is, severed from said docket, and designated as Docket No. A-1999, Part II.

It is further ordered, That a hearing in the above-entitled matter under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on June 29, 1943, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Travis Williams, or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before June 24, 1943.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention, or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 8 for a change in the seam designation of the Tilson Nos. 1, 2 and 3 Mines, Mine Index No. 5935, of the Tilson Mining Company from "Millers Creek" to "Millers Creek & Elkhorn No. 2."

It is further ordered, That, pending final disposition of the above-entitled matter, temporary relief be, and the

same hereby is, granted as follows: Commencing forthwith, the schedules of effective minimum prices for District No. 8 for all shipments except truck and for truck shipments are supplemented to include the price classifications and minimum prices appearing in Supplement R and Supplement T annexed hereto and made a part hereof.
